ESSAY CONTEST TO BOOST SEWER BONDS

PREPARE FOR COMMUNITY CHRISTMAS PROGRAM

Celebration to Take Place at High School Grounds Night of Dec. 25

Glendale's Community Christmas celebration will take place Christmas night, Tuesday, December 25, on the Glendale Union High school grounds, starting at 7 o'clock, announces V. M. Hollister, in charge of the general program. At a luncheon held yesterday noon in Jensen's Egyptian Village, 133 North Brand boulevard, a committee called together by Community Service, perfected plans for the big Yuletide festival. There will be music by the Glendale Choral club and by the Community band, and the fire department has consented to string colored lights on the big tree under which activities will center.

Spirit of Giving
Decorations of this tree are in charge of L. W. Chobe, noted designer of Glendale's numerous prize-winning floats, and can, therefore, be counted upon to be excellent.

It is planned this year, states Mr. Hollister, to emphasize the spirit of giving rather than of receiving, so the children of the city are invited to bring gifts that will be dispersed to needy children in Glendale and to the "Kiddie Koop" and Orphanage, Los Angeles.

Working with Mr. Hollister on the general program is a committee comprising members of the Ministerial union, Rotary, Kiwanis and Exchange clubs. The Boy Scouts are also co-operating.

Plan for Music
The Glendale Choral club is under the direction of J. Arthur Myers, who states that any singers desirous of participating in the Community Christmas celebration are invited to rehearsals, which are held Monday nights at the Glendale Union High school.

On Christmas morning caroling will be featured throughout the city, reports R. Ernest Tucker, Community Service executive, the districting plan being employed, such young people from each church having charge of a district.

Community Service
Glendale's next Community Service night has been set for Thursday, December 13, Mr. Tucker states, the Tuesday afternoon clubhouse being thrown open for the occasion. A splendid program is being worked out, he states, and the public is cordially invited.

Those in charge of the program are: Mrs. E. W. Hayward, Mrs. Frank A. Ayars and Mrs. H. E. Bartlett. The January Community Service night will be in charge of the Rotary club.

HOBERT FUNERAL SERVICE MONDAY

Veteran Railroad Official Dies at Pasadena Home at Age of 95 Years

LOS ANGELES, Dec. 8.—Funeral services will be held here Monday for Charles G. Hobart, declared to be one of the oldest railroad men in the country, who is dead at his home in Pasadena. Mr. Hobart, who was 95 years old last November, and a native of New Hampshire, started working in 1859 in the shops of the Maine Central railroad. Ten years later he became shop foreman for a railroad company at Kansas City, which later became the Santa Fe. Later he was associated with the Oregon Railway and Navigation Company. In 1904 Mr. Hobart came to Pasadena and retired.

NOT RIGHT WOMAN?

LOS ANGELES, Dec. 8.—L. C. Harman, former Portland, Ore., detective, declared here today that the woman held here with Elgin Pittman, arrested on suspicion of having murdered his wife near Pendleton, Ore., last June, was not the original Mrs. Pittman, as claimed by Pittman.

May Force Churches To Secure Permit For Holding Service

LOS ANGELES, Dec. 8.—Los Angeles churches, without exception, today faced the probable necessity of securing permits from the Police Commission to hold services tomorrow, as Councilman Gregory announced his determination to demand Mayor Cryer enforce a city ordinance prohibiting meetings of clubs, associations or organizations without a permit signed by the Police Commission.

Another provision of the same ordinance states that organizations of persons for the purpose of promoting sports, literature, science, charity, politics, religion, or other common objects, come within the scope of the law.

To Demand Arrests
Gregory declared that he would demand the arrest of Rev. "Bob" Shuler and Rev. Gustav Briggleb if they attempt to conduct a scheduled mass meeting tomorrow without obtaining a permit from the police commission.

Initiation of a movement to recall Mayor Cryer today was declared to depend largely upon the outcome of an executive meeting next Monday night of representatives of the film industry, financial and industrial interests of the city.

Cause for Action
The proposed action against the mayor is declared to be a direct result of the puritanism wave now sweeping Los Angeles, which started with the closing of the motion picture directors' annual ball Thanksgiving eve in accordance with a city ordinance prohibiting dancing after midnight and climaxed by a raid on the Jiminista Grotto circus for alleged gambling.

LABOR PARTY MAY RULE IN BRITAIN

Defeat of Tory Government May Throw Power to Workers' Cabinet
LONDON, Dec. 8.—The possibility of a labor government faced Great Britain today for the first time in history as a result of the outcome of the general election. The Tory majority has been turned to a minority in the House of Commons, while the labor party has the second strongest.

Tory headquarters announced today that the Tory cabinet would attempt to remain in power and meet the new parliament when it convenes next month. Premier Baldwin's resignation may be handed to King George later on.

Tory headquarters announced that the meeting of the new parliament, scheduled for January 8, may be postponed and that there is positively no possibility of a Tory-Liberal coalition government.

THREE MEN KILLED

KANSAS CITY, Mo., Dec. 8.—Three men were killed when a steel tank belonging to the Kansas City Refining company toppled over here today, crushing them. The tank was being moved from the old site of the refining company to a new plant site.

SHIP CALLS FOR HELP

CAPE TOWN, South Africa, Dec. 8.—Wireless calls for help were picked up today from the American steamship Ambridge, fifty days overdue. Assistance was sent.

LATEST NEWS

OPEN GRAVE, WOMAN'S HEAD IS MISSING
MILWAUKEE, Dec. 8.—Authorities here today found and opened the secret grave of Mrs. Ora Tompkins, at Donges Bay, Wisconsin, near here, after receiving advices from Chicago police that she had been slain. Mrs. Tompkins had been beheaded and the head was not in the grave. The grave was found in a beautiful ravine.

MEXICO REVOLUTION IS INCREASING
WASHINGTON, Dec. 8.—Reports received by the state department today from American consuls in Mexico confirmed press dispatches, reporting that the revolution headed by General Guadalupe Sanchez has gained considerable headway. The American consul at Guadalajara reported that General Estrada had renounced the Obregon government and took possession of the federal and state offices in Guadalajara on behalf of De La Huerta. He met no opposition, the dispatch said.

COLONEL E. T. NOBLE KILLS HIMSELF
PHILADELPHIA, Dec. 8.—Colonel Edward Theodore Noble, righthand man of General "Hell and Maria" Charles G. Dawes during the world war, shot and killed himself in a hotel today. Colonel Noble was associate general counsel of the Delaware and Hudson Railroad company and the Hudson Coal company and former general counsel of the Washab railroad. He was decorated by governments of seven foreign countries for his war work with the advocate general's department overseas. His father and brother live in Wichita, Kan. Ill health is believed to have prompted his suicide.

LONG BEACH AND LOCALS IN GAME

High School Football Teams In Championship Bout At L. A. Coliseum

With the exception of a strong wind from the north, perfect football weather, under a cloudless sky, greeted the warriors from Glendale and Long Beach as they trotted on the Los Angeles Coliseum field this afternoon to battle for the supreme gridiron honors of southern California inter-scholastic circles.

The clouds which threatened rain and a heavy field, with added discomfort to the rooters, last night, had vanished during the night and a typical California day greeted the throng, estimated at 25,000 that turned out to witness the contest.

Crowd Turns Out
Long before the flyweights took the field at 12:30 o'clock, the six tunnels of the stadium which were open poured forth their contribution to the steadily increasing crowd.

The field had all the aspects of a college struggle. Banked on the north were the Glendale rooters, appearing as a solid mass of Red and Black. Across the field on the south were the Long Beach supporters in Green and Gold, their friendly rivalry adding color to the occasion. Both sections gave the customary sultory cheer for their opponents, amid the applause of thousands of neutral spectators who were on hand to witness this gridiron classic.

Before the game, the Glendale high school band, in uniform of school jerseys and white flannels, paraded up and down the field led by the drum major of the University of Southern California band. The two rooters' sections put on their various stunts, and promptly at 2:15 o'clock, Referee Bryan blew the whistle.

Pictures of Game
William A. Howe of the Glendale Theatre had a movie camera man in attendance taking pictures of the game, for exhibition purposes. It was estimated that when the game started, the crowd was the largest that had ever witnessed a prep football game in southern California.

It is expected the contest will be over shortly after 4 o'clock. Telephone "The Glendale Evening News if you wish the score.

OPPOSE KELLOGG FOR ENVOY POST

Magnus Johnson Will Fight Ambassador Appointment to Great Britain

WASHINGTON, Dec. 8.—A one man war loomed on the congressional horizon today when Senator Magnus Johnson, farmer-laborer of Minnesota, gave warning that he will fight senatorial confirmation of the appointment of former Senator Frank B. Kellogg, as ambassador to Great Britain.

"I will not stand by the appointment of Kellogg," Johnson said. "I don't believe ex-Senator Kellogg represents the ideas of the progressive people of America and therefore I will oppose his confirmation by the senate."

Johnson may be alone in his fight for even his colleague, Senator Henrik Shipstead, farmer-laborer of Minnesota, said he was "undecided" about opposing Kellogg's appointment.

AWAIT M'ADOO'S SPEECH

LOS ANGELES, Dec. 8.—Local Democrats were wondering today whether or not William G. McAdoo, former secretary of the treasury, and mentioned as a Democratic candidate for president, will formally announce his candidacy next Wednesday when he will speak before the Democratic luncheon club and the Women's Democratic league.

SURRENDERS HIMSELF

SAN DIEGO, Dec. 8.—Harold P. Minick, under suspicion for the murder of Carrie Madison at Yakima, Wash., a year ago, was today held here for investigation, in response to an order sent by the district attorney at Yakima, it was said. Minick gave himself up to the police here stating that he heard he was wanted for murder.

"THERE'S A LONG, LONG TRAIL A-WINDING"

ANNIVERSARY IS TO BE OBSERVED

Rev. W. E. Edmonds to Close Twelfth Year as Pastor of Local Church

It was twelve years ago that Rev. W. E. Edmonds came to Glendale to take up the duties of pastor of the Glendale Presbyterian church, with a membership of less than 150, and tomorrow the anniversary of his coming will be celebrated by a church organization of 1300 members.

Marking this anniversary tomorrow will be the final service in the Glendale theatre, which has been temporary quarters until the auditorium in the new church should be completed.

Rev. George L. Snively of Lewistown, Ill., will be the speaker at the morning service. Rev. Snively arrived in Glendale yesterday morning and is holding conferences with the officers of the church in anticipation of the dedication of the new building, Sunday, December 18. He is planning to meet the members of the congregation Sunday afternoon at 2:30 o'clock in the new building to further discuss plans for the dedication.

In order to complete the church by the appointed time two shifts of men are working every day.

CALLES QUILTS IN PRESIDENT RACE

Candidate for Obregon's Place Withdraws as Revolt Grows in Mexico

MEXICO CITY, Dec. 8.—Alarmed over the effect his candidacy for the presidency of Mexico was having throughout the nation, General P. Elias Calles today announced his withdrawal from the race.

General Guadalupe Sanchez, leader of the revolt against President Obregon, has announced that the movement arose from President Obregon's efforts to make General Calles his successor in the presidency. The rebels supported Adolfo De La Huerta, another presidential candidate.

CHICAGO POLICE TRAIL KIDNAPPER

Railway Employee Held Girl Captive in Dingy Room Five Days, Claim

CHICAGO, Dec. 8.—A police dragnet was thrown out today for Harry Williams, 38, a railroad switchman, accused by 12-year-old Rose Borth as the man who kidnaped her last Sunday evening and held her captive five days in a dingy room.

Rose was back with her parents today, unharmed except for the pall of terror cast over her experiences.

City-wide search and extensive publicity given the kidnaping was believed by the police to have frightened her abductor into releasing her.

BLAME COLLISION FOR SHIPS' LOSS

Unknown Tug Believed Sunk After Crashing Into Sound Steamer

ANACORTES, Wash., Dec. 8.—The ill-fated Sound freighter, T. W. Lake, which foundered with fifteen men aboard between Lopez and Fidalgo islands in Thursday's storm, collided with an unknown tug, and both vessels sank with all hands, according to belief expressed by marine men here today.

The collision theory is borne out by failure to identify three of the seven bodies washed ashore on islands bordering Lopez pass as members of the Lake's crew, and by the finding of the superstructure of the Lake on the eastern shore of Lopez island, four miles from where four of the bodies were recovered.

CASHIER ROBBED

SAN FRANCISCO, Dec. 8.—Shortly after noon today two unmasked bandits held up J. P. Stephenson, cashier for the Folger Coffee company, at Main and Mission streets, and robbed him of \$1,250 he was carrying to a bank.

TWO MEN DIE IN CAFE GUN FIGHT

'Bad Man' Starts Shooting As Order for Cracked Ice Comes Too Slowly

CHICAGO, Dec. 8.—Bullets whistled a sharp dance of death in connection with the mythical tunes to which 500 patrons were dancing as two murderers and accompanying casualties dedicated the new \$100,000 Japanese room of the fashionable Rendezvous cafe on the north side early today.

Two employees of the cafe were shot to death and a detective sergeant wounded when an alleged "bad man" thought he had to wait too long for a bowl of cracked ice. The killer himself was shot through the stomach in his flight. He probably will die.

The dead were Leopold Gouch, steward of the cafe; Henry Ring, a bartender. The "bad man," John Sheehy, is near death in Chicago General hospital with a bullet wound through the stomach. Sergeant William O'Malley of the detective bureau was wounded in the arm.

Glendale Stands Fourth In Building Totals For November In Southwest

November was a month of great building activity in the Pacific Southwest, new operations being much heavier than is usual at this season. Forty-three cities, including Los Angeles, reported a total for the month of \$25,834,547, as compared with \$20,578,126 for November, 1922, and \$32,550,781 in forty-two cities for October, 1923, AND THE CITY OF GLENDALE STOOD FOURTH IN THE LIST! IT WAS RIGHT UP AMONG THE LEADERS!

Forty-two cities outside Los Angeles reported for November, 1923, a total of \$12,322,505, as compared with \$9,222,416 for the same month a year ago and \$12,003,999 in 41 cities for October, 1923. Cities outside Los Angeles show a slight gain over October, the loss of nearly seven millions in the total for all cities in the Pacific southwest being in Los Angeles.

Good for Glendale!

CASH PRIZES OFFERED TO PUPILS OF SCHOOLS

Glendale Realty Board In Charge; Winners Will Secure Publications

Register Now!

Tonight is your last opportunity to register to vote at the sewer bond election on January 8, if you have not already done so. Registration closes tonight—positively, for that's the law. Deputies will receive registrations at The Glendale Evening News office this afternoon and tonight.

An essay contest for grammar, intermediate and high school pupils, with cash prizes totaling over \$50, is announced by Cameron D. Thom, chairman of the special sewer committee of the Glendale Realty board. The subject chosen is: "Should Glendale Have Sewers—Why?"

Speakers will appear before the congregations of local churches Sunday, January 6, and tomorrow, December 9, to campaign for a sewer bond victory at the polls. Mr. Thom also states, the belief being that the issue can be put more sharply before the public by concentrating on the days just before the election of January 8.

The essay contest will open Monday, December 10, and close Friday, December 14, with conditions and prizes given as follows: grammar school, length of essay not to exceed 200 words, prizes of \$10, \$5 and \$2; intermediate school, length of essay not to exceed 250 words, prizes of \$10, \$5 and \$2; and high school, length of essay not to exceed 300 words, prizes of \$10, \$5 and \$2.

To Publish Winners
The Judges, Mr. Thom states, will be a committee from the Realty board. The winners of the contest will be announced at the regular board meeting of January 2. Winning essays will be published in The Glendale Evening News on the three days immediately preceding the election, the committee states.

The prizes are given by the Glendale Realty board as part of its campaign to register an overwhelming vote in favor of the bond issue, thus ensuring for the city a sewer system in keeping with its spirit of progress and remarkable growth.

THREE HURT IN WRECK

SEATTLE, Dec. 8.—Three persons were injured and traffic was blocked until early this morning by a landslide which wrecked the Great Northern's International Limited just north of here last night. The injured were F. George, engineer, bruised leg; "Dutch" Eberhart, fireman, fractured arm, and W. A. Donnelly, mail clerk, general contusions.

SOCIAL EVENTS

Drama Affairs
Under the leadership of Mrs. Max Green the Drama Section of the Tuesday Afternoon club is anticipating a series of interesting affairs during the coming months. At the section meeting yesterday afternoon at the clubhouse plans were outlined for a Christmas party, Friday, December 21, at the home of Mrs. Colin Cable at 505 South Columbus avenue; a New Year's party, Friday, January 11, at the home of Mrs. Clara Bryant Heywood, chairman of drama of the Los Angeles District Federation of Women's clubs, will be honored guest and speaker; and for the production of a play some time in March, with Grandville Sturgess as the possible director.

Plays of Stewart Walker were reviewed and studied yesterday. Mrs. A. L. Bryant gave "Six Who Pass While the Lentils Boil" and "Sir David Wears a Crown" and Mrs. J. Roger Bentley, "Neverless."

Hostesses were Mesdames C. J. Newcomb and B. L. Cline.

Sisters Elect
Election of officers for the coming year was the special feature of the meeting of the Pythian Sisters held last night at the Knights of Pythias hall, with the most excellent chief, Mrs. Rosella Jolliffe, in charge.

The following officers were elected: Mrs. Mabel King, most excellent chief; Mrs. Melissa Dickson, excellent senior; Mrs. Edith Coghlin, excellent junior; Miss Gertrude Cox, manager; Mrs. Irene Johnson, protector; Mrs. Amanda Rowe, guard; Mrs. Viola Peters, records and correspondence; Mrs. Florence Johnson, mistress of finance; Mrs. Fellows, musician; Mrs. Carrie Eyerick, installing officer; Mrs. Mabel King, press correspondent; Mrs. S. S. Holmes, trustee for three years.

The annual installation of officers will be held January 4, it is announced.

At the close of the business session refreshments were served and an informal social hour enjoyed.

Hostess to Club
Mrs. M. J. Brennan of 519 North Central avenue was a charming hostess at luncheon and cards Thursday at her home. The Christmas motif was carried out most effectively in decorations of poinsettias and holly, with the dainty appointments of the table in corresponding colors.

A delicious four-course luncheon was served, a unique feature of the dessert course being individual ice creams, molded to represent Santa Claus carrying a tiny Christmas tree adorned with a lighted candle.

Five-hundred was played, Mrs. J. G. Monaghan making highest score and receiving first prize, and Mrs. Charles Rudel second.

The guests were members of the Semi-Monthly club and included Mesdames H. M. Doll, Anna Smith, Carrie Schmitt, Mary O'Brien, Peter L. Ferry, E. F. Ferry, T. J. Keleher, J. G. Monaghan, Charles Rudel, Jesse Chapuis and Miss Nell Quinn.

P. E. O. Initiate
Mrs. Mabel Vaile Hunter was initiated into Chapter BA, P. E. O., yesterday, at the all-day meeting with Mrs. C. C. Cooper of 302 North Central avenue.

Mrs. Edith Arnold, president, was in charge of the meeting, and Mrs. Helen Smith was assisting hostess.

Guests of the chapter were Mrs. Charles Farnham and Mrs. E. U. Emery of Chapter L.

A buffet luncheon was served at noon with artistic appointments in yellow and white.

Mrs. Nell Ayars had arranged the program for the afternoon and gave an informal talk on "The Life and Letters of Dorothy Canfield Fisher." Mrs. Alice Ripley entertained with a group of piano numbers.

Hear Baroness
Baroness W. E. De Ropp gave a very interesting and instructive talk yesterday afternoon at the regular meeting of the Magnolia Parent-Teacher association on "Conditions in Russia."

On account of the absence of the president, Mrs. A. Danmerman, Mrs. E. B. Moore, federation president, presided over the meeting. At this time Mrs. Moore urged the members to work on a membership drive and plans were discussed for immediate action. Mrs. Moore states she will present the member gaining the most new members with a large box of candy. Further details regarding the drive will be announced at a later date.

Holiday Plans
Plans for Christmas activities were made yesterday at the meeting of the W. C. T. U. with Mrs. Francis E. North Kenwood street. In the absence of Mrs. Ruby Smart, president, Mrs. C. W. Bacon presided.

It was decided to send a Christmas gift to the soldiers' home center in San Diego, and one to the Frances Willard Home for Girls in Los Angeles. Any one having contributions should leave them with Mrs. Edith Glassey of 460 West California avenue.

The subject for the open forum hour yesterday was "Christian Citizenship."

With Mrs. Mark
Mrs. George Mark of 1256 South Boynton street opened her home yesterday for a meeting of the Foreign Missionary Society of the Central Avenue Methodist church. Mrs. R. J. Strucken is president, and Mrs. Julia Goodsell is secretary.

Mrs. Carter had charge of the devotional hour, and Mrs. Gertrude Tisdale led in the study of "Creative Forces in Japan." Several letters were read from foreign missionaries.

Presents Pupils
The two yearly recitals given by the music pupils of Mrs. Grace E. Jackson, are always full of pleasure and interest for the pupils, their parents and friends, and last night the annual winter recital was given in the Chamber of Commerce hall.

Mrs. Jackson has one of the largest piano classes in Glendale and her splendid training she is giving her pupils was shown in the various numbers given last night.

Opening the program was a group of cunning little pieces by the kindergarten piano class, including Jane Dickerson, Bertie Mayo, Gloria Curran, Thelma Leaton, Margery MacPherson, Bettie Ulom.

Other piano numbers were given by Anita Billings, Dorothy Potter, Evelyn Lorenz, Kathleen Arnold, Mildred Fife, Jean Lyons, Margaret Glascock, Jean Moffatt, Barbara Bell, Wanda Billings, Henrietta Moody, Dorothy Witzel, Lottie Hudson, Ann Ruth Blankenship, Rowland Fullen, Vada Spilsbury, Catherine Henry, Ethel Sanders, Elaine Harrison, Eleanor Spelbring, Muriel Mariatt, Evelyn Fullen, Ruth Hellman, Edwin Dadds, Evelyn Mink, Alice Fuelscher, Celia Logan, Rosa Brown, Eleanor Decker, Ruth Kreibring, Marjorie Jockel, Virginia Calkins, Winifred Hunt, Beulah Schulte.

Jean Lyons, accompanied by Lottie Hudson, gave a vocal solo, and Earl Mayo, accompanied by Mrs. Mayo, gave a saxophone solo.

Selects Motto
"Knowledge Is Power" is the significant motto chosen by the Women's Parliamentary Law club at the meeting yesterday morning at the public library. In addition to selecting a motto, the women also selected a club flower, the decorative blue corn flower, popularly known as the "bachelor button."

Mrs. Opal Greenwalt, club president, was in charge of the meeting, during which the women decided to provide a Christmas tree, toys and other forms of Christmas cheer for some needy family at the coming holiday time.

Upon the resignation of Mrs. Grace Barthe as secretary, because of illness, Mrs. R. W. Haight was chosen to fill the position.

RASMUS TO HELP
DEDICATE CHURCH
Special Service at Montrose
to Consecrate Edifice
Sunday Afternoon

Church people of the valley are interested in the dedication tomorrow afternoon of the Montrose-La Crescenta church at the corner of Montrose and Orange-dale avenues. Dr. H. I. Rasmus of the First Methodist church of Glendale will preach the dedicatory sermon.

This property was recently purchased and a tabernacle 30 by 58 feet has been erected. It has a seating capacity of 200 and is equipped with all conveniences.

Rev. George L. Durr of Detroit, Mich., has been appointed the pastor. James L. Brown is superintendent of the Sunday school, to meet at 10 o'clock Sunday morning.

The dedication will take place at 2:30 o'clock and in addition to Dr. Rasmus' address, there will be music by the choir of the First Methodist church of Glendale.

Pastor's Wife Helps
Another leader in the new church organization is Mrs. Durr, president of the Aid society.

Following the dedication there will be a series of meetings during the coming week. Monday night Dr. W. L. Y. Davis will preach and conduct the first quarterly conference; Tuesday night, Rev. Leo C. Kline, pastor of the Central Avenue Methodist church of Glendale, will preach, accompanied by his brotherhood of forty men; Wednesday night Rev. W. B. Collins will preach; Thursday night, Rev. H. C. Mullen, pastor of the Pacific Avenue Methodist church of Glendale, will preach; Friday night there will be a free concert, with moving pictures by C. W. Tummel.

SCOUTS REVOLUTION
WASHINGTON, Dec. 8.—Manuel G. Tellez, charge d'affaires of the Mexican embassy here, issued a statement late yesterday tending to minimize the seriousness of the reported revolution in Mexico and declaring that the majority of the army remained loyal to the Obregon government.

Five hundred dollars a square foot for some antique woolen rugs; and \$1,000 a square foot for a few antique silk rugs is considered a fair price by some of the best judges.

dolls, and the boys represented soldiers.

Give Readings
Readings "Little Flo's Letter," by Twilla McBroom, pupil of Miss Muriel Wilson and "Poor Old Maid," by Katherine Girard, pupil of Miss Louise Fambrough, were followed by songs "China" and "Brownies Firefly" by Rhodora McKee, Adelaide Gillman, Dorothy Fisher, Beatrice Gunther, Lois Keely, Cleone Barton, Thille Leek, girls of the fifth and sixth grades under Miss Bessie C. Ross.

Rhodora McKee played a piano solo, "Melody in E flat" and Frances Starr "In The Sweet Long Ago" (minuet).

"In The Morning" and a "Rafuge in Distress" were readings given by Mary Jane Neal, and Saxophone solos, "One Fleeting Hour" and "Asleep in the Deep" by Adeline Woodbury, were the closing numbers.

At the close of the program, the guests were invited to the hall, where refreshments of home-made pumpkin pie and coffee were served by a number of the mothers of the P. T. A.

THEATRES

THE GLENDALE
"Alias The Night Wind" is the William Fox vehicle for William Russell showing today at the Glendale Theatre, a film crammed with dramatic action, telling a tense story of a search through the underworld of a great city for \$100,000 in stolen bonds. There is no let-up in this story until the end, which is thoroughly satisfying.

In addition, five acts of standard Bert Levey coast-to-coast vaudeville are on the boards today, offering a variety of musical, dancing and novelty numbers.

Starting tomorrow, and running to Friday, with six matinees and eleven evening performances, is Jackie Coogan's new and greatest production, "Long Live the King," a picture from the brilliant pen of Mary Roberts Rinehart, directed by Victor Schertzinger from an adaptation by C. Gardner Sullivan, with continuity and scenario by Eve Unsell, distributed by Metro.

THE GATEWAY
Elinor Glyn's "Six Days" shows for the last times today at the Gateway Theatre. In the cast are Frank Mayo, Corinne Griffith and a number of supporting players of high merit. It is a Goldwyn picture, directed by Charles J. Brabin.

Starting tomorrow and running Monday and Tuesday, beautiful Pola Negri comes to the Gateway Theatre in her new picture, "The Spanish Dancer," made by Paramount from a foreign play adapted by June Mathis and Beulah Marie Dix. Herbert Brenon produced the picture.

In the cast are Antonio Moreno, Wallace Beery, Kathlyn Williams, Garoth Hughes and Adolphe Menjou. It is one of Paramount's finest productions of the year and has won unstinted praise from all parts of the country. Added attractions during the run of this big picture include Harry Halm, well known baritone, in several Spanish selections.

EDISON EMPLOYEE IS FATALLY HURT

Walter Gibbs of Pasadena Falls 100 Feet From Suspended Basket

An inquest is to be held at 9:30 o'clock Monday morning at the Jewel City Undertaking company over the body of George Walter Gibbs, employe in Camp No. 9 of the Southern California Edison company, who was fatally injured yesterday morning in a fall from a wire basket in which he was suspended between two of the high tension towers in the hills north of Sycamore canyon.

According to reports, Mr. Gibbs was in the basket working at stringing electric wires. The basket was suspended on a very tightly strung wire, which suddenly gave way in such a way that he was flung from the basket and fell to the ground 100 feet below, striking on his back.

His fellow workmen rushed to his aid and an ambulance was summoned. He was rushed to the Glendale Sanitarium and Hospital, where he died a few minutes later from a hemorrhage.

The deceased was 21 years of age and made his home with his parents, Mr. and Mrs. John W. Gibbs of Pasadena. His father is in the employ of the Southern California Edison company in Camp No. 7. His mother was in Visalia and was immediately notified of her son's tragic death. She is to arrive in Glendale today.

TEACHER STAGES MUSICAL RECITAL

Mrs. Cleghorn to Present Varied Program at C. C. Auditorium

Representing the Emerson School of Self-Expression, Mrs. Ethel Hodgson Cleghorn is to present a program to-night in the Chamber of Commerce hall at 150 South Brand boulevard.

She is a member of the professional department of the school and her program is one of a series planned by the members. Mrs. Cleghorn's friends, pupils of the school and their friends have been cordially invited to the affair, and special announcement is made that there will be 100 seats for the public in general and all interested may attend.

The program, a costume collaneous group, a costume group and a playlet. Assisting artists will be Miss Besse Long, pianist of Glendale; Miss Carrie L. Stafford, soprano, of Los Angeles; and Miss Harriet Stafford, accompanist.

Shaws Attend School Dedication Services

Judge and Mrs. Hartley Shaw and Mrs. Shaw's mother, Mrs. H. S. West of 212 West Park avenue, went to Los Angeles last night to attend the dedication of the new Cumnock School at 5323 West Third street.

The dedicatory address was given by Dr. James A. Blaisdell, president of Pomona college, and the dedicatory prayer by Dr. W. H. Brooks.

After a program and reception the guests were shown about the new building, which Judge and Mrs. Shaw declare to be fine in every detail.

Kill your grouch with your smiles before your grouch kills you.

The Truth About Sewer Bond Issue

THE AGREEMENT BETWEEN GLENDALE AND LOS ANGELES

This is the third of a series of articles discussing the agreement between Glendale and Los Angeles relative to the disposal of sewage from Glendale through the sewers of Los Angeles. Section Six of this agreement follows:

"VI. The party of the first part agrees to dispose of all sewage discharged into said sewer up to the full capacity thereof; and it is mutually understood and agreed that when the full capacity of said sewer has been reached by the discharge of sewage therein from all sources allowed by this agreement without regard to the relative amount so discharged therein from territory within the respective cities, parties hereto, that then the obligation of the party of the first part shall cease and the said party of the first part and the party of the second part shall thereafter make no further connections with said sewer; and that either of said parties hereto may then and thereupon resort to any court of competent jurisdiction to prevent such further connections with said sewer; and that the foregoing shall be considered a substantial and essential provision of this agreement; provided, however, that such preventive action shall in no wise affect the prosecution or continuance of any other action or proceeding available under the terms of this agreement."

Section VI is, from the standpoint of Glendale, the most important section of the agreement. In this section Los Angeles agrees to dispose of ALL the sewage discharged into the proposed sewer up to ITS FULL CAPACITY. This statement is qualified in no way whatsoever.

It does not say that Los Angeles will dispose of this sewage flow WHEN the ocean outfall sewer is completed; neither does it say that Los Angeles will dispose of this sewage IF the connecting sewer at Sixth and Utah streets will take such flow. The statement is plain, easily understood, and to the point: "The party of the first part agrees to dispose of all sewage discharged into said sewer (the sewer to be constructed by Glendale) up to the full capacity thereof."

When the sewer is filled to its capacity no further connections shall be made. This provision is binding on both Los Angeles and Glendale, and either city may enforce it against the other. The section does not limit the amount of sewage contributed by Glendale to any definite amount; neither does it say that when the sewer becomes full that connections made previously shall be removed or that sewage then flowing shall be diverted, but simply that "when the full capacity of said sewer has been reached" the said party of the first part and the party of the second part shall thereafter make no further connections with said sewer."

This condition will not be realized, according to the engineers of the Burns & McDonnell Engineering company and the sewer division of the city of Los Angeles, before thirty or forty years hence. When that time arrives it will be necessary to build a new sewer to take care of any further increase in flow, but the sewer to be built now will continue to give service for probably a hundred years longer—until the end of its life.

WOODMEN HOLD ANNUAL ELECTION

Glendale Camp No. 12,866 to Name New Officers and Adopt Candidates

A rally of Woodmen from adjacent points will be held Monday night, December 10, at the hall of the Glendale camp, No. 12,866. Modern Woodmen of America, corner of Park avenue and South Brand boulevard, when annual election of officers will be had and a large class of candidates adopted, announces Dr. Bion S. Warner, consul. The degree team of the Golden State camp will put on the work.

At the conclusion of the meeting, a turkey will be taken home by some lucky winner of a drawing that will be held. Dr. Warner states, urging members to turn out in full strength, not only to make the gobbler event interesting, but to let the new officers know that they will have the support of a large majority for the year of 1924.

Sailors Abandon Car, Owner Being Sought

An anonymous report was received by the police department yesterday afternoon that two sailors had abandoned a Ford car at the corner of Mountain street and Watson court.

Captain W. A. Loving investigated and found the car in a wrecked condition and without registration certificate or license plates. It was towed to a local garage, and an effort is being made to locate the owner.

FIRES AT BANDITS

CHICAGO, Dec. 8.—Bullets flew like rain at a wedding here yesterday, when three bandits escaped with \$4,700 taken from a bank messenger they stopped on the street. A policeman, who saw them robbing the messenger for the Depositors State bank, ran up firing as he went. The thieves returned the salvo. A passing wagon driver was wounded so seriously he may die.

NEW HOME TRACT OPEN TO PUBLIC

Salisbury Manor Being Sold As Residence Sites By Roy W. Clayton

Salisbury Manor is one of Glendale's newest and most attractive residential park subdivisions, and, according to Roy W. Clayton, 205 West Broadway, manager of the Glendale branch office, sales are most gratifying.

The La Canada school adjoins the tract on one side, while across the street on Michigan avenue is the La Canada postoffice, a church and several grocery and general merchandise stores. Included in the plan of the tract are a series of business lots facing on Michigan avenue. The street paving is to be widened about thirty feet and broad sidewalks and fancy electroliners will be added development features. Provision for stores of the better class is being made.

It is estimated that there are now 4000 people within a very short distance of the new business district.

Salisbury Manor is about 1500 feet elevation, which brings it above the fogs, and the former owners of this famous old citrus grove state that frost is unknown. It was formerly owned by Dr. S. S. Salisbury.

CLOSE TWO BANKS

ST. PAUL, Dec. 8.—The State Deposit bank and the Market State bank of Minneapolis, were closed yesterday by Andrew Virzill, state bank examiner. Depleted reserves was given as the reason. Adam Hanna is the president of both institutions. Deposits in the State Deposit bank were \$487,000 and in the Market State bank, \$382,000.

WOULD ARREST WIFE

SAN FRANCISCO, Dec. 8.—E. R. Herwick yesterday secured a warrant for the arrest of his wife, Ariel Herwick, and Charles Babb, charging a statutory offense. He told the police judge his wife had eloped from their Long Beach home with Babb last week and that with private detectives he had found them in an apartment here.

Criminals are made without effort, but to reform them takes all the resources of mankind.

Seven Lives are Lost In Mass of Flames

WALLACEBURG, Ont., Dec. 8.—Seven persons, one a mother and her son, the others her sister and her four children, are dead today following a fire which destroyed Sombra township farmhouses last night.

The women burned to death were Mrs. Harry Babcock of Sombra township and Mrs. Ramsay, her sister, of Port Huron, Mich.

A lamp explosion is believed to have ignited the house.

NEW BUFFER

FACTS AND FIGURES PROVE GLENDALE'S BIG NEED OF COMPLETE SEWER SYSTEM

Officials Point Out Why City Must Vote Bond Issue to Secure Health Protection and to Continue Great Growth and Full Prosperity; Project Is Much Cheaper Than Annexation

Glendale must either vote the \$1,600,000 sewer bonds or face annexation to Los Angeles, declares Councilman Sam Davis, who, with Mayor Spencer Robinson and the members of the City Council and other forward-looking Glendaleans, have sponsored and pushed this movement from the start.

With an adequate, up-to-date sewer system assured, the city will attain a population of 100,000 in three years, experts predict. Without such a system, Glendale must ultimately beg mercy of Los Angeles and be absorbed.

Therefore, the sewer bond campaign, Councilman Davis asserts, must meet the annexationists on their own ground and defeat them with cold facts. At a recent meeting held by the Glendale Foothill Improvement association in the Grand View school, he produced a series of arguments backed up by figures that were so conclusive

debt, with a great deal higher tax rate than at present, and without the very sewer system they are certain to get under the present plan.

Judging from the numbers of questions asked and from the satisfaction expressed over the clear replies, it can be safely stated that when Glendale people understand the sewer matter in its various angles, they become heartily in favor of it. On the night of December 15, the occasion of the public mass meeting called to explain the sewer project to all Glendale, it is urged by Mayor Robinson and Councilman Davis that every resident of the city who does not thoroughly understand every angle of this great forward-looking project be present as a civic duty and obtain the enlightenment that will make his vote a sewer bond issue.

Chester A. Smith, engineering expert for the firm of Burns & McDonnell, who are making Glendale's preliminary sewer survey,

addressed the meeting of the Foothill Improvement Association Tuesday night of this week, declaring that his organization had never before experienced a city of Glendale's size totally without a sewer system and stating that generally it is considered a serious enough matter when a community reaches 10,000 population without adequate disposal facilities.

Taking up each of the five Lippencott proposals of a year ago, Mr. Smith analyzed them and showed why they were not practical for Glendale.

Going into some detail on Pasadena's sewer farm problem, he showed that the system was unsatisfactory at the present time and living a great deal of trouble, in addition to requiring constant large outlays of capital to maintain.

The fact that cities so located as Glendale must ultimately form metropolitan sewer districts, as is done in Boston and other eastern cities, was stressed by Mr. Smith, who pointed out that Fullerton, Anaheim and a number of surrounding communities have already formed such a district, with Santa Ana as their consolidation point, while Linwood, Watts and communities in that neighborhood are forming such a district at the present time.

The Pacific ocean is the one and only natural sewage outlet for Southern California, Mr. Smith told his audience. All other arrangements were makeshifts, he said, and would in the end prove costly, insufficient and unhygienic.

Future Growth

The impossibility of predicting the future growth of such centers as Glendale was stressed by Mr. Smith. It being pointed out that three years ago it was believed by experts that the city would attain a population of 40,000 by 1940.

It was for this reason, he said, that the present plan calls for a system, connecting with the Los Angeles outfall, of such capacity as to care for a population of 1,000,000 in Glendale and surrounding communities, while allowance is made for 20 per cent in excess of an ultimate Glendale population of 240,000.

The election called for January 8 is to authorize the \$1,600,000

Description of Sewer

The following description of the proposed Glendale sewer system is given by the firm of Burns & McDonnell, noted sewer engineers:

The accompanying map shows the nine proposed intercepting lines or mains which are planned to bring the sanitary sewer system within reach of every home in the city of Glendale. The heavy lines shown on the map and marked "Main No. 1," etc., indicate the location and size of the mains to serve the city.

Main No. 1—Varies from 8-inch to 12-inch in diameter and connects with the main outfall sewer at Tyburn avenue and Hollywood drive, and follows Tyburn avenue to Gardena avenue, thence to Los Feliz road, thence on Los Feliz road to San Fernando, thence on San Fernando to Magnolia.

Main No. 2—Varies from 8-inch to 18-inch in diameter and connects with the main outfall sewer at Parkdale avenue and west of San Fernando road and follows Parkdale to San Fernando, thence on San Fernando to Palmer, thence on Palmer to Glendale avenue, thence on Glendale avenue to Elk avenue.

Main No. 2-A—Varies from 8-inch to 12-inch in diameter and connects with Main No. 2 at Los Angeles street and Parkdale and follows Los Angeles street to San Fernando road, thence on San Fernando road to Elk avenue.

Main No. 3—Varies in size from 8-inch to 15-inch in diameter and connects with Main No. 2 at Palmer and Glendale avenue. This main follows Palmer avenue, Adams, Acacia and Verdugo road to Colorado street.

Main No. 4—Varies from 8-inch to 22-inch in diameter and connects with the main outfall sewer on Colorado and west of San Fernando road. This line follows Colorado, Glendale, Harvard, Sycamore Canyon road and Sierra avenue to Scholl drive near the head of Scholl canyon. This main will take care of the principal commercial district of Glendale.

Main No. 5—Varies in diameter from 8-inch to 15-inch and connects with Main No. 4. This line follows San Fernando road, Salem and Chester to Patterson avenue.

Main No. 6—Varies from 8-inch to 24-inch in diameter and connects with the main outfall sewer at Aviation drive and west of San Fernando. This line follows Aviation drive to San Fernando, thence on San Fernando to the northwest city limits of Glendale.

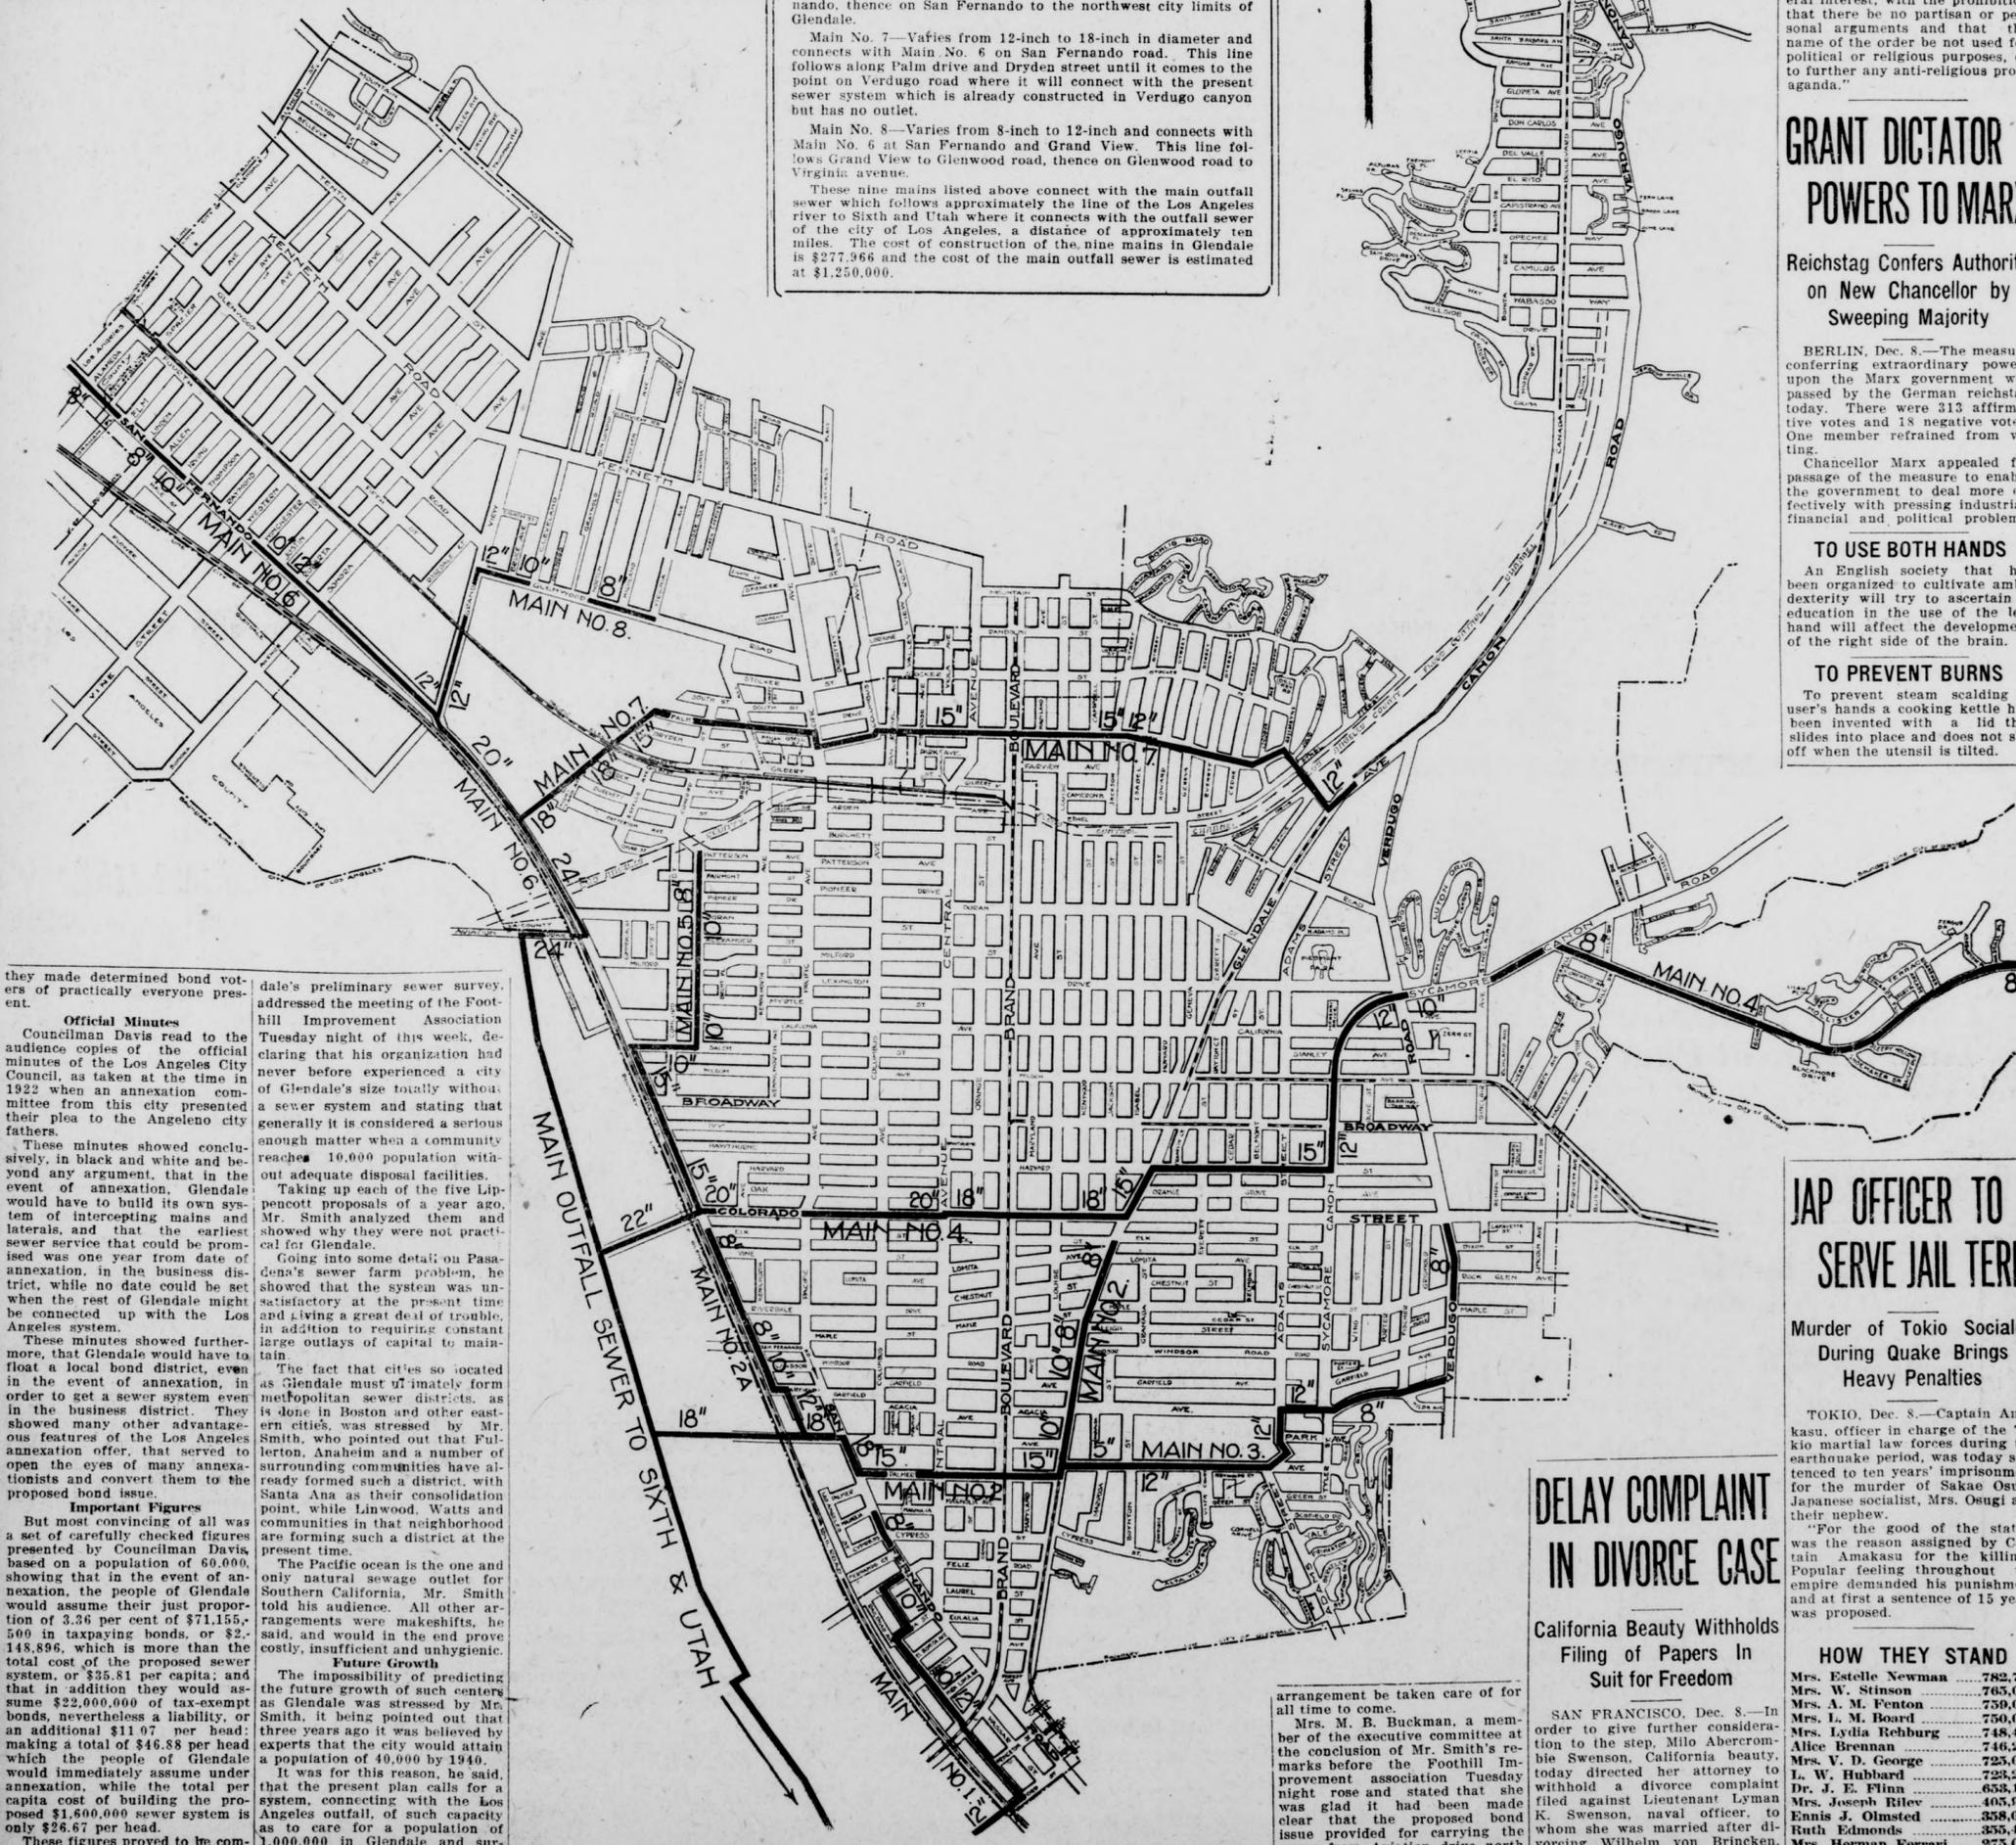

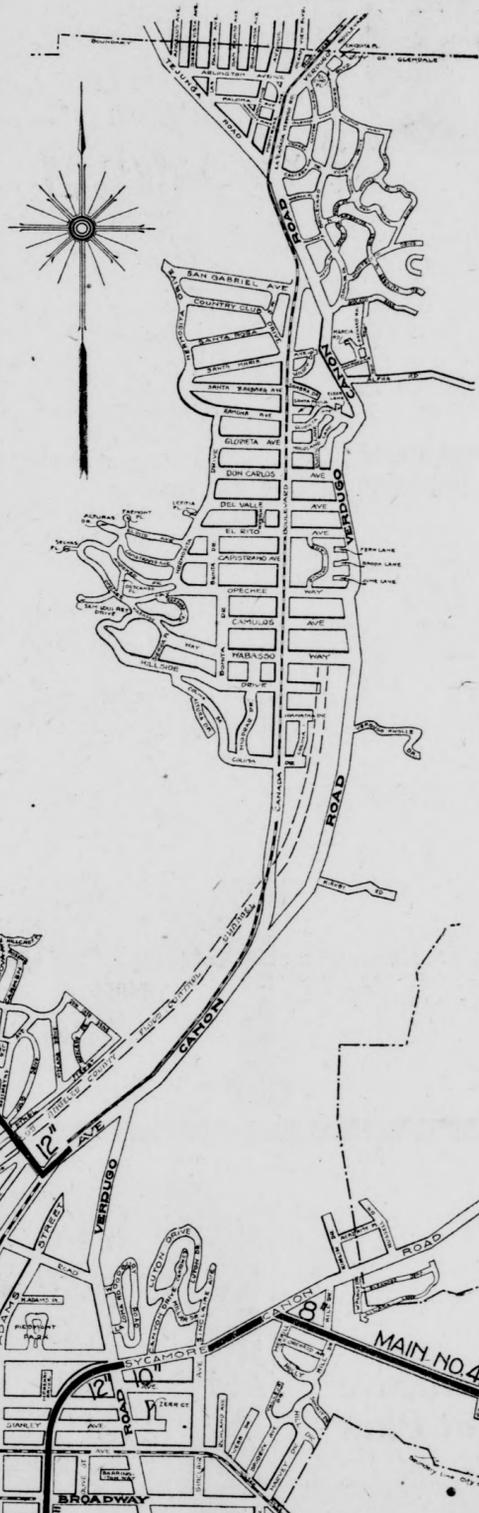

Main No. 7—Varies from 12-inch to 18-inch in diameter and connects with Main No. 6 on San Fernando road. This line follows along Palm drive and Dryden street until it comes to the point on Verdugo road where it will connect with the present sewer system which is already constructed in Verdugo canyon but has no outlet.

Main No. 8—Varies from 8-inch to 12-inch and connects with Main No. 6 at San Fernando and Grand View. This line follows Grand View to Glenwood road, thence on Glenwood road to Virginia avenue.

These nine mains listed above connect with the main outfall sewer which follows approximately the line of the Los Angeles river to Sixth and Utah where it connects with the outfall sewer of the city of Los Angeles, a distance of approximately ten miles. The cost of construction of the nine mains in Glendale is \$277,966 and the cost of the main outfall sewer is estimated at \$1,250,000.

Lines of Sewer System Are Shown on City Map

Exact location of the main trunk line and nine intercepting lines of Glendale's proposed sewer system are shown in the above map of the city, prepared by Burns & McDonnell, sewer experts of Los Angeles and Kansas City, who are making the preliminary survey.

they made determined bond voters of practically everyone present.

Official Minutes

Councilman Davis read to the audience copies of the official minutes of the Los Angeles City Council, as taken at the time in 1922 when an annexation committee from this city presented their plea to the Angeleno city fathers.

These minutes showed conclusively, in black and white and beyond any argument, that in the event of annexation, Glendale would have to build its own system of intercepting mains and laterals, and that the earliest sewer service that could be promised was one year from date of annexation, in the business district, while no date could be set when the rest of Glendale might be connected up with the Los Angeles system.

These minutes showed furthermore, that Glendale would have to float a local bond district, even in the event of annexation, in order to get a sewer system even in the business district. They showed many other advantageous features of the Los Angeles annexation offer, that served to open the eyes of many annexationists and convert them to the proposed bond issue.

Important Figures

But most convincing of all was a set of carefully checked figures presented by Councilman Davis, based on a population of 60,000, showing that in the event of annexation, the people of Glendale would assume their just proportion of 3.36 per cent of \$71,155,500 in taxpaying bonds, or \$2,148,896, which is more than the total cost of the proposed sewer system, or \$35.81 per capita; and that in addition they would assume \$22,000,000 of tax-exempt bonds, nevertheless a liability, or an additional \$11.07 per head, making a total of \$46.88 per head which the people of Glendale would immediately assume under annexation, while the total per capita cost of building the proposed \$1,600,000 sewer system is only \$26.67 per head.

These figures proved to be compelling, and upon conclusion of Councilman Davis' remarks many who had been more or less annexationist in tendency saw that by going in with Los Angeles they would be shouldering a heavy

burden. The fact that cities so located as Glendale must ultimately form metropolitan sewer districts, as is done in Boston and other eastern cities, was stressed by Mr. Smith, who pointed out that Fullerton, Anaheim and a number of surrounding communities have already formed such a district, with Santa Ana as their consolidation point, while Linwood, Watts and communities in that neighborhood are forming such a district at the present time.

The Pacific ocean is the one and only natural sewage outlet for Southern California, Mr. Smith told his audience. All other arrangements were makeshifts, he said, and would in the end prove costly, insufficient and unhygienic.

Future Growth

The impossibility of predicting the future growth of such centers as Glendale was stressed by Mr. Smith. It being pointed out that three years ago it was believed by experts that the city would attain a population of 40,000 by 1940.

It was for this reason, he said, that the present plan calls for a system, connecting with the Los Angeles outfall, of such capacity as to care for a population of 1,000,000 in Glendale and surrounding communities, while allowance is made for 20 per cent in excess of an ultimate Glendale population of 240,000.

The election called for January 8 is to authorize the \$1,600,000

burden. The fact that cities so located as Glendale must ultimately form metropolitan sewer districts, as is done in Boston and other eastern cities, was stressed by Mr. Smith, who pointed out that Fullerton, Anaheim and a number of surrounding communities have already formed such a district, with Santa Ana as their consolidation point, while Linwood, Watts and communities in that neighborhood are forming such a district at the present time.

The Pacific ocean is the one and only natural sewage outlet for Southern California, Mr. Smith told his audience. All other arrangements were makeshifts, he said, and would in the end prove costly, insufficient and unhygienic.

Future Growth

The impossibility of predicting the future growth of such centers as Glendale was stressed by Mr. Smith. It being pointed out that three years ago it was believed by experts that the city would attain a population of 40,000 by 1940.

It was for this reason, he said, that the present plan calls for a system, connecting with the Los Angeles outfall, of such capacity as to care for a population of 1,000,000 in Glendale and surrounding communities, while allowance is made for 20 per cent in excess of an ultimate Glendale population of 240,000.

The election called for January 8 is to authorize the \$1,600,000

burden. The fact that cities so located as Glendale must ultimately form metropolitan sewer districts, as is done in Boston and other eastern cities, was stressed by Mr. Smith, who pointed out that Fullerton, Anaheim and a number of surrounding communities have already formed such a district, with Santa Ana as their consolidation point, while Linwood, Watts and communities in that neighborhood are forming such a district at the present time.

The Pacific ocean is the one and only natural sewage outlet for Southern California, Mr. Smith told his audience. All other arrangements were makeshifts, he said, and would in the end prove costly, insufficient and unhygienic.

Future Growth

The impossibility of predicting the future growth of such centers as Glendale was stressed by Mr. Smith. It being pointed out that three years ago it was believed by experts that the city would attain a population of 40,000 by 1940.

It was for this reason, he said, that the present plan calls for a system, connecting with the Los Angeles outfall, of such capacity as to care for a population of 1,000,000 in Glendale and surrounding communities, while allowance is made for 20 per cent in excess of an ultimate Glendale population of 240,000.

The election called for January 8 is to authorize the \$1,600,000

arrangement be taken care of for all time to come.

Mrs. M. B. Buckman, a member of the executive committee at the conclusion of Mr. Smith's remarks before the Foothill Improvement association Tuesday night rose and stated that she was glad it had been made clear that the proposed bond issue provided for carrying the sewer from Aviation drive north along San Fernando road to the Burbank city line, as many residents of the northwest section of Glendale had been laboring under the impression they were to have no sewer.

DELAY COMPLAINT IN DIVORCE CASE

California Beauty Withholds Filing of Papers In Suit for Freedom

SAN FRANCISCO, Dec. 8.—In order to give further consideration to the step, Milo Abercrombie Swenson, California beauty, today directed her attorney to withhold a divorce complaint filed against Lieutenant Lyman K. Swenson, naval officer, to whom she was married after divorcing Wilhelm von Brincken, former German military attaché. She denied a reconciliation, saying she merely did not wish to act hastily in the matter of divorce.

SCIOTS PYRAMID INDORSE SEWERS

Ancient Egyptian Order In Favor of Bond Issue; Pledges Support

Unanimous endorsement of the sewer bond issue was voted last night by pyramid No. 39, Ancient Egyptian Order of Sciots, at their meeting held in the Odd Fellows' hall, 201-A West Broadway, Toparch H. M. Bennett presiding. The meeting was one of the largest ever held.

Endorsement of this great progressive project followed a strong address by Scot Sam Davis, councilman, who very patiently and at length recounted the advantages of the proposed sewer, closing with the thought that Glendale would be absolutely at a standstill, should the bond election of January 8 fail.

"The local pyramid of Sciots endorsed this project under one of the basic principles of their organization," says Toparch Bennett, "which holds that a citizen's first duty is to stand for law and order and to participate actively in national, state and municipal affairs, by the exercise of the right of franchise."

"The pyramid is an open forum for discussion of questions of general interest, with the prohibition that there be no partisan or personal arguments and that the name of the order be not used for political or religious purposes, or to further any anti-religious propaganda."

GRANT DICTATOR POWERS TO MARX

Reichstag Confers Authority on New Chancellor by Sweeping Majority

BERLIN, Dec. 8.—The measure conferring extraordinary powers upon the Marx government was passed by the German reichstag today. There were 313 affirmative votes and 18 negative votes. One member refrained from voting.

Chancellor Marx appealed for passage of the measure to enable the government to deal more effectively with pressing industrial, financial and political problems.

TO USE BOTH HANDS

An English society that has been organized to cultivate ambidexterity will try to ascertain if education in the use of the left hand will affect the development of the right side of the brain.

TO PREVENT BURNS

To prevent steam scalding a user's hands a cooking kettle has been invented with a lid that slides into place and does not slip off when the utensil is tilted.

JAP OFFICER TO SERVE JAIL TERM

Murder of Tokio Socialist During Quake Brings Heavy Penalties

TOKIO, Dec. 8.—Captain Amakasu, officer in charge of the Tokio martial law forces during the earthquake period, was today sentenced to ten years' imprisonment for the murder of Sakae Otsugi, Japanese socialist, Mrs. Otsugi and their nephew.

"For the good of the state," was the reason assigned by Captain Amakasu for the killings. Popular feeling throughout the empire demanded his punishment and at first a sentence of 15 years was proposed.

NEW HOUSE ON LOT 50x150
New house on lot 50x150 located near new High School, and close to Glendale's business thoroughfare. It has 5 rooms with breakfast room and screen porch, a real fireplace, hardwood floors throughout, an abundance of closet space, and many other attractive features that all whom appreciate values in a small locality are increasing rapidly. The price is below anything in this section, and the best of terms can be arranged.

On West Elk we have 4 room house, well built and conveniently located on lot 50x137. This will make a fine home for a small family, or if looking for an investment will make you some real money. Can be handled with easy cash payment down with easy monthly installments on balance.

Two dandy 3 room houses on lot 50x157 with garage. This place is being brought in a nice income, and would bring home for a small family. Present income will more than take care of monthly payments. Location is such that a quick profit is assured.

A new house on East Lexington of Glendale, in the heart of the city. This is a complete home in every detail. The location is right and terms very attractive.

One of the very best 5 room houses on West California, with lawn and flowers in. The owner is offering this place only because his business is changing. This is a real bargain. Bring your wife or husband along and let us show you this one. It can't last, and the price and on the terms offered.

Our lot listings are unusually good at this time. If you contemplate buying a lot for a home, duplex, apartment, or for a small site, let us show you some real buys. We surely have them. If not contented with our offer, let us show us and we will call and show you some more. In either lots or houses to be had.

Handling Glendale real estate for the past ten years places us in a position to offer you the best of service in that particular.

LOCALS CONTEST LONG BEACH TEAM

Glendale Dynamiters Meet Athletics and K. C.'s to Play Saturday and Sunday at White Sox Park. All three of Glendale's baseball teams will be in action this week, one on the local lot at San Fernando road, with the White Sox traveling to San Pedro to assist at the opening of the new park in the harbor metropolis.

Local fans have their first opportunity of witnessing Saturday baseball this afternoon when the Glendale Athletic club aggregation tangles with the Howard Athletic team from Los Angeles. Tomorrow afternoon the K. C. team of the San Fernando Valley league will meet Zelca.

"Chicken" Hawkes. In an effort to add strength to the White Sox batting order, Manager Kerwin has signed "Chicken" Hawkes, fleet-footed star, who recently performed for the Yankees and Vernon. He will be seen for the first time in a Glendale uniform tomorrow.

Rumors, Denials, And Near Alibis, Offered in Sport

Some anti-footballists claim that football is a popular game only because it is an excuse for men to indulge one of the primitive instincts, namely, brute strength. Mebbe so, mebbe not so. But if so, then men are not alone in this primitive stuff. The other day two teams of women took the field at the Gustavus Adolphus college, Minnesota, and battled to a 6 to 6 tie in a hard-fought battle that featured a smash through center for 25 yards, a 50-yard end run for a touchdown, and the longest punt kicked on that field this year.

There were also numerous 15-yard penalties for HAIR-PULLING! Girls will be girls.

"Bottling" Siki, the surmured son of Senegal who thinks he can fight heavyweight pugilists and firewater at one and the same time, is out again. His manager made the mistake of giving the Siki a fight to play with and Siki has been trying ever since to drown himself in bootleggers' brine. He cuts up on Broadway, New York, with some war dances and successfully eludes capture by his manager, furnishing the curious with amusement. Mike McTigue took the wind out of his championship sails after Siki had flattened Carpenter. Since then no satisfactory opponent has been found for the Senegalese gin snifter, but a match may be arranged that should prove highly satisfactory to every one. Jim Davis, also of scorched complexion, does odd jobs around Marysville, up north, for a veterinary surgeon. The other day the vet and Jim were trying to cure a mule of slobbering by teaching him to spit, or something, and said mule kicked. He didn't kick Jim but he kicked where Jim most recently was, if you follow the thought, James became resentful of this after it had been repeated several times and smote the mule with a snifter between the eyes. The mule immediately expelled all engagements and decided to concentrate his attention on the next world. Curled right up and expired. Now we may be wrong, but from where we sit it looks like Jim and the bottler could furnish a few rounds that should end to the satisfaction of every one except Siki's manager.

They tell us that Los Angeles will do spring training this year at Long Beach instead of Elsinore. Long Beach is therefore to learn what real eating looks like when demonstrated by them as know how. The Queen of the Beaches is setting to be a big girl now, and looks like long legs and a long neck. She hopes to have some of her own some day, and it is believed that a lot of people if she bobbed up some spring with a brand new fringed feathered hat, and a pair of attractions, Salt Lake is a long way from the Pacific coast, with the men in the main event boxes in a flapper, you will agree, and Long Beach would eliminate a long run for teams if that franchise was transferred.

Portland has traded Bill Stumpf, infielder, Lee King, outfielder, and Ray Crumpler, pitcher, for a new shortstop. He is Johnny Jones, who filled the position last season, went to the Brooklyn Nationals with Babe Verrillon.

Boys' Chilean heavyweight boxer, knocked out Marcel Siles in Paris the other night in the third round of what was to have been a twenty-round fight, gave Marcel a permanent wave, so to speak. But not so permanent as the one Jim gave the Missouri canary.

A concerted all-state program of advertising of California, pointing out the advantage of acquiring lands while prices are at low ebb following readjustments in national agriculture, is a plan now being proposed by the California Real Estate association. Pasadena, Redlands, Pomona and Anaheim are California cities whose real estate boards this week "short" extensive city advertising plans.

Members of the Northwest Real Estate association will join with the railroads entering the section in a nation-wide campaign to advertise the tourist and home advantages of the region.

Multiple Listing. The Atlantic City real estate board is initiating general board advertising in addition to a continuous campaign of education on multiple listing.

DO YOU LIKE TO PLAY POOL, BILLIARDS OR SNOOKER? The Glendale Snooker Club was organized to give people of Glendale an opportunity for clean amusements.

Come in and ask about our memberships, which are inexpensive and open to anyone over 18 years of age.

GIANTS INFIELD LOOKS WEAKENED

McGraw In Europe Silent on Subject: Hornsby Only Possible Chance. By DAVIS J. WALSH. For International News Service. NEW YORK, Dec. 8

'Oh-Ho,' Tuneful Comedy, Is Staged In Able Fashion By Well Trained Actors

By LILLARD BARHAM Of The Evening News Staff.

Folks, if you didn't see "Oh-Ho" at the Tuesday Afternoon Club Theatre last night, that is just your misfortune. It was not only the best musical comedy staged by local talent that Glendale has ever been favored with, but it is a performance that hasn't been surpassed here in many days, professional or otherwise. It's a laugh from start to finish.

The performance will be repeated tonight, the curtain going up at 8:15. The theatre will be filled to the last seat and, in order to be "among those present," reserved seats should be obtained at the Sun drug store before 6 p. m., and at the theatre after that hour.

To start with, you will be ushered to your seat by a pretty girl. In fact, there are just an even dozen of these fair Glendale maids to see that everyone gets a seat before the curtain rises.

The splendid success of this attraction belongs so much to the entire cast, each member having a necessary and important role, that any division of honors may seem not altogether appropriate, but two of the characters were so outstanding in their individual entertaining qualities that special mention will not be amiss.

Joe Griffin Scores Joe Griffin, in the role of Jack Davis, college man, was the "hit of the show," for, besides being a member of the frat crowd, around which the play centers, he occupies the role of a prima donna in an imaginary extravaganza, offering a flippant "young" widow, and, lastly, the grandmother of himself, Jack Davis. As a female impersonator Joe simply is the "pig's knuckles," as the college boys would say.

George Lowery has a "role all his own" in depicting "Scrub," the freshman, whose most earnest desire is to become a frat member in good standing and incidentally to keep an appointment with "Florence," which finally—but wait and see that for yourself, "Scrub" has entertaining qualities, which show he is cast in exactly the proper role. In other words, he entertains the audience when the others are behind the scenes—and sometimes when they aren't.

"Oh-Ho" is well-named, for the name is synonymous with the mirthful exclamations from the audience that fairly run throughout the play, from the time the college orchestra starts the performance with "A Little Jazz" until the curtain falls on the entire company in chorus ensemble.

To use their own words, Dick Langtry and Billy Gibson, frat members, characterized by Stanley Lindman and John Reber, respectively, these two young fellows are in love with two of the sorority girls. And that's where all the fun starts—and continues.

The two co-eds who are so much loved are Dorothy Warner and Helen Morgan, played respectively by Hazel Linkogel and Mrs. Malvern Barker.

And here's where Jack Davis comes in to entertain, "like a good boy," Billie's aunt who is coming from Honolulu, but when the aunt fails to show up, Jack finds himself occupying her role, he having been "drafted" by Jack and Billie while rehearsing his prima donna part.

Songs and Dances But that is merely a thread of the story and throughout its presentation many opportunities are afforded the various members of the cast to sing and dance, and that they do in a highly entertaining manner.

To make Jack's predicament somewhat precarious after assuming the role of Billie's rich aunt, Dick's father, Major Langtry, acted by Jack Statham, becomes "smitten" with the widow, who is known as Mrs. Col. Bradbury. Added to this, Prof. Ermine of the faculty, played by Arthur K. Wyatt, enters the scene and is almost immediately bitten by the "love bug," which he later tells about in a song of highly entertaining quality.

As a consequence, Jack finds himself in the business of refusing proposals from both the Major and the Professor.

But the fun really begins when the real Mrs. Col. Bradbury, played by Mrs. John D. Cole, enters, accompanied by her niece, Nell Dierborn, in the person of Jane Pearsall. Incidentally, this young heiress is Jack's fiancée, and it is at that point where he becomes the self-styled grand-mother of himself.

Everything Mixed Up Confronted with the real Mrs. Bradbury, whom he is impersonating, and his own sweetheart, Jack has to do considerable maneuvering to effect a transformation that will require the least explanation. This he does, at last, by appearing as Jack himself and announcing that his grandmother had died.

College atmosphere is added to the play by the appearance of groups of the fraternity boys, sorority girls in dance and song numbers and solo and quartet selections.

The fraternity house jazz band, which starts the performance with a number of lively tunes, is composed of Norman Nelson, Wally Haynes, Arthur Cressy, Henry Grace and Tubby Walcott.

Then comes the "Rah, rah, rah, the Great Big College," by the yell gang, composed of Howard, soloist; Archie Neel, yell leader; Ralph Eckles, Jess Hibbs, Bud Carver, Dante La Frankie, Cyril Walton, Darre Elliott, Elmer Fitz, Donald West, Theodore Haig, John Lovel, Golburn Danner, Bill Felton, Jack James, Bill Shinner, Marion Morrison and Wesley Pomeroy.

Glendale Beauties Some of the prettiest girls ever appearing in Glendale were seen in the co-ed presentations. Hazel Linkogel, delightfully sings "When Hearts Are Young," and then there is the "High Jinks" trio dance by Evelyn Hunt, Marie Hearnshaw and Leona Hunt.

COMMENT That's All

Asks Development Program Insurgents, Market Break. Afraid of Hiram Johnson. What Others Are Saying.

By Gil A. Cowan

Charles H. Treat, chairman of the Los Angeles board of public works, who is directing the expenditure of \$200,000,000 in the southland's metropolis, made a trite remark before the Kern County Realty board at a meeting attended by the writer.

In effect, it was an appeal for the voters adjacent to Los Angeles to immediately enter upon a development program with a view of feeding the greatly increased population, providing work for factory hands, giving a market to the greater mercantile enterprises of the southwest and at the same time reaping the benefits of the increased population and valuable investments now flowing in an endless stream toward the golden sunset on the Pacific's shores.

Mr. Treat advised these outlying communities, such as the Imperial and San Joaquin valleys, to advertise like suburban cities such as Glendale are now doing. No doubt good will come from this effort, and it is truly the season for Southern California to once and for all to link hands with Central California and Superior California in the development of the whole state.

At the same time the insurgents broke ranks in congress and elected Gillette speaker of the house, the cotton market broke, reflecting heavy selling. But we believe both cotton and congress will retrieve their losses. However, it will not be so easy for California grape growers to recoup their serious setback in low prices.

We humbly suggest that if you like raisin pie, raisin cake, or just plain raisins, eat 'em now—and aid the vineyardist.

The victory of President Coolidge in the South Dakota preferential balloting will be good fodder for administration campaign purposes, yet we deeply suspect that the public at large does not quite agree with the Dakotas.

Indeed, the brightest minds of the Democratic party are in high hopes that Coolidge will be nominated. We note in some of the ablest edited Democratic organs little words of adulation for the president which are designed to create a false impression.

For a fact, the Democratic leaders are afraid of Hiram Johnson. They know that he will carry weight in the ranks of the Republicans, Progressives and Democrats alike. He is the one man that has the favor of none, yet causes the politicians to fear his power.

Following will be found editorial "squibs" from the state newspapers:

Mr. Gallagher of Seattle is advertising for his missing young wife. Let 'er go, Gallagher.—Sacramento Star.

The new German money is a government mortgage of 5 per cent on German real estate. It is legally worth as much as the gold mark before the war, and is being used to relieve the distress of unemployment. But what will happen to Germany when these new marks get into foreign hands.—San Francisco Call.

Two women in Los Angeles are suing two beauty doctors for \$50,000 because, they allege, operations on their faces were expected to make them beautiful have made them ugly. Would they, would any woman, have been willing to pay \$50,000 if the specialists had succeeded in making beauties of them? But perhaps that is foolish question 1001.—Stockton Record.

When the chap who writes for Vox Populi asks, "Why do newspapers publish so much crime," the tired editor and staff feebly reply: "Why does the citizen permit so much crime that the newspapers don't want to publish?"—Hanford Sentinel.

Back of the most successful men you will find a sensible woman. Some men are slaves to their business, and if it were not for the sensible wives they would sleep in the stock room, and that means premature planting. More men are made by their wives than by any other agency.—Woodland Democrat.

If you intend to do a mean thing, wait till tomorrow; if you are to do a noble thing, do it now.—Browlie Regis.

You soon lose confidence in the man who is always "in conference."—Whilows Journal.

An economist says there are fortunes in waste paper. That's where many German fortunes are.—Plumas Bulletin.

Fire Is Subdued Through the splendid co-operation of the men of La Crescenta and Montrose, the fire was quelled, despite the raging wind. However, a guard was posted for the night match to be kept on duty until the fire subsided. Hastily donned clothes over night robes and pajamas was the order of the evening, the result being rather ludicrous. Fortunately, no property damage resulted from the fire though there were a number of small houses in the vicinity.

The young Boy Scouts were not allowed near the fire. Only youths and men who were of service were even allowed anywhere near the flames. The men who guarded the road were Mr. Goldenberg and Deputy Sheriff Johnson, both of whom did splendid work in a quiet, capable manner. Mr. Collins arrived on the scene immediately on receiving word of the fire and up to about 11 o'clock had not left the scene of action.

Thanks of Fire Chief Mr. Young deserves the thanks of La Crescenta township for the calm way in which he handled his

FIRE THREATENS FOOTHILL REGION La Crescenta District Scene Of Two Hour Outbreak As Brush Flames

With a high wind blowing from the northeast last night, a brush fire menaced the La Crescenta district for about two hours. The fire started, it was thought, from the clearing on the 50-acre tract owned by Mark S. Collins and Fred Anderson. Workmen had been clearing this acreage, it was said, by burning brush early in the morning, and it was understood this would be burned to prevent any fire after permit hours, or 11 a. m. However, it is thought a high wind caught some embers, scattering them among the dry brush piled for burning.

Owing to the loss of the fire siren two weeks ago, the alarm could not be given as usual. It is reported the fire had a 20 or 30-minute start at least before an alarm was given. Fire Chief Young immediately drove to the conflagration, which by this time had assumed alarming proportions.

Unloading his chemical tanks and leaving directions for their use, Chief Young next went in search of shovels and axes. By this time a line of sightseers had arrived, but they were halted by Deputy Sheriff Johnson and Mr. Goldenberg, the latter having been sworn in as a deputy for the occasion.

When the fire was at its height, it was necessary to send word to the Edison Electric camp in La Canada, for men to protect the company's power line. Mrs. Mary B. Darrow drove the messenger over and back disregarding all speed laws on the trip.

Through the splendid co-operation of the men of La Crescenta and Montrose, the fire was quelled, despite the raging wind. However, a guard was posted for the night match to be kept on duty until the fire subsided. Hastily donned clothes over night robes and pajamas was the order of the evening, the result being rather ludicrous. Fortunately, no property damage resulted from the fire though there were a number of small houses in the vicinity.

The young Boy Scouts were not allowed near the fire. Only youths and men who were of service were even allowed anywhere near the flames. The men who guarded the road were Mr. Goldenberg and Deputy Sheriff Johnson, both of whom did splendid work in a quiet, capable manner. Mr. Collins arrived on the scene immediately on receiving word of the fire and up to about 11 o'clock had not left the scene of action.

Thanks of Fire Chief Mr. Young deserves the thanks of La Crescenta township for the calm way in which he handled his

BUILDING PERMIT TOTAL \$260,238 Record for Year to Date \$9,482,397; Apartment House Planned

By issuing permits to the value of an even \$80,000 yesterday at the office of the municipal building superintendent, the total for the year amounted to \$9,482,397, so that with the close of the week today less than half a million dollars will be needed to reach the million-dollar goal.

Permits to the amount of \$260,238 have been applied for so far in December, which maintains the average established in November, Glendale's record month. The following permits were issued yesterday:

P. J. and R. M. Daugherty, 46-room apartment house, \$48,000; William L. Slammer, 8 rooms and garage, 625 East Cypress street, 10,000; Barnum and Walters, garage, 3219 North Verdugo road, 8,000; W. E. Haver, 6 rooms and garage, 626 West Pioneer drive, 5,000; John R. Henry, 5 rooms and garage, 1225 Winchester, 4,000; R. H. Baker, garage, 1148 Raymond, 400; E. E. Horgan, 6 room duplex, 46-room apartment house, 4,000; T. L. Copeland, garage, 1802 Sierra avenue, 200; Mrs. H. M. Reynolds, garage, 732 North Clumbius, 200; W. A. Storlin, shed, 740 West Broadway, 200.

USEFUL VEHICLE By easily made alterations a new two wheeled vehicle can be used as a cart of ordinary height, as a truck for picking up and carrying heavy weights close to the ground or as a garden cultivator.

As the Navajos have no silver mines in their country they use the Mexican silver dollars, which are melted and molded or hammered into desired forms.

men, getting the most out of everyone in his own particular way. Rev. H. Kelso and W. Antler were both very busy as were Bob Hendrix and Jack Brown, both of Montrose avenue. C. L. Mead was on hand from Montrose and others whose names could not be procured as they were on the opposite side of the flames.

Certainly last night's fire should be a lesson to all householders, and there should be no trouble in procuring the small sum of twenty-five cents a month from every water user in the district as the improvement association asked last night for the fire fund. Furthermore, people should realize the splendid work Fire Chief Young does and will continue to do and therefore should give freely to help get Mr. Young the new equipment necessary for the truck as it may mean their home being saved at no distant date.

GASOLINE PRICE PROBE LAUNCHED Alleged Conspiracy to Fix Costs In Middle West Gets Under Way

WASHINGTON, Dec. 8.—Investigation of alleged conspiracies to fix gasoline prices, particularly in the middle west, was ordered today by the department of justice.

The investigation will be directed by Assistant Attorney General August T. Seymour, under instructions from Attorney General Daugherty, and United States district attorneys throughout the country have been ordered to cooperate and participate in the inquiry.

The gasoline probe is an extension of the government's general inquiry into the practices of the oil industry, which has been in progress for several months.

Operating as an exclusive gas appliance concern, George J. Trissel, formerly of Napa, and L. D. Mathis, formerly of Whittier, have established their business at 223 South Brand boulevard, under the firm name of George T. Trissel.

In selecting Glendale as headquarters for our operations, Mr. Trissel said this morning, "we are looking to the future as well as the present, and naturally have a great deal of faith in this city."

Besides being exclusive agents here for the Detroit Jewel ranges, this concern handles the Success Radiators and the Ever Brite Radiant Heater. The Ever Brite heater burns either gas or kerosene and has a good sale in districts where natural gas is not available.

The bouquet from a flatterer is pregnant with deceit.

SHOOT WATCHMAN IN RAID ON BANK Thieves Foiled In Attempt to Enter Vaults Where \$20,000 Is Stored

FERRIS, Texas, Dec. 8.—After killing Night Watchman W. M. Horn, 50, bank thieves early today failed in an attempt to enter the vaults of the Farmers and Merchants State bank here, fleeing the district and leaving behind the dead body of the watchman and \$20,000 in gold stored in the vaults.

The murder and attempted robbery was not discovered until daylight, when a newsboy, L. F. Flippen, found the body of the slain guard in the mayor's office.

The watchman had been shot through the back of the head, without warning. His still form remained in a chair, a newspaper in his hand.

The program was announced this morning by Harvey R. Cheesman for the Court of Honor of the Verdugo council, Boy Scouts of America, to be held tomorrow night at the Central Avenue Methodist church on South Central and Palmer avenues.

Included in the program will be singing of "America," salute to the flag, singing of "Onward Christian Soldiers," invocation by Rev. Leo C. Kline, instrumental number; "Troop Achievement Contests," A. R. Eastman, president of the council; presentation of troop achievement contest prizes; presentation of annual Scout field day trophy; Roy L. Kent, treasurer of the council; Scout demonstration led by Francis Henry; Court of Honor, Capt. William C. Watters presiding; address by Rev. Kline; singing of "Star Spangled Banner."

TALENTED YOUTH COMMITS SUICIDE Note to Stricken Mother Says 'You Will Not Have to Deprive Yourself'

OAKLAND, Cal., Dec. 8.—Mrs. Lorraine Morris was in a serious condition today as a result of the suicide of her only son, Clarence, 15, who last night shot himself, leaving a note telling his mother that he had suicided "so you will not have to deprive yourself of anything more." The mother worked in an overall factory and the boy attended Oakland high school. He was a talented musician.

Installs Tile Work In Zinke Residence Joseph Fortunato of the Glendale Tile and Mantel company of 107 East Doran street, who has recently completed some very fine tile jobs in Hollywood, among them the beautiful tile bathroom in the palatial mansion of Dr. Milton H. Berry of 2308 Nottingham road, is now completing the tile bathroom of Joseph D. Zinke's handsome residence on North Pacific avenue, in the Kenneth road section of Glendale.

DISAPPEARS WITH CASH LOS ANGELES, Dec. 8.—Police are hunting William Bledsoe, twenty-three, bookkeeper of the First National bank of Huntington Park, who mysteriously disappeared in Los Angeles while carrying \$15,000 of the bank's money, according to bank officials.

Leaves of the rhododendron are one of nature's thermometers, for at a temperature of 50 degrees they are erect; as the temperature drops, the foliage becomes horizontal and at zero the leaves roll inward.

Automobile Industry of Glendale Plays Important Part in Upbuilding City and in Making Prosperous Citizens

MANY SEND OWN CARS TO SOUTH

Lots of Winter Arrivals Dispatch Their Motors To California

Railway and steamship companies are contributing their part toward making Southern California the motoring center of the world, according to figures just made public by the forwarding department of the Automobile Club of Southern California. The enormous number of cars pouring into the state from various transcontinental routes under their own power lead to the general belief that every outside car had been driven in by its owner, when, in fact, hundreds of autos constantly are coming in from all parts of the country, carefully packed in freight cars and the holds of steamships.

Material Saving
A few years ago the shipment of a pleasure car to California was almost an unheard of undertaking. Today, through the carefully figured out system of the auto club experts, the visitor to Southern California may not only ship his car in by freight or steamer, but may effect a material saving in the rates.

The club now has representatives in forty-four cities in the country where automobiles are received for shipment and later are assembled in carload lots and hurried through to their destination. The tariff under the carload lot shipments is only about half the amount that a single car shipment is.

A new record was established by the forwarding department of the auto club recently when eight carloads of eastern automobiles were received in two days. These shipments not only come and go to all parts of the United States, but include many foreign countries. So far this year Southern California cars have been shipped and received from London, Paris, Honolulu, Buenos Aires, Liverpool and Canadian cities.

DON'T LOSE HEAD

On a dry pavement, if a sudden and unusual stop must be made, throw out clutch, apply foot brake with full force, and assist with hand brake.

Production Records Reach High Mark

December is holding its own. Present indications point to the building of 4,000,000 cars and trucks this year. Figures made public this week by the Motor and Accessory Manufacturers' Association seem to guarantee the achievement. Total production in 1922 was 2,500,000.

Ford is doing his best to make the feat possible. Forty-nine per cent of all the cars and trucks produced in the United States in the last ten months were Fords. Sixty-two per cent of the total truck production in the first ten months of the year was Ford trucks.

Total production of all cars and trucks in the country in the first ten months of the year amounted to 3,396,638. Buicks, Willys-Overland, Oakland, Chevrolet, Nash, Studebaker and Dodge are notable among some of the others who made this feat possible.

Some Foolish Stunts Pulled By Motorists

Motorists pull some foolish stunts. Here are some of them: Allowing the clutch to engage suddenly.

Failing to heen the squeak that calls for oil.

Failing to disengage the clutch before shifting gears.

Pushing in the starting button when the engine is running.

Driving fast and attempting to stop suddenly on a wet pavement.

Trying to start the engine with the switch turned off or without "gas" in the tank.

Shifting from third to second or first gear when the car is running at a high speed.

Opening the throttle quickly without giving the engine a chance to pick up gradually.

Neglecting to familiarize themselves with the use of the hand lever brake, thus being prepared for emergencies.

START PLAN TO NULLIFY GAS TAX

Corporations Propose to Begin Disqualifying Suit, Is Report

SACRAMENTO, Dec. 8.—Highway maintenance and motor vehicle inspection work in California have received two distinct jolts within a week—the court decision invalidating the Breed bill and the announcement of impending suit to disqualify the gasoline tax.

The traffic officer decision, which may be reviewed by the state supreme court, virtually halts the inspection program inaugurated by Will H. Marsh, superintendent of the state motor vehicle department, for elimination of speeding and for correction of the other faults of reckless drivers. The county traffic officers cannot be paid. Contentions of State Controller Ray L. Riley that the measure creating traffic patrolmen, to be selected by Marsh through contracts with boards of supervisors, was unconstitutional has been upheld in every particular by the appellate court. Reversal of this ruling is considered improbable.

The Los Angeles Gas and Electric Corporation leads the war on the gasoline tax, which unquestionably will end in a supreme court decision. This company has paid its tax under protest and demanded a rebate. Controller Riley has refused the rebate and suit will follow, testing the law.

Pay Operating Tax
The Los Angeles company holds that a corporation, under the constitution, can be called upon to pay only its operating tax. The gas tax, according to this argument, amounts to double taxation insofar as it affects corporations.

Estimates made by the controller's office place \$1,000,000 as the outside amount which will be lost for highway repair work in the event a court verdict exempts the corporations from this tax.

But Controller Riley is prepared to fight for the constitutionality of the law. The tax, properly speaking, is levied only on the gasoline-producing company and actually constitutes a fee charged them for the right to operate. Mr. Riley holds. The producing agencies pass the tax along to the consumers, including, of course, such corporations as the Los Angeles Gas and Electric firm.

A direct parallel of this, the controller's office is prepared to maintain, is the activity of this Los Angeles company in passing along its own operating tax—increased gas and electric charges—to the consumers. Mr. Riley expects a victory for the gasoline tax if the matter comes to court action.

All Is Taxable
The Duval motor bus law also came in for interpretation this week when Attorney General U. S. Webb was called upon to explain what part of a transportation company's receipts is subject to taxation and how much is exempted.

Responding to requests from the State Board of Equalization, Mr. Webb ruled that every cent taken in by motor bus companies is taxable, not only the actual cash taken on transportation of passengers and freight but the returns from baggage storage, depot concessions and all other income sources must be considered as "gross receipts," he ruled.

Mr. Webb said, however, that all county and municipal taxes against the bus companies are to be deducted from the receipts taxable by the state. M. D. Lack, secretary of the Board of Equalization, places the amount to be secured in 1924 under this law as slightly more than \$1,000,000. The tax, amounting to 4 per cent of the gross receipts, will be divided equally between the state and the various counties for highway work.

The Duval tax will begin to accumulate in January and the first installment is due April 1.

HOLD 'EM IN JAIL

In an effort to stop traffic accidents which had resulted in 381 deaths this year, Chicago's police chief warned that speeders and reckless drivers would be held in jail until their cases come to trial. It was hoped that this move would stop "political fixers" through whose efforts traffic trials have become farces.

CUT WITH HAMMER

Rubber compounds, asbestos, etc., when used for gaskets can easily be cut with a hammer.

How Mothers Can Help

Many cities in the United States are combining in an educational campaign in an effort to cut down the number of accidental deaths of children from automobiles. They have found that almost a fourth of the victims of automobile casualties are children. Probably the proportion is about the same in southern California. The cities are using the schools in the campaign to a large extent. But another method used is one directed at mothers.

A pamphlet is being circulated which might well be copied in Glendale and distributed to every mother. Here is the warning:

YOUR CHILD CAN BE SAVED

When you were a little girl it was safe to play in the street.

Today the child who does so risks his life.

The chief cause of accidental death to children is the automobile.

TEACH YOUR CHILDREN THESE RULES AND SAVE THEM:

1—Cross the streets at the crosswalks only. Look left and look right.

2—Never run off the sidewalk after a ball. Slow up and look.

3—"Hitching on behind" is dangerous. Stop it before you are killed.

4—Play on the sidewalks or in a lot, playground or yard. Never play in the street.

MORE POWER, CLAIM

Though the motor in the new Oakland for 1924 is the same size as in the past, it develops 15 per cent more power, it is claimed.

GREAT INCREASE

Registrations of motor vehicles in the United States have increased from 3,512,996 in 1916 to 13,022,427 on July 1, 1923.

CAR NOT LUXURY, FOR IT BRINGS BUSINESS SUCCESS, HEALTH AND HAPPINESS

Every Encouragement Should Be Given Those Buying Auto or Truck; Industry Here Is Deserving of Hearty Co-operation

By H. THOMPSON RICH

Of The Evening News Staff.

The automobile industry of Glendale is woven into the very fabric of the city's commercial, economic and social life. Starting small, it has grown with Glendale, until today it represents an investment of millions of dollars in substantial construction.

Along Brand boulevard, Broadway, Central avenue, San Fernando road, Colorado street, Harvard street, Wilson avenue and other thoroughfares in the business heart of the city, fine buildings attest the progress of this infant industry that in Glendale as elsewhere has been the prodigy of America.

Turn through the pages of the local telephone directory and you will find that in Glendale there are listed twenty-five new car dealers, twenty-three garages, six accessory companies, five tire shops, four battery stations, two auto top establishments, two auto painting shops, besides auto electricians, wrecking companies, and a host of used car dealers.

Much Money Invested
Look around the streets, and on innumerable corners you will see service stations, many of them representing material investment.

SALE OF CLOSED CARS INCREASES

Packard Agents Figures Show Growth in Demand For Past Five Years

Automobile manufacturers have found that this year is showing a far greater increase in the sale of closed cars than has ever been recorded before in the history of the automobile industry.

Curious to know just how great this increase has been, W. H. Daniel, president of the Dixie Packard company, 510 East Broadway, local Packard dealer, asked for figures showing the percentage of closed cars to open models from the Packard factory at Detroit.

He learned that 54.68 per cent of all the cars now being produced by the Packard company are of the closed type. Still more illuminating were the percentages for the last five years. In 1918, 8 per cent of all Packard cars produced were closed coaches. In 1919 the ratio of closed to open models leaped to 14 per cent. Demand fell off somewhat in 1920, when only 13.5 per cent were closed cars, but in 1921 it was 31.2 per cent, and in 1922 it was 31.9 per cent.

Officers of the Packard company expect, they told Mr. Daniel, that 58 per cent of its cars in 1924 will be closed cars.

Republicans Ask Col. Hayward to Run for Governor

COL. WILLIAM HAYWARD

New York state Republicans are urging Col. William Hayward to run for the gubernatorial nomination in that state. He is now U. S. district attorney for the southern district of New York and has been a leading supporter of prohibition.

Auto Men Doing Their Part in Upbuilding Glendale; Big Total Payroll

(Continued from page 1)

vestments and all of them busy. And what house but that has its own private garage? Socially as well as commercially, the automobile industry has meant much in the development of this city. It is safe to state that there is no one in Glendale who has not in some way or another, been benefited by the tremendous growth of this industry locally in the past five years.

The payroll alone of all the hundreds of mechanics, salesmen and other employees on the staffs of the various organizations runs close to \$20,000 a week, money that in the main flows back through the mills of trade into the rivers of community prosperity.

Aids City's Growth

Economically, the advent of the automobile industry to Glendale in its present large scale of operations, accomplished gradually, has been one of the prime factors in the city's startling growth. It has long been known that a man with a car is a more efficient and therefore a higher priced workman, whether he is a truck driver or a physician. It is no less ridiculous for the average man to be without an automobile in this twentieth century than it would be for a modern doctor in a busy city such as Glendale, to hitch up the old mare of a generation ago to the family buggy and go his rounds.

The world progresses, and grows up as it moves forward. The things of yesterday, efficient and sufficient then, are found wanting when measured in the exacting scales of today. From the standpoint of efficiency, the 1923 family without an automobile is laboring under a decided revenue handicap. And, from the standpoint of sufficiency, such a family is not even tapping that great potential reserve of health and happiness to be found in the automobile.

Quantity Production

Considering their advantages, automobiles are ridiculously cheap. Only by the most advanced methods of quantity production, are we enabled for \$1000 or so, to ride around in such a perfect piece of mechanism as the modern automobile. A few years ago, before the problems of quantity production were mastered by the manufacturers, cars cost over twice what they do today.

The present overlaps the future. Today, a dawning era of automobiles, presages a tomorrow of the automobile supreme—of cities where traffic problems have been solved by underground tunnels and elevated roadbeds; of highways leading across the American continent from north to south and east to west; of boulevards for busses and trucks and others for private vehicles; and of innumerable developments along the frontiers, opening up vast stretches of now inaccessible land for settlement.

Auto Is Not Luxury

As pointed out, an automobile, or a truck, is an investment, or certainly is not a luxury. The automobile is needed in every day affairs. It is needed in business, it is needed to keep health in the family, to enable people to reach the air and sunshine and the pleasures of the country.

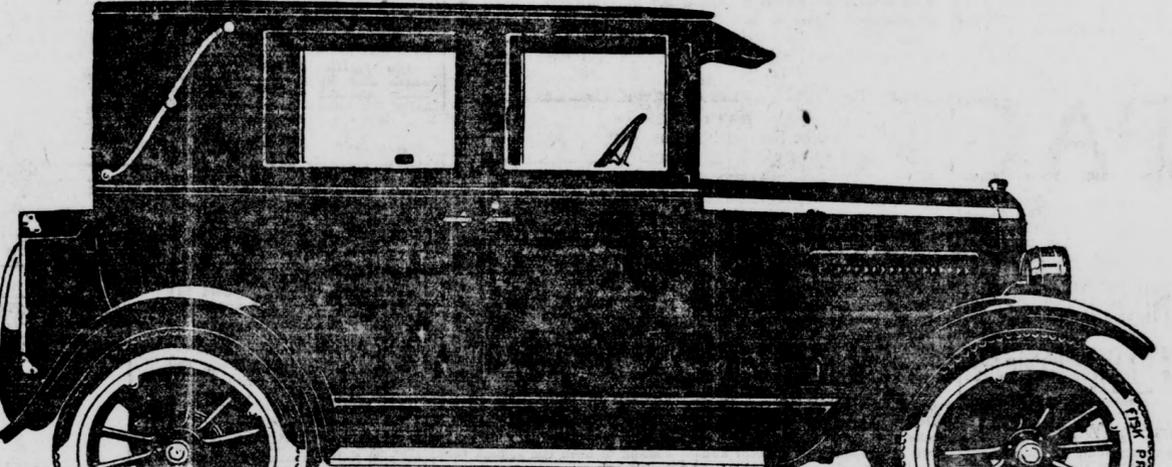

So, if a man buys a car, or a truck for his business, he has not plunged recklessly. He has made a good business move and he has made a good move towards health for himself and family. He should be given every encouragement from a financial standpoint. And his obligations like a man.

In Glendale, as elsewhere, the automobile industry has more than played its part in the great program of city building of the past five years. It has made fortunes for many, enriched all, and stands waiting to bring health and prosperity to those who but ask of this modern Aladdin.

LONG RUN SHOWS CHEVROLET'S PEP

Cross-Country Trip Takes Fifteen Days, Total Mileage Was 3999

Another demonstration of Chevrolet "pep" and durability was recently made by a Philadelphia resident, who drove a new Chevrolet coupe from San Diego to his eastern home in fifteen days, covering a distance of 3999 miles.

According to C. L. Smith, local Chevrolet dealer, South Orange and Colorado street, who has just received word of this remarkable feat, this is one of the best records for long-distance runs ever made by a new car. The trip was made by George R. Harris, 1020 Monmouth street, Philadelphia, whose account of the jaunt is evidence of the height of efficiency in this make of car.

"Some days we made 150 miles and some days 300 miles," Harris said. "On the last day we made 408 miles, and the only stops made during the entire trip were for gas and to fix two punctures, the latter being the only trouble encountered."

The car seemed to be in as good condition in every way the day the trip ended as when the start was made, Mr. Harris declared.

Producer Liable for Girl's Hurts, Ruling

SACRAMENTO, Dec. 8.—Dancers in the employ of motion picture companies who are injured while rehearsing, must be compensated by the companies, even though they are hired in a group and paid by an intermediate party.

Miss Abbie Tinsley, a pupil of Theodore Kostoff, while rehearsing with others on the Famous Players studio near Los Angeles, was injured by a horse. The Lasky Corporation, which owns the Famous Players, demurred at paying compensation, on the ground that they paid Kostoff a lump sum for the troupe and that he was the individual employer of the girls, each of whom were paid \$10 per day, by the corporation, less a percentage retained by Kostoff.

The Industrial Accident Commission has made a ruling dismissing Kostoff from liability and holding the Lasky Corporation to be the employer.

Vollmer Says Tunnel is Cheaper Than Cop

LOS ANGELES, Dec. 8.—Recommendations from Chief of Police August Vollmer, urging the construction of pedestrian tunnels under the heavily traveled streets of the city, which children must cross, soon will be presented to the city council.

The police head says it would be cheaper to construct these tunnels, than to pay policemen who are now stationed near the schools to escort children across the street.

The chief of police also asks the co-operation of the public in observance of the new "school stop" ordinance, which will require all vehicles to come to a full stop upon coming to the safety isles marked off on various streets to provide for a safe passageway for children.

Wife Freed of Hubby Who Posed as Broker

SAN FRANCISCO, Dec. 8.—Mrs. Bertha Murray, daughter of Mrs. Elizabeth Katha and prominent here socially, is a free woman again.

She told Judge Daniel C. Deasy that she married Walter T. Murray, believing he was a wealthy broker. She discovered he was a soda fountain clerk, however. This would not have been "so bad," said Mrs. Murray, "but he beat me."

The decree was granted after Mrs. Murray's testimony was heard.

STAR AGENCY TO GIVE AWAY AUTO

Dilley & Armstrong Adopt Scheme to Pick Owner Of Gift Auto

A brand new Star sport touring car is the Christmas present someone is going to receive from the Dilley & Armstrong agency, 115 West Harvard street, local Star distributors.

The plan by which this car is to be given away is declared by W. W. Prindle, of the Star agency, to be the most unique scheme of this kind ever undertaken in Glendale. The car will be given to the person holding the lucky ticket, and only fifteen tickets are to be issued. No tickets are to be sold and the number will not exceed fifteen.

Further than stating that the tickets are absolutely free and are not issued on a lottery plan, Mr. Prindle did not comment on the details of the plan. "We are simply giving a car away without charging for it, and one of the fifteen ticket-holders will get it," he added. No information is given out concerning the plan outside of the salesroom of the Star agency at 115 West Harvard, Mr. Prindle said.

"Judging from the interest shown in this offering," said Mr. Prindle, "I think we shall be able to close the contest much sooner than we anticipated, which has been set for December 20."

Californians Get Most Fun From Car

Although less than 3 per cent of the motor vehicles in California are devoted exclusively to pleasure uses, residents of the Golden State are credited with getting more than twice as much fun out of their cars as the average person in the United States. This conclusion is from figures compiled by the National Automobile Chamber of Commerce and analyzed by the touring bureau of

the Automobile Club of Southern California.

A survey of the uses to which automobiles are put the country over indicates that 46 per cent of the California car owners use their vehicles for camping and 64 per cent utilize the family bus for picnics. The average, over the country is less than one-half of these figures.

Residents of two states lead Californians in taking long jaunts with their cars, but the loyal native sons attribute this to the fact that when one lives in California all the scenery and points of interest are close at hand and long trips are not necessary.

Fee of \$3 Will Be Required of Motorist

The California Vehicle Act as amended in 1923 requires registration fee of \$3 only, on motor vehicles, trailers and semi-trailers.

Will H. Marsh, chief of the Division of Motor Vehicles has already received 1924 registration fees based upon the horse-power rating of the car, as required under the old law, instead of the straight \$3 fee.

The Good MAXWELL

Public Recognizes The Good Maxwell Excess Values

Maxwell value—in looks, comfort, power and stability—has long been recognized by motor car buyers.

The recent price reduction emphasizes this unchanged value—and makes it still more attractive.

They Like the FRANKLIN—

We have only been distributing Franklin Motor Cars in this territory two months yet we have placed six Franklins in the hands of people who are driving their first one, and have placed Franklins with three former Franklin owners. You must ride in one of our cars to realize the comfort that can be built into a modern motor car. The bad weather is about to come on us; let us show you how a Franklin will handle in wet weather. Pick out a bad trip on a bad day and judge for yourself. Let us give you a brake demonstration.

MOTOR SALES CO. 406 E. COLORADO BLVD.

FRANKLIN HEWITT TIRES ROLLIN

As everyone knows, allowance for depreciation in the case of Packard can fairly be placed very low and re-sale value exceptionally high.

It is apparent, therefore, that the prevailing conviction of Single-Six economy is inspired by the soundest and most logical reasoning.

As a matter of fact, it is safe to say there is no car on the market today that can deliver such a high quality of motoring at such a low cost per mile.

This statement is so important that any man contemplating the purchase of a car owes it to himself to give the Single-Six the most careful consideration.

And this remains true, even though the price he has considered as his limit is many hundreds of dollars below that of the Packard.

MINISTERS SCORE FLASK DISPLAYS

Signs in Windows Hinting Use at Football Games Subversive to Law

ATLANTA, Ga., Dec. 8.—"Hip-pocket flasks are suggestive and should not be displayed in show windows."

Thus declared the Evangelical Ministers' association of this city recently as it went on record deploring the displaying of flasks in show windows.

Just prior to every football game that has been played in Atlanta this season certain local converts have placed flasks in their show windows, accompanied by neat little signs suggesting that

Veterans Reluctant to Seek Aid, Report

SACRAMENTO, Dec. 8.—Out of 135,000 veterans in the state who are eligible for state aid under the State Farm and Home Purchase Act, only 14,000 have applied for loans with which to buy farms or homes, according to a check completed by George Stout, secretary of the State Veterans' Welfare Board.

Stout declared that former service men who wish to secure state loans, and have not filed their applications, should do so at once.

They were "good things to have at football games."

The ministers, in the draft of the resolution, declared that such action "is subversive to law enforcement and detrimental to the welfare of our young men." The resolution was passed without a dissenting voice.

Relieve State Units of Government Rents

SACRAMENTO, Dec. 8.—The State of California cannot charge state governmental units rent for quarters in state buildings, according to an opinion rendered today by Attorney General U. S. Webb, at the request of State Controller Ray D. Riley.

The State Board of Control presented a bill for \$626 to the State Highway Commission for rent of quarters in the state building in the San Francisco civic center and to the State Compensation Insurance department for \$2,175 for similar occupancy.

It also was contemplated by the state to charge employees of state hospitals using automobiles \$1 per month rental for garage space on state property. This plan is nullified by the opinion of Attorney General Webb.

It is easier to acquire a trick than to teach it to others.

TUDOR SEDAN IS LATEST FORD CAR

5-Passenger Model Strikes New Distinctive Note In Auto Comfort

DETROIT, Mich., Dec. 8.—The Ford Motor company has announced an addition to its line of cars—the Tudor sedan—which brings to the public an entirely new style of Ford enclosed body.

It is a distinctive type designed to carry five passengers in complete comfort. The roof line is low and straight which, with the larger radiator, now standard on all Ford cars, gave Ford designers an opportunity of effecting most graceful lines and at the same time a most sturdy construction.

Besides its general appeal and high quality aspect, the Tudor sedan has several new features which promise to win immediate favor.

The two doors are unusually wide, and are set at the front of the car, hung in exceptionally heavy frames, and swing open forward on either side in line with the driver's seat.

Side windows running back from the doors are oblong in shape and thirty-two inches in length, affording unusual vision to the occupants, while a large rear window adds to the visibility.

Exterior appearance is enhanced by a windshield visor, cow ventilator and secure rear fenders of new design.

The gasoline tank is located under the driver's seat, making it unnecessary to disturb any other passengers when filling the tank.

The Tudor Sedan, which is now in production, is priced at \$590 at Detroit.

ROADSTER MODEL IS NAMED 'SCOUT'

Rickenbacker Co. Flooded By Suggestions From All Over Country

Selection of "Scout" as the name of the new Rickenbacker roadster model has finally been made, after more than 10,000 suggestions were received from admirers.

"And from the appearance of this new model," says Lewis F. Reed, local Rickenbacker dealer, 107 East Colorado street, "the name has been most suitably applied."

Photographs of this roadster were sent to 500 newspapers, with a short statement to the effect that \$100 would be paid by Captain Rickenbacker to the person who first suggested the most suitable name for this—his own pet model.

More than 10,000 answers poured into the factory, Mr. Reed says, and while hundreds had coincidentally hit upon the same term, still the variations were more than 1000.

DENIES PACKARD HAS FILED SUIT

Rumor of Litigation Over Radiator Dispelled by Buick Official

Tanner & Hall, local Buick dealers, 237 South Brand boulevard, have received a letter from the Buick factory, which states that no suit has been brought by the Packard company for the use of a radiator on the Buick similar to the one used by the Packard.

"There has been some talk in the past about the rumored suit," said Ray L. Galvin, of the Tanner & Hall agency, "but this was never verified at any time, and now comes the letter which dispels this idea entirely."

Reference to the radiator is made in the letter by saying that the Buick factory has not infringed on the Packard hood or radiator in any way, and that as long as the present model is well taken by the American public, the Buick company will continue to make this type of car.

From the sales list, which is growing daily, Mr. Galvin said, it looks as if the present style radiator will be in use for some time to come.

Trucks Must Carry Regulation Lights

Motor trucks in California must have the regulation headlights, approved by the state motor vehicle department, whether operated only in daytime or at night also.

That is the official answer to requests for registration of trucks having only oil lamps and other unapproved lighting arrangements.

Chief Marsh cites section 100 of the state code: "Every motor vehicle shall be equipped with two headlights of approximately equal candlepower at the front of and on opposite sides."

WATCH WET ROADS

All motorists, when driving over strange roads, should proceed very cautiously, particularly when encountering sandy or wet dirt roads and mountainous sections.

One word that aggravates is the seed of a hot argument.

NEW STUDEBAKER TALKS, IS CLAIM

Motorists Will Have Chance To Inspect New Cars At Packer Agency

Everyone has heard the radio talk and the phonograph talk, in addition to a great variety of human "talking machines," but now comes something new. It is the "talking automobile." And the most uncanny thing about it, is, it answers questions just like it was a "real live person."

Glendale residents will have an opportunity to see this mysterious "thing" next Thursday, Friday and Saturday. It is the much-talked-of "talking Studebaker" which has traveled from the east coast, but this is its first appearance in Southern California.

For three days this remarkable car will be in the display room of the Packer Auto company, corner of Brand boulevard and Colorado street, local Studebaker dealers, and according to advance information received by Don H. Packer of this firm, "it sees, it hears, it talks."

The "talking Studebaker" is of the Big Six touring model, and represents the very latest in automobile comfort, efficiency and durability.

"It simply talks, and that's all there is to it," says Don H. Packer.

Practice of Shipping Autos Shows Increase

Arrangements now are completed with forty-four strategically located cities outside of California to receive autos for carload shipments into the Golden State. This announcement is made by the forwarding department of the Automobile Club of Southern California. This service of the club is developing very rapidly, and is proving popular, as through shipping in carload lots a large saving is effected.

A new record for delivery was made recently when eight carloads of eastern pleasure cars were received in two days by the receiving department of the club. Reports show that hundreds of autos are sent to California by train and boat.

BURBANK
GEORGE WALSTON
HEADS REALTORS
Named President at Annual Election of Officers Monday Night

George Walston becomes president of the Burbank Realty board, with W. A. Thompson vice-president and Arthur L. Hoigate secretary-treasurer, following annual election of officers held at their meeting Monday night, December 3, in the Goodfellows' hall. Mr. Thompson was the former president.

A bigger and better realty board is now the plan, with an active campaign for members as the first step, is the initial announcement from the new president. At a mass meeting to be held soon, Mr. Hoigate has been authorized to secure a special speaker and to notify every realty broker in the city of the meeting's time and place.

By unanimous vote a resolution was adopted supporting the new officers and directors of the Chamber of Commerce.

Cities Grow
The gaps between Burbank and Glendale are rapidly closing up, as hundreds of residents pour into each of the neighboring cities.

A number of subdivisions along the boundary line are now active, and numerous residents are finding themselves more or less with one foot in Burbank and the other in Glendale.

Such is the observation of local realtors, whose interest in their community is broad enough to include a hearty admiration for their "big brother," as Glendale is known.

M. C. Hennes of Glendale is reported to have purchased sixteen lots in one of these borderland subdivisions and will build and sell houses thereon, as fast as the market will absorb them.

A business block has been started on San Fernando road by R. E. Hemphill, when Charles Liggett came along and offered to buy the lot and the one adjoining, together with cost of all building expenses to date. The result is that Mr. Hemphill accommodated Mr. Liggett by moving to still another adjoining lot, where he has recommended operations.

City Officials
For the convenience of Burbank readers of the Glendale Evening News, the following list of their city officials is given below:

- Clerk F. S. Webster
- Marshal John H. Long
- Treasurer Chas. B. Fischer
- Attorney Lester R. Godwin
- Engineer E. Curt Miller
- Health Officer Dr. J. N. Van Meter
- Building Inspector Elmer Dale
- Recorder, Judge A. A. Crawford,
- Street Superintendent, R. R. Scott
- Police Telephone 100
- Fire Department Phone 106

Plan Organization of Chapter of Sigma Chi

F. W. Parr and M. A. Stumpf are actively engaged in rounding up all Sigma Chis for the organization of a permanent alumni chapter in Glendale. The meeting is to be held Tuesday with Buddy Grey and announcement is made that already thirty-five men from as many higher institutions of learning, have been cited for membership.

A banquet is planned for January. All Sigma Chis are asked to communicate with either Mr. Parr or Mr. Stumpf.

JOB FOR VETERANS

WASHINGTON, Dec. 8.—As an example to private employers throughout the United States, heads of all government departments have agreed to hire American war veterans whenever possible. Brigadier-General Frank Hines, director of the veterans bureau, has announced.

"We desire to build up a system to make permanent rehabilitation veterans possible," Hines said.

KIWANIS LAUNCH BRAND NEW CLUB
A. F. Wilson Heads Civic Body Formed at Eagle Rock Thursday

The Eagle Rock Kiwanis club was launched Thursday, December 6, at the Women's Twentieth Century clubhouse, with fifty-two members, and officers for the year were elected. A. F. Wilson becoming president; Dr. H. B. Crawford first vice-president; Charles Goodale, second vice-president; Donald G. Montgomery secretary; J. R. Rorick sergeant-at-arms; C. L. Suits treasurer and G. A. Hege district representative.

This consummates a movement that has been on foot for some weeks, sponsored by the Kiwanians of Burbank. The charter will remain open until January 1, 1924, it is announced. The next meeting will be held Friday, December 14, at the Mountain View lodge, when the regular noon meeting date will be set.

Representatives from the Glendale, Burbank and Los Angeles Kiwanis clubs were on hand at the launching of the Eagle Rock chapter.

To Give Play
"The Birds' Christmas Carol" is the title of a Christmas play to be given by pupils of the Eagle Rock school, under direction of Mrs. John McNary. The presentation date is Friday, December 14.

It is announced that an afternoon performance will be given for the children, while another performance will be given at night, for the grown-ups, as the auditorium is too small to accommodate at one showing all who want to see this play.

A box will be in the hallway, where a silver offering for the benefit of the school orchestra may be made. The money will go toward buying instruments.

Drive Under Way
The Christmas drive for the benefit of children of the Utah street school, Los Angeles, is now well under way, reports Mrs. J. C. Reiter, president of the Eagle Rock Parent-Teacher association.

Things for the 1700 pupils of this school are now being collected in the hall of the Eagle Rock school, Mrs. Reiter reports, urging that everyone who has clothing and other useful articles they do not actually need bring these to the school or send them with their children, as the pupils of the Utah school are in many cases in real need.

Located in the center of the Mexican district, this school draws many children whose privileges and advantages are actually "It is an act of real Christian spirit," says Mrs. Reiter, "to do something for these deserving and underprivileged children."

Ears Becoming Smart Again, Says Authority

Following recent prediction in the "Beauty Chats" in The Glendale Evening News that "Ears are fast becoming smart again" it behooves milady to be prepared to answer fashion's dictates with a pair of ears that measure up to style's perfection.

While ears in Glendale still are deep in blarney waves, one well known beauty shop has devised a novel way of protecting patrons' ears from treacherous curling irons.

Grandmother's old fashioned wooden spoon, prized highly by every knowing housewife, has been rejuvenated, and now, while milady of Glendale sits beneath the operator's iron her ears are in no danger, for she holds in her hand a prettily hand-painted wooden spoon, "lorgette" fashion, with the bowl covering first one ear and then the other.

MAY OUST OFFICIALS

SACRAMENTO, Dec. 8.—In a decision rendered at the request of Governor Richardson, Attorney-General Webb held that four appointments to the state land settlement board, made by former Governor Stephens shortly before his retirement from office, were made without authority of law and are invalid.

The men who may be ousted as a result of Webb's decision are: Frank P. Flint, E. S. Wagenheim, Mortimer Fleishhacker and Prescott F. Cogswell.

SUCH IS GOLF

By Wood Cowan

CAMPAIGN NEARS EXCITING PHASE

2nd Period Closes Tonight When Value of Credits Will Decrease

By J. A. MALCOLM
Salesmanship Club Manager

The close of the second period comes tonight. Just a few short hours and another opportunity in the campaign will have passed away. It is impossible to over-estimate the importance of these last few hours. To some a glorious victory, while to others it will mean a stinging defeat. What are you going to do? You must decide at once and act accordingly.

Do not for one moment think that you are going to bring one or two clubs of subscriptions and walk away with one of the grand capital prizes, for even though you may realize the value of the capital prizes that are offered there are others also, and they are out working with a determination to do or die.

Get Subscriptions

Do not depend upon promises to subscribe later, for the subscriptions will be worth less credits and every credit in this campaign counts. So close are some of the workers that a club of two of subscriptions would raise certain ones from the small prize class and give them a chance to win one of the capital prizes. It's anyone's race for the grand prizes and those who work hard and keep at it right up to the last minute are going to be the ones who will eventually carry away the best prizes. After reading this you still have time enough to get out and secure another club of subscriptions before the second period closes but if you wait until tomorrow it will be too late.

The campaign department will be open until nine o'clock or later to accommodate all the club members and first, come first served. Do not wait until the last moment to turn in your subscriptions but turn in what you have earlier in the day and then come back again at night and turn in the balance of subscriptions that you are able to get after making your first turn in.

Bear in mind that it's the final burst of speed that wins in every race, so if you want to win, keep that foremost in your mind. Work with all your might during the remaining hours of this campaign and don't let a single subscription get away from you with promise to subscribe later. Get them and get them right now, to-night and bring them to The Glendale Evening News office and get the higher credits before the schedule drops again.

Fresh Water Shrimp Food for Game Fish

SACRAMENTO, Dec. 8.—Several hundred thousand fresh water shrimps will be shipped from the irrigation ditches and small streams of the Truckee Meadows in Nevada to the trout streams of California in exchange for trout eggs and fry from California.

The fresh water shrimp is an almost indispensable food for game fish and the California Fish and Game Commission believes the Nevada variety is the best obtainable. It is to be found in countless millions in Nevada streams. At the same time, a shipment of aquatic weeds and plants upon which the shrimps thrive, will be planted in California mountain brooks.

A lapsed memory is one that forgets responsibility but remembers what is due.

DEVELOP TALENT AMONG DEBATERS

Upper Class Students Will Help to Coach Juniors In Class Contests

A new system of inter-class debates has been instituted at the local high school by Miss Mary Corry, debating coach, in an effort to induce more pupils to "come out" for that branch of school activity. Heretofore it has been found very difficult to get the freshmen and sophomores to compete with the more experienced upper classmen, and it is hoped that this new plan will remedy this. For several years past Glendale has occupied a very enviable position in high school debating circles, and, if this is to be maintained, the best talent in the school must be available.

The freshmen debating tryouts will be held on Monday, December 10. The question will be, "Resolved, that military training should be adopted in all high schools of the United States." Each speaker will be allowed five minutes, and may take either the affirmative or negative side of the question, developing one or more issues.

The upper class debaters are to act as student coaches. Charlotte Busby, Bonnie Jean Lockwood, Wendell Beauchamp, Jack Finch, Charles Worley and Arden Gingery, under the supervision of Ross V. Miller, freshman chairman, will instruct the first year pupils, and Mary Jo Phillips, Isabel Tousey, Katherine McNary, Velma Botton, Don McMillan and Horace Anderson, under Preston A. Fuller, will coach the sophomores.

INDICT WRONG MEN

LOS ANGELES, Dec. 8.—Murder charges against Harold Field and J. R. Robertson, indicted for the murder of Charles Chauman, shot during a hold-up recently, were dismissed yesterday by Judge Avery on recommendation of the district attorney's office. The two men were absolved of blame for the killing, after John Sears, of Port Washington, Wis., arrested in connection with the Chapman slaying, is said to have confessed that he, Jack Ferdinand and John Geregac staged the fatal hold-up.

COUNCIL MINUTES

Here are additional minutes of the city Council proceedings Thursday night at the city hall:

On motion of Councilman Horn, seconded by Councilman Hall, duly carried, Ducey & Breitenstein were granted an extension of sixty days on their contract for the improvement of Glenwood road.

Transfer of Funds
On motion of Councilman Horn, seconded by Councilman Hall, the sum of \$5,000 was ordered transferred from the public service budget fund to the general budget fund as a loan.

On motion of Councilman Hall, seconded by Councilman Davis, the sum of \$2,000 was ordered transferred from the public service budget fund to the library fund as a loan.

On motion of Councilman Davis, seconded by Councilman Horn, the sum of \$161.10 was ordered transferred from the unappropriated reserve of the park budget to the capital outlay of parks.

Demands
On motion of Councilman Davis, seconded by Councilman Horn, demand of Peter L. Ferry for rental of machine for work at the city park in the sum of \$101.10 was allowed and ordered paid.

On motion of Councilman Hall, seconded by Councilman Horn, demand of H. E. Cadell of the engineering department for use of private car for the month of November in the sum of \$11 was allowed and ordered paid.

On motion of Councilman Davis, seconded by Councilman Horn, demand of Ralph Baugh for shoes and repairs on watch in accident, in the sum of \$8 and \$4.50, was allowed and ordered paid.

Ordinances Offered
Councilman Hall introduced an ordinance entitled, "An Ordinance ordering the holding of a special election to be held in the city of Glendale on the 8th day of January, 1924, and submitting to the qualified voters of said city a proposition of incurring indebtedness and issuing bonds therefor," which was read and laid on the table.

Councilman Hall introduced an ordinance entitled, "An Ordinance ordering the holding of a special election to be held in the City of Glendale on the 8th day of January, 1924, and submitting to the qualified voters of said city a proposition of incurring indebtedness and issuing bonds therefor," which was read and laid on the table.

Councilman Hall introduced an ordinance entitled, "An Ordinance amending sections 4, 15 and 25 of Ordinance No. 806, passed June 25, 1923, and entitled, "An Ordinance of the Council of the City of Glendale fixing the salaries of the officials of said City, authorizing employment of certain employees and fixing the compensation or rates of pay therefor, and repealing all ordinances conflicting therewith," which was read and laid on the table.

Councilman Hall introduced an ordinance entitled, "An Ordinance amending sections 4, 15 and 25 of Ordinance No. 806, passed June 25, 1923, and entitled, "An Ordinance of the Council of the City of Glendale fixing the salaries of the officials of said City, authorizing employment of certain employees and fixing the compensation or rates of pay therefor, and repealing all ordinances conflicting therewith," which was read and laid on the table.

Councilman Davis introduced an ordinance entitled, "An Ordinance of the Council of the City of Glendale abandoning proceedings for the opening, widening and laying out of Raymond avenue as contemplated in Ordinance of Intention No. 853," which was read and laid on the table.

Councilman Horn introduced an ordinance entitled, "An Ordinance of the Council of the City of Glendale establishing the grade on a portion of Justin avenue within the City of Glendale," which was read and laid on the table.

Councilman Horn introduced an ordinance entitled, "An Ordinance of the Council of the City of Glendale establishing the grade on a portion of Justin avenue within the City of Glendale," which was read and laid on the table.

Councilman Davis introduced a resolution entitled, "A Resolution of the City Council of the City of Glendale determining that the public interest and necessity demand the acquisition by said city

COSMO CLUB HAS ANNUAL BANQUET

Twenty-One Foreign Lands Represented at Oxy Celebration

The annual Cosmopolitan banquet of Southern California, was held Thursday evening in the Occidental College "Commons." About 200 students of this country and foreign lands, gathered around the banquet tables for the purpose of promoting international friendship. The University of Southern California, Southern Branch of University of California, Pomona College, Whittier, Calteck, and Occidental, were all represented by large groups. Twenty-one foreign countries were represented. They were: Korean, 1; Japanese, 8; Philippines, 6; Chinese, 2; Swedish, 1; Persian, 1; Marshall Island, 1; Czechoslovakia, 3; Chile, 1; India, 1; Holland, 2; Nova Scotia, 1; Australia, 1; Wales, 1; Hawaii, 4; Mexico, 2; British Central America, 1; Russia, 14; South America, 2; American Negroes, 2; and one full blooded American Indian.

The annual banquet was the first anniversary of the founding of the Cosmopolitan Clubs in Southern California. The meeting of all the clubs was a great success. Edward Jones, president of the Occidental Cosmo Club, was chairman. President Remsen D. Bird, head of Occidental, was toastmaster for the occasion.

A member of each college group gave a short, interesting talk. Several foreign students entertained with native songs and music. Dr. Freeman, of Pomona College, gave the main address of the evening on "The Creation of the International Mind."

DEMANDS ACCOUNTING

SACRAMENTO, Cal., Dec. 8.—Announcement that he will bring mandamus proceedings against the state board of accountancy and the state board of pilot commissioners to force them to turn all their collections into the state treasury for accounting, has been made by Controller Ray L. Riley. Riley said that the boards had refused to account for their collections, or permit a check to be made by his office.

With a little forbearance we find a little humor in the worst of things.

of a certain Municipal Improvement, the cost of which will be too great to be paid out of the ordinary annual income and revenue of said city," which was read, and, on his motion seconded by Councilman Horn, the same was numbered Resolution No. 2205 and adopted.

Councilman Horn introduced a resolution entitled, "Resolution ordering the work on portions of Sycamore Canon road, Lexington drive, Verdugo road, California avenue, Stanley avenue, Wilson avenue, Broadway, Harvard street, Orange Grove avenue, Elk avenue, Chestnut street, Maple street, Raleigh street, Windsor road, Garfield avenue and Acacia avenue in said city," which was read, and, on his motion seconded by Councilman Hall, the same was numbered Resolution No. 2206 and adopted.

Councilman Davis introduced a resolution entitled, "A Resolution of the Council of the City of Glendale ordering certain improvements to be made on portions of Hill drive and Sycamore Canon road within said city," which was read, and, on his motion seconded by Councilman Horn, the same was numbered Resolution No. 2207 and adopted.

On motion of Councilman Horn, seconded by Councilman Hall, duly carried, meeting was adjourned.

What Water Does for Batteries
Not too much or too little—but just the right quantity of water ought to be kept in your battery all the time.
The water does two things: it keeps the battery solution over the tops of the plates so that the whole plate surface is used; and it gives proper strength of solution.
Don't hesitate to ask us for water service even if yours isn't a Willard Battery. The Willard Standards of Service are the same for every make.

BUILD NEW HOME FOR NASH AGENCY

Salesroom and Service Dept. To Accommodate Growing List of Owners

Work on the new building at 1234 South Brand boulevard that is to be occupied by the Nash Sales Co., Inc., at present located at 112 South Maryland street, is well under way and the firm expects to take possession of its new quarters by January 20, according to Donald H. Barbee, sales manager.

The building will be faced with fancy pressed brick and will have two 12 foot plate glass windows in front and one on the side of the showrooms, to afford plenty of light to show off the good points of the cars. The floor space will be 50x125, and the salesroom will be finished in keeping with the best standards of the motor industry. The service department will be equipped to handle all jobs that are brought in, especially on Nash cars, and a complete stock of Nash parts will be on hand at all times.

"We picked this location," said Mr. Barbee, "because it is on the main business street and close to the principal traffic arteries. Our business has been growing so rapidly that we found it necessary to secure more commodious quarters than we have at present, in order that we may give the best possible service to the growing family of Nash owners."

"While all models have been selling rapidly, the biggest demand is for the two closed models, the Six 4-door Coupe and the Four Carriole, which is such a pronounced favorite with women drivers."

COUPE-SEDAN IS WOMEN'S CHOICE

Closed Willys-Knight Model Wins Unstinted Praise Of Fair Drivers

Where there is need for a spacious, serviceable five passenger closed car, says George T. Smith, of Smith, Sloan, Inc., 225 South Brand boulevard, local Willys-Knight and Overland dealers, women drivers are loud in acclaiming their praise for the Willys-Knight coupe-sedan.

"The Willys-Knight coupe-sedan, a nationally prominent car the day it was announced at the 1923 shows," continued Mr. Smith, "has been growing in public favor until today it claims first place in the admiration of thousands of women drivers."

"It is a serviceable car for a woman. One may dress in an evening gown and drive her car with the positive feeling that weather can not enter, that the coupe-sedan may be handled without causing weariness and that the faithful Knight sleeve-valve motor will always function."

"The Willys-Knight is the easiest of all cars to steer. The clutch only requires sixteen pounds foot pressure, yet exerts an actual clutch pressure of 300 pounds. Fifty pounds foot pressure is usually needed in other cars."

CARS TAGGED FOR CHRISTMAS GIFTS

Motor Car Dealer Is Factor In Keeping Service at High Efficiency

"It is strictly up to the local automotive merchant to keep motor car transportation at normal efficiency in his town," says Lyman P. Clark, of the Glendale Motor Car Company, 124 West Colorado street, Maxwell and Chalmers dealers.

"Winter puts a heavy load on the motor car. The business of the community depends upon the performance of motor transport units. Deliveries, professional calls, social activities, all suffer if car performance falls."

"And so at this time of year the modern dealer is prepared with augmented resources to meet all the needs of the community for automotive transportation."

"More people are going to find Christmas cheer in motor cars and accessories this year than ever before," says Mr. Clark.

"Cars sales have been phenomenal this fall, and not a few Maxwells on our floors are tagged for Christmas delivery."

"The accessory lines offer people an easy way out of the Christmas shopping problem. Every Christmas list includes a lot of motorists. Any motorist would rather have a useful accessory than anything else. And it's a lot easier to select and buy a good accessory than most other things."

MAY ERECT PLANT

Rumor has it that the General Motors corporation will erect a Buick assembling plant in Oakland, Cal., adjacent to the Chevrolet Motor company of California plant.

WONDER INDUSTRY

There are 38,000 passenger car dealers in the United States and 25,000 who sell motor trucks. In addition, the service stations and repair shops number 63,000 and public garages 48,000.

AUTO AGENCY IN ENLARGED PLANT

Ralph B. Bliss Organization Sells Paige and Jewett On East Colorado

Located in their new and modern building at 219 West Colorado street, after having moved from their old location at 306 East Colorado, the Ralph B. Bliss agency, handling Paige and Jewett automobiles, is now representative of Glendale's most enterprising and up-to-date automobile dealers.

The new building occupied by this concern has recently been completed and affords ample facilities for taking care of the rapidly growing business. The building is 50x150 feet, and besides the spacious and well-appointed show rooms, it contains a completely equipped shop for handling all kinds of repair work. Special attention is paid, according to F. S. Paden, assistant manager, to repairing Paige and Jewett cars.

Since moving into their new location, Mr. Paden said, the entire organization has been enlarged, with the shops now under their own supervision. The new display rooms are large enough for displaying all models of both cars, and already a complete line of the Jewett is on the floors. By January 1 they expect to have received all models of the Paige.

CHECK UP BRAKE INSPECTION DATE

Importance of Proper Tests Stressed by Expert in Automobile Work

The Fitzhugh Brake Service, 120 South Maryland avenue, announces its new system of brake inspection. A unique method is employed by this firm, an inspection card being issued to show the date of last inspection and time for the next inspection.

In the opinion of L. M. Fitzhugh, manager of this concern, brake inspection is a matter that soon will be governed by a state law in much the same manner as automobile lights are now controlled by inspection.

The importance of brake inspection is stressed by Mr. Fitzhugh, who points out that the cost of one inspection is negligible compared to the cost of a single accident, not considering the probable serious injury to persons or loss of life.

When selfishness in you holds sway You block another's smooth pathway.

ATTENTION! Motor Car Owners

The following responsible and established battery houses of Glendale, after mature consideration, have decided to charge a small fee for testing, watering and inspecting automobile batteries, effective Jan. 1st, 1924.

We believe that car owners, realizing the necessity and importance of regular, expert battery inspection, are not desirous of imposing on battery stations the cost of a service that is rendered for the car owner's benefit. A nominal charge will enable us to maintain a higher standard of service, carefully rendered by competent men.

Effective Jan. 1st, 1924, we will charge the following prices for such service:

Calling For or Delivering Battery, Minimum . . . 50c
Test and Water Battery 15c
Clean and Grease Terminals 25c

TODAY—Regarding youthful morals.

By MICHAEL F. DACEY For International News Service

DENVER Dec. 8.—Are our modern American girls—flappers, so-called—too frank and forward? Are they, as charged by Mrs. Charles H. Remington, of Rhode Island, before a meeting of school superintendents at Harvard university, "sowing wild oats and leading the boys astray?"

Is their wholesome frankness an indication of a "new freedom" for the gentler sex, or is it resulting in a deterioration of the morals and manners of both girls and boys?

Mrs. Harry Zimmerhackle, president of the Colorado Parent-Teachers' association, came to the defense of the girls by declaring that we needn't be frightened about the future of our girls, when the reported assertions of Mrs. Remington were called to her attention.

"Our concern about girls, as parents," Mrs. Zimmerhackle said, "is to keep up with their fine, clean, high ambitions; to understand that their frankness is part of a new freedom and honesty, and to realize that upon us—mothers and fathers—rests the responsibility of providing the education by which they are to make their progress through life."

"Little is gained in the way of workable knowledge by making comparisons between girls of today and yesterday. For into today have come the automobile, jazz, the telephone and other social diversions unknown to our mothers—in their girlhood."

"I do not believe our girls are going to the dogs and taking the boys with them," Mrs. Zimmerhackle said. "They talk candidly of things formerly taboo, but this is a sign of degeneracy? I think not."

Further inquiry failed to reveal any who were eager to be quoted on the subject, but one woman, mother of several boys, was hardly in accord with Mrs. Zimmerhackle.

"My boys come home from school and work," this woman said, "only to be greeted with the ringing of the telephone, and from that moment until they go out in the evening girls are calling, calling, calling. They ask for this, that and the other. They suggest entertainment and gifts. Judging from reports made by my boys, the girls think time wasted which doesn't include petting and cigarettes."

And a cryptic summing up of the controversy by a red-lipped young flapper contained this: "We take to ourselves just what we want to take and let the rest alone—and the rest usually is the undesirable part."

MCCORMICK GETS LAST LAUGH Left At Church, Brings Bride Back Home

Mr. and Mrs. Allister McCormick

Chicago was laughing at Allister McCormick a year ago, but Allister is laughing at Chicago now. The man who was left waiting at the church by Mary Landon Baker is back home with a bride, the former Miss Joan Tyndale Stevens, daughter of the Hon. Mrs. Astley of England. They were married in Paris.

Who's Who in the Day's News

BRIG. GEN. FRANK T. HINES

The testimony of Brig. Gen. Frank T. Hines, head of the veterans' bureau, that he found much needless duplication of work and waste in expenditures in the bureau under the regime of Col. Charles R. Forbes, furnished one of the early sensations in the probe of the special senate committee, now on.

Hines, named to succeed Forbes by President Harding, was born in Salt Lake City in 1879.

He went to the Agricultural college of Utah and was an honor graduate of the Artillery school in 1904. In 1914 he was graduated in the advanced course of the Coast Artillery school. His army career has been long and active.

He served in twenty-two engagements in the Philippines and was recommended for the D. S. M., "for bravery in action against Spaniards."

While with the coast artillery corps in 1905 he specialized in artillery engineering and fortifications. He was in southern Europe when the United States entered the war and was assigned as chief of staff of the embarkation service. He was appointed chief of embarkation in 1918 and the following year was made chief of transportation service, U. S. army.

With Secretary of War Baker he represented the United States at the allied maritime transport council in London in 1918 and again in England and also in France the next year he helped adjust matters of transport with

My passport to that foreign shore. Well, that's all over. But today I locked that photograph away within a secret place, where I shall keep it till the day I die. For there may come a time, I know,

When Vanity shall whisper low That in this city there may be Men who are homelier than me; That this my nose is fairly straight,

Or that my two eyes nearly mate, Or that my chin is in its place; Or that, although this battered face

Is ugly, it reveals a glow Of mind that morons do not show. When such a day arrives, I trust I'll have the strength of mind to bust

The locks that guard this secret nook, And take that picture out, and look Upon it once, and drive away The prideful error of that day! —Ted Robinson.

As fast as a spendthrift travels his dollars will melt.

the allied nations. He was recommended for permanent appointment as brigadier general by Wilson in 1919.

It was General Hines who was largely responsible for developing the organization which carried over 2,082,000 soldiers to Europe in eighteen months and returned them home in eight months.

While the recent appointment of Lord Athlone to be governor general of the autonomous South African Union is regarded primarily as a felicitous one because of the fact that he is a brother of Queen Mary of England, yet he is thoroughly familiar with South African affairs and well known to the leaders, especially the older ones—in the colonial states of Africa. He is also, first of all, a soldier.

Since he received his early military education at Sandhurst he has played an important part in Great Britain's military activities. He has served long as an officer in the seventh Hussars and the Royal Horse guards. Against the Matabeles in 1896 the earl saw much service, and when the Boer war came took part in the relief of Kimberley and Mafeking in addition to figuring in practically every other important action of that South African conflict. His work earned him the British Distinguished Service order in addition to several citations.

He played an important part in Britain's military organization in the World war, serving the entire four years on the French and Belgian fronts. For a time he served as chief of the British mission at Belgian headquarters. He was mentioned in dispatches and decorated for his services.

He is built like a soldier—tall and erect. He was born April 14, 1874, in Kensington palace. He studied at Eton before going to Sandhurst. His mother was the universally loved Princess "Polly" of Cambridge. His father was the Duke of Teck. Lord Athlone was the third son.

He is not an English royal prince nor even a foreign one, but his personal popularity and his ability as a soldier have placed him among the front ranks of England's peers.

Lord Athlone's wife is Princess Alice, only daughter of Queen Victoria's youngest son, the Duke of Albany. Neither of the two is wealthy. However, Lord Athlone will receive an annual salary of \$50,000 and ample allowances, in addition to luxurious living quarters at Cape Town, for the five-year period for which he has been named.

Uncle Wiggily Bedtime Stories

BY HOWARD R. GARIS

UNCLE WIGGILY AND THE GOLD FISH

Once upon a time Uncle Wiggily was hopping through the woods, when he happened to pass a little pond of water that was almost frozen over. There was a little space of clear water in the middle and from this opening a sad voice came, saying: "Oh, dear! Oh, dear! What shall I do?"

"My! That sounds like trouble," Uncle Wiggily said to himself. "It can't be the Fox, the Wolf or the Bob Cat trying to play a trick on me, for they don't like water. Of course it might be the Skilly Scally Alligator. But then it is getting too cold for him unless he wears a fur overcoat which I think he doesn't. I wonder who it is?"

Then the sad voice said again: "Oh, if some one doesn't help me soon, I shall freeze!" "I must do something to help!" decided Uncle Wiggily. "Hello, there, in the hole of the ice!" cried the bunny. "Who are you and what is the trouble?"

"I am a lonesome gold fish," was the answer. "I live in this pond in the summer. But when winter comes I and the other gold fish bury ourselves deep in the warm mud at the bottom of the pond and stay there until summer comes again."

"Well, then, why aren't you in the mud?" asked the bunny. "Because," answered the gold fish, "I put off too long digging myself a nest in the mud. Now it is too late. The mud is frozen hard and if I stay up here in the water I shall either be frozen myself or the pond will be frozen over tight and I can't swim. Oh, what shall I do?"

Uncle Wiggily thought for a moment and then he said: "How would it be if I took you home in a can of water and let you stay in my warm, hollow stump bungalow all winter?"

"That would be fine!" said the gold fish. "Please do it. And when summer comes you may, if you will be so kind, bring me back to my pond."

"I'll do it," said the bunny, finding an empty tin can near the little pond, the rabbit gentleman filled it with water and scooped up the gold fish. Then he took it home.

"See what I have brought you, Nurse Jane!" cried the rabbit gentleman as he hopped into the bungalow. "Oh, a gold fish! How lovely!" exclaimed the muskrat lady housekeeper.

"Yes, he will be company for you while I am away looking for adventures," went on Uncle Wiggily. "Now you won't be lonesome, will you, Nurse Jane?" "I should say not, indeed!" Not with a lively gold fish in the bungalow," said the muskrat lady laughing happily.

"Uncle Wiggily is very kind to bring me here," said the gold fish. "And I would like very much to do him a favor."

Nurse Jane did not very well see how a gold fish could ever do a favor for a rabbit gentleman, but she was too polite to say so.

"However, we shall see what happened." One day, about a week after he had brought home the gold fish to Nurse Jane, the muskrat lady said: "I am going over to see Mr. Wibblewobble, the lady duck, for a few minutes. I'll be right back, Uncle Wiggily. Would you mind waiting here until I return, as I expect a new seven-cent dishpan from the nine-cent store."

"I'll wait for you," said the bunny, feeding the gold fish some cake crumbs. "And then I'll go out adventuring."

So Nurse Jane went out and Uncle Wiggily sat down in an easy chair to rest. And all of a sudden the bunny gentleman fell asleep. And as he slept, into the bungalow came the Sly Weasel. "Ha, ha!" snickered the Sly Weasel as he saw the sleeping bunny.

"Now I can nibble his ears!" "No, you can not!" speaks a bold voice. "Who will stop me?" snarled the Weasel.

"I—the gold fish—will stop you!" was the answer. And with that the brave gold fish, swimming in a glass bowl of water, flinned his tail, and he flopped his tail, and he splashed a lot of water in the eyes of the Sly Weasel.

"Oh, it's raining! It's raining and I didn't bring my umbrella!" cried the Sly Weasel. "I must run home and get it before I nibble Uncle Wiggily's ears!" Then away ran the Sly Weasel, the gold fish splashing more water on the bad chap. And when Uncle Wiggily was awakened, as a drop of water splashed on his pink, twinkling nose, the bunny said: "Well splashed, gold fish! Well splashed! You did me a favor after all, and I had a fine adventure. So it all ended happily, you see."

And if the chimney on the house doesn't crawl down the cellar stairs to tickle the furnace under the chin, I'll tell you next about Uncle Wiggily and the clothespin doll.

10 Years Ago Today

From Evening News Files

Thus far in December permits for Glendale have been issued by Building Inspector Banker amounting to \$16,265. The grand total to date is \$609,469.

Supervising Principal Richardson D. White, of the intermediate schools, Mrs. White and Miss Mabel Thayer, manual training superintendent, chaperoned the A Eighth grade on an observation tour to San Pedro yesterday.

Tomorrow will be Glendale's first tag day. The Campfire Girls led by Mrs. McPherson and Mrs. Latta, are to raise money for charity.

Dinner Stories

"Hang it, boy!" exclaimed the tenderfoot from the East as the bellboy for a Texas hotel came bouncing in on him without knocking, "haven't you got any manners about you?"

"Didn't you ring?" asked the boy.

"Of course I rang."

"Didn't you ring three times?"

"It may have been three, as I was in a hurry for ice water, but that doesn't excuse you for bursting in the door."

"Beg pardon," replied the boy, as he backed out, "but you ought to read the bell card. It's one ring for the porter, two for the bellboy and three for a gun, and when a guest rings for a gun in this hotel the orders are to get it to him before the other fellow can beg his pardon!"—Houston (Texas) Post.

Since prohibition went into effect churches have had difficulty in obtaining wine for sacramental use. A little negro church in the South was no exception, according to Judge. The pastor called on some of the sisters to make wine which could be used. One old negro woman volunteered, but all she had to use was persimmons. So she made persimmon wine. Everything went all right at the church the day of the services and all the brothers and sisters partook of the wine. The only trouble was that when it came to the doxology everybody had to whistle.

A mule auction took place in a ring enclosure, access to which was by one small gateway, and considerable amusement was caused among the onlookers by the efforts of the men in charge of the animals to get them to go through it. One mule especially seemed obstinately bent on doing anything and everything but pass

On the Spur of the Moment

By ROY K. MOULTON

BY WAY OF COMPARISON

The bed of life is hard, they say. And doubtless they are right, for they are hardly like to go astray. On such a simple point. But we should not hold it in dread; it can't seem hard, when all is said.

To a man who used to make his bed. In a downtown lodging joint. The road of life is rough, that's true; And it's to be denied by few, Leastwise, by folks like me and you.

With problems hard to meet. For you and I are lucky guys Who've been trained to rough exercise. By any old street car that plies On almost any street.

The hours of life fleet briefly by; That is supposed to make us sigh. But I don't stop to grieve, for I Need only to contrast Those hours with hours that fit indeed. Hours that really show some speed. That make Zev look like a clumsy steed.

The hours my wages last. Money isn't everything, as some brilliant man once discovered. Correct. Statisticians have figured out that money is only 94.3621 per cent of the total.

HOPE SPRINGS ETERNAL Soon the dizzy race track season Will be over hereabout. And the fans return to reason. And the gamblers put to rout.

Then the time to be beguiling. When the weather's getting cool. By our annual compiling, "How I came to be a fool."

But since hope still springs eternal And since gloom gives way to cheer Soon we'll start the sequel next. "What I'm Going To Cop Next Year."

A rejection slip would come in mighty handy in a breach of promise case.

Some one the other day was talking about who ever scored the quickest knockout. Well, back in our school days we were introduced to a "Pollies" girl once—

The first signal of the millennium will be the publication of a rotogravure section without a picture of some well known sports-

man falling off his horse. We confess we're a little jealous. Practically the only time we were ever on a horse in our life we fell off it and being out in the wilds of Arizona, there wasn't a photographer within miles.

What's a little thing like a coal shortage to the man who has become frostbitten under the boss' key while explaining that, honest, the baby knocked over the alarm clock last night and it wouldn't go off this morning?

Christmas comes but once a year, but the average taxpayer can't help but feel he's being played for a Santa Claus 365 times.

Judging from the increasing divorce rate a fool and his honey are soon parted.

One of his delusions most firmly fixed in the mind of the great American public is that any newspaper man can always get a pass to a championship fight or anything else he likes for the mere asking. Some day we fully expect to be called to somebody's deathbed and asked to supply a pass to crash the Pearly Gate.

FOLLY Midst verdure green, with dewpearls set, Where trickling gleamed a rivulet, Two youthful hearts in Cupid's net

The sun was set in amethyst Dimmed by the early morning mist. They gazed, and then (since you insist)

She squeezed his work-worn hand and said Her love for him could ne'er be dead. So from the altar she was led

He was a frugal soul, and meant To save his money for the rent. Soon she had all the banker lent

Away their furniture is carted; Their dream is o'er before it's started. The pair is now, though broken-hearted,

So if you wish, sweet gentlemen, to keep away from harm, Remember this, and never spend your summers on a farm. —Robot No. 736

ANSWERS TO CORRESPONDENTS

P. D.: You say that you have been bothered with constipation for two and a half years and that you take a physic every day and you have a steady, dull pain in your right side. It is probable that you have chronic appendicitis, P. D., which is causing your constipation and your dull pain. I advise you to stop taking physics. That alone will keep you constipated and will undermine your health.

Go on a diet including at least a pint of milk a day, a liberal amount of greens, fresh and dried fruit, whole wheat bread, and take in addition to this one or two tablespoons of mineral oil every night and one-half cup of cereal bran every morning. If you do not like the bran, get the granulated agar. This you will have to get from the drug store. Have a regular time to go on the toilet; take an enema, if necessary, for a while instead of taking a physic, drink plenty of water between meals, and take some long walks with a brisk and long stride.

If this program does not cure you of your constipation and your dull pain, I would advise you to see a surgeon. A chronically inflamed appendix may become an acutely inflamed appendix and endanger your life. We have an article on constipation you may have.

TRIMLY SMART AND YOUTHFUL

A dress that would be both very smart and youthful if developed in wool jersey, is pictured here. Following the approved lines of the coat-frock, it is trim, and acknowledging the Chinese influence, its braid trimming is in dark blue with bright red and yellow stripes at the outer edge. The adjustment is at the left side. Any of the season's furs may be worn with this model, which, for medium size, requires 2 1/4 yards 54-inch tubing.

PICTORIAL REVIEW Dress No. 1635
Sizes, 34 to 48 inches bust. Price, 35 cents.

United States consumed four times as much ice cream last year as it did nine years ago.

PICTORIAL REVIEW Dress No. 1738
MODEL FOR TWILL COAT FROCK
This pleasing frock of dark blue twill buttons over a foundation of self-color satin, the underskirt of the foundation being attached at the sides and back to a camisole with straight upper edge. The front of the dress opens into a deep V, and is softened with a collar of gray chiffon crepe, outlined with self-color embroidery. The smart finish for the model is a small hat of blue felt, stitched with silk braid and trimmed with a blue and braid cockade. The dress, in medium size, requires 4 1/2 yards 54-inch material.

PICTORIAL REVIEW Dress No. 1733
Sizes, 34 to 50 inches bust. Price, 45 cents.

LITTLE HINTS

If you are thoroughly tired out and must make yourself look and feel fresh in a short time, take some kind of an aromatic hot bath. Many women keep bottles of aromatic bath salts for this purpose. A bath with a little eau de Cologne in the water is refreshing, or a bath with a little aromatic vinegar in. Some shops sell small bags called herb bath bags, each bag containing a mixture of aromatic herbs, one bag to be used in each bath. If you can't do this, take an ordinary hot bath, then spray the body with toilet water, Cologne or aromatic vinegar.

If you have a bad headache and must feel fresh, take a hot bath, then pour quite a good deal of Cologne in a small bowl of very hot water, saturate your face with this and rub it gently over the face, particularly over the temples and behind the ears. This combination should cure any headache due to fatigue.

If your skin looks rather dead and dry, and you've no time for a proper and lengthy massage, do one of two things. The first is to rub the skin full of cleansing or ordinary massage cream, and to wash this off with soap and water, followed by a cold water rinse. The second thing is to wash the face with hot water and soap as usual, rinse with cold water, and before powdering to rub in a small quantity of vanishing cream. It does not hurt to use vanishing cream now and then.

If the feet are tired and you've no time to soak them in hot water, spray them with Cologne or toilet vinegar, give them a quick vigorous massage, and powder them.

If you live in a hard water district so that your hair looks sticky when it has been washed, put a tablespoonful of vinegar in each rinse water.

If your nails look badly rub with cream, then scrub off the cream.

Frenchy—Try an ointment in which there is some sulphur. If the pimples have continued because of local infection this should heal them. If this treatment does not end the attack, consult your doctor. With black hair, blue eyes and white skin, your most becoming colors will be all those found in the autumn foliage.

Kitty—You would solve all your difficulties if you added another ten to fifteen pounds to your weight. You are not out of proportion, you are merely too thin. Try olive oil, a tablespoonful in same amount of grape juice, three times a day, or better still, take cod liver oil if possible. I will be glad to send you a formula for a tonic which will improve your hair. Do not spoil it meantime by dyeing it black, when your coloring does not warrant that shade.

E. N.—Hot baths tend toward reduction. Cold baths are stimulating if you can get a reaction from them. "Henna" is a tonic for the hair, so it could not injure it when being used for its color.

All inquiries addressed to Miss Forbes in care of the "Beauty Chats" department will be answered in these columns in their own time. This requires considerable time, however, owing to the great number received. So, if a personal or quicker reply is desired, a stamped envelope must be enclosed with the question.—The Editor.

Copyright, 1923, George Matthew Adams

"Dear Doctor: I wrote you about three months ago and enclosed stamps but did not hear from you, so will try again. Will you please send me your reducing plans? I have a friend who has reduced thirty pounds in three months. Enclosed find stamps. Hoping to hear from you, I am, Mrs. H."

Dear Mrs. H.: I am afraid you will not get the plans even yet because you did not follow the rules of the column, to enclose a fully addressed stamped envelope with your stamps, and your request. It would require extra help at the office to address envelopes, so we have had to make that rule. Try again, following the rules, and you will be rewarded.

Mrs. K.: Pyorrhea is a very difficult disease to cure. The thing to do is to prevent it, and that you can do largely by a correct diet and preventive dental care.

At the Forsythe Dental Clinic in Boston it has been demonstrated that diets deficient in vitamins will cause pyorrhea as well as general disturbances. You will get the vitamins in the whole grain cereals, fresh food, especially the green leaf vegetables, and fruits

Heart and Home Problems
By MRS. ELIZABETH THOMPSON

Dear Mrs. Thompson: I am 19 years old and have been going with a young man about 27 years old. I like him very much, but before I met him ten months ago he went with another girl. I know he likes her very much. She is a very pretty girl. So many of my friends tell me he is in love with her. Do you think it is because she is a college girl or because she is more attractive than I am?

Would you advise me to give him up, or should I keep going with him? He never says anything about marrying me and my friends tell me he never will, as he is mad about this other girl.

Please give me your advice. I cannot ask mother as she would not understand. I do not want to waste time with someone who loves another.

McG.

You were not to blame in the least for what happened, and you explained your position. Now there is nothing further to do. If the young man insists on being angry, let him. I presume he will soon see that he is in the wrong and then will telephone you again.

Dear Mrs. Thompson: I have been married two years and have a baby girl 11 months old. I love my husband dearly and feel that I can truthfully say he returns my love. We have never had any misunderstandings since our marriage, and he has never trifled with other women.

The other day he received a telephone call from his mother. A girl he used to go with when he was in high school was in town and she wanted to see my husband again. She is married also and has a little boy. His mother asked if we would be home so this former sweetheart and her child could come out and call.

Naturally I did not like this arrangement any too well, but I did not like to show jealousy and so when I was consulted by my husband I said that we would stay at home and receive our caller. My husband explained to me that the girl's parents and his parents had been neighbors at one time and so it was not strange that she

ONE-ARMED GOLFER

Cecil Gardner, a son of Major Gardner of the British army, has the distinction of being an expert golfer, although he has only one arm. He enters the championship matches of the Shooters' Hill Golf Club, near Dunbar, and he plays against the best in the club. He enters the more closely contested matches with a handicap of only 16, which is considered remarkable, as some players who have the full use of both members have that handicap and higher.

Saffron is a product of the stigmas of the fragrant crocus, and these are so small that more than 4,000 are necessary to furnish one ounce of dried saffron.

SAW ON TRACTOR

An attachment has been invented for mounting a circular saw on the front of a farm tractor and driving it by its engine either vertically for cutting wood or horizontally for felling trees.

TO TEST PEARS

An Oregon experiment station has developed a machine that tells when growing pears have reached the right stage for canning, shipping, short or long distances or eating.

RELIEVED BOY'S COUGH

Mrs. L. Van Belle, Pendroy, Mont., writes: "I like your Cough Medicine very well. My little boy, 6 years old, had a very bad cough and after using FOLEY'S HONEY AND TAR COMPOUND he secured relief." For coughs, colds and hoarseness there is no better remedy on the market today than FOLEY'S HONEY AND TAR COMPOUND. It has stood the test of time, serving three generations. Get the genuine; refuse substitutes.

Glendale Pharmacy, 638 East Broadway; Hub Pharmacy, Glendale and Colorado; Acacia Pharmacy, 922 South Glendale Avenue.—Advertisement.

DOUBTFUL

Perhaps it is unusual for a married woman to look up a former sweetheart, but I can see nothing wrong in such a course if the woman's intentions are purely friendly. I think you acted just the right way when you refrained from showing jealousy and so willingly stayed at home to receive your caller.

DOUBTFUL

should look him up when she came to town.

Do you think it was good taste for a married woman to look up the husband of another woman when she came to town to visit?

DOUBTFUL.

Perhaps it is unusual for a married woman to look up a former sweetheart, but I can see nothing wrong in such a course if the woman's intentions are purely friendly. I think you acted just the right way when you refrained from showing jealousy and so willingly stayed at home to receive your caller.

Cocoa, Cake, Jelly

Every housekeeper who sees the new shade pulls in shops or at a friend's house, immediately wants some like them for her own home. Not for years have we had a vogue which is as universal as this one. They dress up a window, so! One woman declared to me, "I shan't be happy till every window in my home—at least, every window downstairs—has one." This feeling is shared by multitudes of other housekeepers.

So today I am printing directions for making them. I am sure that many of my readers will use them. It is just these little touches that beautify a home. There is no doubt about it, a room has a "richer" look if its window shades are outfitted with these new tassels and cords.

Materials: A No. 7 steel crochet hook and two balls of No. 3 crochet cotton (either white, gray or cream—depending upon the color of your window shades).

To Make the Four-Inch Tassel:
Cut a piece of very stiff cardboard four inches long (the width does not matter) and wrap the crochet cotton around this 12 1/2 times. Then tie it somewhere with a small piece of string (so that it will not lose its shape when you slip it off the board). Slip it off and cut the threads at one end; at the top end tie it again so as to form a little knob; this small knob will later be slipped into a crocheted "cap," to form top of tassel.

To Make the Crocheted Cord:
There are many ways of making the cords to these new shade pulls, but a crocheted cord is as pretty as any kind (I regret that I cannot give directions for making the iron or braided kind as they are made on looms—often on a home-made loom consisting of a shingle with nails in it—and it would be impossible for me to describe the method of doing it; one would have to be shown how to make them—mere words could not adequately describe the method). Take two threads of the crochet cotton and make a chain seventy stitches long. The two ends of this cord are passed through the top of the tassel itself, before the little cap is slipped onto the top of the tassel.

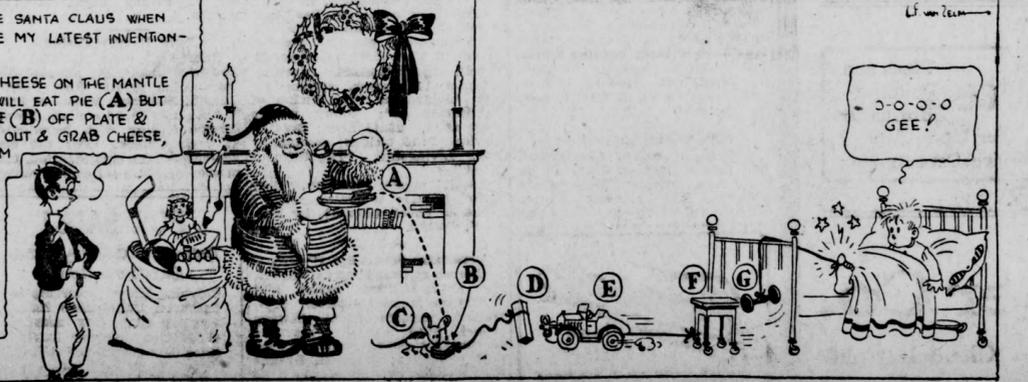

To Make Tassel Cap: Chain five and join. Single crochet eight times in ring, twice in each stitch in the second row, making sixteen stitches for third row. Single crochet once in each stitch in every row. Make this cap eight rows long, then turn it in-

Elinor Glyn's
"SIX DAYS"
—Featuring—
CORINNE GRIFFITH
and
FRANK MAYO

Elinor Glyn's romance of two continents in one of the most delightful stories you have ever seen. It has the dash of spice you love.

Here's Pola Negri in the kind of a character part that made her famous. In an American-made production a thousand times bigger than all her other pictures combined.

"THE SPANISH DANCER"

During the presentation of "The Spanish Dancer" at each performance Mr. Harry Hahn, celebrated baritone, will render several selections of well-known Spanish songs.

PUPILS RENOVATE CHRISTMAS TOYS

Manual Arts Students Make New Playthings for Needy Children

"The response of the citizens to the appeal sent out for their cast-off and worn-out toys was very gratifying," said Principal George U. Moyle, of the high school yesterday. "We now have a large number on hand for distribution at Christmas. The cooperation exceeded our expectations, yet there is so much to be done that we hardly know when we will have enough to meet the demand."

The toys, which are repaired by the students in the manual arts classes and decorated by the fine arts department, present an entirely different appearance after being gone over. A great deal of credit is due the boys of the woodwork department, under the direction of Morgan N. Smith, head of the mechanical arts department. The boys have given much of their time on these toys, putting them together, cutting out parts and otherwise making them in first class condition. There are doll beds, doll cradles, doll chairs, roosters, dolls on wheels, tea tables, acrobatic dogs, rocking horses, jack rabbit racers, in fact too many for full description.

The Girls' and Boys' leagues will be in charge of the distribution of these at Christmas. They will be given to the children of Glendale who otherwise would not be paid a visit by Santa Claus.

If the gold in sea-water could be changed from the colloidal to the ironized state, it could be profitably extricated, it is claimed.

CHURCHES

VERY three months some one of Glendale's churches is host to the Court of Honor of the Boy Scouts' Council of the Verdugo Hills, and tomorrow night the Central Avenue Methodist church will be so honored. All parents and friends of the Scouts are invited to attend the service, beginning at 7:30 o'clock.

There will be fifty Scouts promoted and several troops honored. Members of the Court, all prominent Glendaleans, will be in attendance and Rev. Leo C. Kline, pastor of the church, will give the address of the evening.

Glendale Presbyterian

"Church of the Lighted Cross" Harvard and Louise streets

Pacific Avenue M. E.

Church at the corner of Harvard street and Pacific avenue. Rev. H. C. Mullen, pastor. Sunday school 9:45 o'clock; morning worship 11 o'clock, sermon by Rev. Mullen, "The Ripened Harvests and the Reapers"; Epworth League 6:30 o'clock, Mrs. Alice Brown, leader; evening service 7:30 o'clock, sermon by Rev. Mullen, "Jazzy Religion in a Jazzy Day."

First Lutheran
"The Friendly Church." Church at 233 South Kenwood street, Dr. H. C. Funk, Sunday school 10 o'clock; morning worship 11 o'clock, sermon by Dr. Funk, "The Bright Side of Life"; service 7:30 o'clock, "Luther League Night," subject, "What Makes Successful Workers." Singing led by J. H. Niebans.

Casa Verdugo M. E.
Church at corner of Park and North Central avenues. Rev. J. C. Livingston, pastor; Sunday school 9:45 o'clock, George E. Tyrell, superintendent. Morning worship 11 o'clock, sermon by Rev. Livingston, "The Vision of an Enthusiast"; young people meet at the usual hour; evening service 7:30 o'clock, sermon by Rev. Livingston, "The Gifts of Sleep." Special music: anthem, "Only Thee" (Abt.); contralto solo, "I Come to Thee" (Roma), by Mrs. J. W. Cotton.

Central Avenue M. E.

Church at South Central and Palmer avenues. Rev. Leo C. Kline, pastor; Dr. Joseph Marple, musical director; Mrs. Casper Tuttle, pianist; D. C. Bear, superintendent; Mrs. Elsie Moore, chorister; L. Baker, president of Epworth League; Sunday school 9:30 o'clock; morning worship 11, sermon by Rev. Kline, Epworth League 6:30 o'clock; evening service 7:30 o'clock, sermon by Rev. Kline.

Seventh-Day Adventist
Church at corner of Isabel street and California avenue; Elder R. W. Parmele, pastor; Sabbath school (Saturday) 9:30 o'clock; preaching service 10:45 o'clock; preaching Sunday night at 7:30 o'clock; district prayer meetings in fourteen districts of the city, in the church Wednesday night at 7:30 o'clock; Y. P. M. V. Friday night at 7:30 o'clock.

Holy Family Catholic
Church at corner of Elk and Louise streets. Rev. Michael Galvin, parish priest; Rev. Patrick Curran, assistant. Masses at 6:30, 8, 9:30 and 10:30 o'clock. Rosary service closing with benediction at 7:45 o'clock. For the convenience of the congregation, four masses will be held every Sunday.

Carl Gantvoort Will Sing at Club Concert

Carl Gantvoort, baritone, is going to renew his friendship with the Glendale Music club Friday night, when he will appear in concert at the Tuesday Afternoon clubhouse. The music club members and friends have been anticipating Mr. Gantvoort's return to Glendale for a concert ever since he appeared on the scholarship fund benefit program last spring.

It was as a violinist that Mr. Gantvoort made his first public appearance at the age of twelve. After his voice attracted much attention and after studying at the Cincinnati College of Music and the University of Cincinnati Mr. Gantvoort went abroad to continue his vocal study.

He is well known on the operatic and concert stages and his repertoire includes songs from the German, French and Italian.

His voice is a rich baritone of sympathetic quality and great dramatic power, which he handles with unusual facility.

Mrs. Mattison B. Jones, president of the Music Club announces that there will be a general admission of one dollar to the concert, and that night the Christmas gift tickets will be on sale at four dollars for five concerts.

RIGHT ADJUSTMENT

The gap of the spark plug should be adjusted to the thickness of the spark plug gauge provided by the manufacturer.

Knight and music led by Will J. Myers.

Tropico Presbyterian

Church at corner of Central avenue and Laurel street; Dr. James Winnard, pastor; Sunday school 9:30 o'clock; morning worship 11 o'clock, sermon by Dr. Winnard, "Woe Is Me if I Preach Not the Gospel"; young people meet at the usual hour; evening service 7:30 o'clock, sermon by Dr. Winnard, "Wild Oats."

Zion Evangelical Lutheran

(Missouri Synod)
Church at corner of California avenue and Isabel street. Rev. Henry O. Kringel, pastor. Miss Mildred Fischer, organist. Sunday school 9 o'clock; morning worship 10 o'clock, sermon by Rev. Kringel, "The Unmerciful Debtor," Matthew 18, 23-35; Gospel lesson, "Signs of the Last Times," Luke 21, 25-36.

Bethel Chapel

Meets at 633 East Colorado street. Arthur W. Frodsham, pastor. Sunday school 10 o'clock; morning worship 11 o'clock, sermon by Rev. Frodsham, "Modern Jerichos"; evening service 7:30 o'clock, sermon by Rev. Frodsham, "Where Do the Good and Wicked Go at Death?"; Thursday night, 8 o'clock, lecture, "Signs of the Times, the Jew and Palestine."

Occult Scientists

Meet at 113 South Orange street, Rev. and Mrs. Arthur Moore in charge. Sunday night service 8 o'clock. Mrs. Mabel Moore will speak on "The Lord's Prayer or the Prayer of Knowledge," followed by psychometry readings.

Church of the Nazarene

All of the services on Sunday will be held at the Brethren church, 1032 South Glendale avenue. Sunday school 2 o'clock, sermon by Rev. John T. Hatfield; young people meet 6:30 o'clock, leader, Elmer Heck; evening service 7:30 o'clock, sermon by Rev. Hatfield; services each night next week at 7:30 o'clock.

Latter Day Saints

Services in K. of P. hall at the corner of South Brand boulevard and Park avenue. Teacher training class, Clara M. Pinkston, instructress, 9 o'clock; J. H. Krenke, superintendent. Sunday school 10 o'clock; preaching service 11:30 o'clock; relief society on Tuesday, 2 o'clock, Viola D. McIntyre, president; Beehive class Tuesday at 3:30 o'clock, all young women from 14 to 21 welcome. Hyacinth Lambert is beekeeper.

Central Avenue M. E.

Church at South Central and Palmer avenues. Rev. Leo C. Kline, pastor; Dr. Joseph Marple, musical director; Mrs. Casper Tuttle, pianist; D. C. Bear, superintendent; Mrs. Elsie Moore, chorister; L. Baker, president of Epworth League; Sunday school 9:30 o'clock; morning worship 11, sermon by Rev. Kline, Epworth League 6:30 o'clock; evening service 7:30 o'clock, sermon by Rev. Kline.

Seventh-Day Adventist

Church at corner of Isabel street and California avenue; Elder R. W. Parmele, pastor; Sabbath school (Saturday) 9:30 o'clock; preaching service 10:45 o'clock; preaching Sunday night at 7:30 o'clock; district prayer meetings in fourteen districts of the city, in the church Wednesday night at 7:30 o'clock; Y. P. M. V. Friday night at 7:30 o'clock.

Holy Family Catholic

Church at corner of Elk and Louise streets. Rev. Michael Galvin, parish priest; Rev. Patrick Curran, assistant. Masses at 6:30, 8, 9:30 and 10:30 o'clock. Rosary service closing with benediction at 7:45 o'clock. For the convenience of the congregation, four masses will be held every Sunday.

SINCERITY

THE sincerity with which we enter into any transaction in our business is one of the distinguishing characteristics that has made for us scores of friends.

When we refer to friends we mean those persons with whom we have had business dealings and whose interest in us has waxed warmer because of the contact.

We firmly believe that sincere effort is the fundamental basis of success in this business or in any other business.

Sincerity may be applied equally as well to the materials and commodities we sell, for if their quality and prices are right, coupled with prompt and satisfactory service, those factors all become integral parts of what we term sincerity.

The same elements of quality are equally applicable to our mill work. Quotations are yours for the asking.

CITY SETS ANOTHER RECORD IN BUILDING

SHORTAGE OF HOUSES IS MENACE

U. S. Lacking About Million Homes, It Is Revealed By Association

PHILADELPHIA, Dec. 5.—A shortage of between 800,000 and 1,000,000 houses in the United States was revealed by officials of the National Housing association, who gathered here to attend the three-day session of the ninth national conference on housing in America.

Three vital factors in the blockade on housing were summed up as follows:

- First—High cost of money.
- Second—High cost of materials.
- Third—High cost of labor.

New York, Chicago, Philadelphia, Cleveland and Boston are now facing an acute housing shortage. In many other cities there are no houses available for the workingman, and few are under construction.

To relieve the housing shortage that is dangerous to the health and morals of young Americans, at least six remedies must be adopted, according to officials of the conference. They are:

- First—Banks must let up the embargo on building money. At present banks are unwilling to make loans over 50 per cent of the value of the building. This retards construction, and also allows profiteering on second mortgages.
- More Home Owners
- Third—The type of house for the workingman must be changed so as to get cheaper construction. "Gingerbread" designs that are unnecessary can be eliminated. This would open the home market to the salaried group of \$35 to \$50 a week, and 30 per cent more of the population would be home owners.
- Fourth—Cost of building materials must be lowered by increased production with wages of the makers of the materials the same as now received.
- Fifth—Cities must improve suburban properties, installing sewers, water mains and electricity so that the land will be available for building operations.
- Sixth—Building codes of "Tutankhamen" time must be changed to modern codes and standardized.

The circumvent form of expression, no matter how truthful, is lacking straightforwardness.

Ten Millions For Building In Year! Looms as Certainty

The record established in November for building permits is very likely to be surpassed this month if present indications hold good. With only one week of the month gone, the amount is well on toward the quarter million dollar mark, and this has been reached without the assistance of any large permits. The largest of the month was issued to P. J. and R. M. Dougherty for \$48,000 yesterday. Outside of this, the total represents in a large per cent small homes ranging in cost from \$2,000 to \$5,000, and, as a result, all the contractors in this city report a busy month.

One-half a million dollars is all that is needed to realize the ambition of Glendale boosters to have the building permits reach the ten million dollar mark this year, and it is assured that they will exceed that amount by a considerable margin.

Earliest Apartments in New Orleans, Said

New Orleans, in a letter to the National Association of Real Estate boards, protests a recent news dispatch crediting the first apartment house in America to New York, back in 1863.

The Baroness Pontalba, daughter of the Spanish governor of Louisiana, Almonaster, was the builder of the first apartment house in America, according to historical data vouchered for by the New Orleans Real Estate Agents' association. And it wasn't one sporadic apartment house the baroness built. It was sixteen.

The houses were erected in 1846, a row of them on either side of the city plaza, with wide galleries running the full length of the row, and with delicately wrought grille-work on iron balconies. The buildings were in three stories, with provision for a family on each floor, and with shops as well as living quarters on the ground floor.

The merchants along old Royal street as early as 1810 occupied apartments over their ground floor shops, the association's research has found. The most pretentious of these, the apartments for two or more families over the Louisiana bank, an "apartment house" of the days of 1816, is still standing. It is now the Patis Royal.

A child's temper grows through the laxity of his rearing.

INCOME TAX PAYMENT DUE 15TH

Final Installment Must Be Settled or Penalties Will Be Imposed

Forty thousand taxpayers in Southern California were notified yesterday by Collector Rex Goodcell that the fourth and final payment on their income tax will be due on December 15. Taxpayers who fail to meet this final installment will be classified as "delinquent" and the unpaid balance of the tax will be subject to immediate demand upon which penalties and interest will apply.

Income tax receipts for the Los Angeles district from January 1 to December 1 reached the staggering total of \$32,216,840, compared with \$27,289,564 for the same period of 1922.

Of 230,000 personal returns filed this year, approximately 40,000 elected to pay their taxes on the installment plan. It is this brigade of 40,000 that must make the fourth and final payment by December 15.

Doubtful Returns
Sweeping investigation of 15,000 so-called doubtful returns is now being made by the field force of Collector Goodcell's office, reinforced by special investigators sent here from Washington. This probe will extend into February and thousands of dollars will be collected from increased assessments. Every return showing an apparent discrepancy will be probed. Collector Goodcell declared that experience proved that the faulty returns filed were due in the majority of cases to the taxpayer's misconstruction of the law and that increased assessments were promptly paid when the taxpayers had been intelligently advised as to their legal tax liability.

The widespread drive of the field deputies will be devoted entirely to the verification of doubtful returns and to the checking of returns made by corporations and dividends paid to individuals, and of returns by corporations and partnerships showing salaries of \$1090 or more paid to individuals.

When those returns are checked the list of persons who filed income returns will be scrutinized to see if the dividends and salaries paid by corporations to individuals are being reported.

Number Plates On Autos Show Big Tourist Influx Here

Statements of motorists returning from trips outside of Los Angeles county all go to show that unprecedented numbers of tourists are pouring into this favored section of Southern California this fall.

The latest report is from W. E. Evans of 333 North Orange street, who states that on a recent trip to the Pomona valley he counted on a single day eighty-four cars, with licenses from other states, headed in this direction.

Anyone who wishes to see plenty of cars with foreign licenses, however, need not go farther than up and down Brand boulevard, according to Mr. Evans. "Any block will yield half a dozen newcomers," he says. "Just keep your eyes on the license plates, the next time you walk down the street, and see for yourself."

Mr. Evans predicts this winter season will break all records for the number of tourists coming here.

Movie Industry Pays Huge Government Tax

Motion picture theatres and other places of amusement in Southern California registered an attendance during October of 19,213,800, which is an increase of 5,764,700 over October of last year, according to a monthly admission and dues tax report sent to Washington yesterday by Collector of Internal Revenue Rex Goodcell.

For the first eleven months of 1923 the receipts from amusement taxes were \$3,940,822, as against \$2,451,072 for the corresponding period of 1922, a gain of \$1,489,750, or 23 per cent. Collector Goodcell estimated that the amusement tax collection for the full calendar year 1923 would be \$3,325,000, compared with \$2,673,113 for 1922, an increase of \$651,887, or 24 per cent. The tax paid represents a 1923 amusement attendance in Southern California of 226,100,000, against a 1922 attendance of 181,771,000, or an increase in 1923 of 44,329,000.

The tax paid means that \$39,900,000 was spent for amusements in 1923, which tops the 1922 mark by \$7,822,644. In commenting on the steady increase in theatre attendance, Collector Goodcell said:

"The policy of presenting world premieres at Grauman theatres, the Criterion, the California, the Mission and Tally's and the previews at the Roosevelt, in which many of the best of the Hollywood productions make their initial bows to the public, is making Southern California the greatest amusement spot in the world. The constantly increasing attendance is convincing proof of Southern California's vitality to its most colorful industry, the making of motion pictures."

California Concerns Show Business Growth

California corporations reported more gross income for the business year 1921 than the combined gross income returned by the corporations of sixteen by western states. More income tax was paid by California corporations than the combined tax paid by similar business concerns in sixteen western states, with Delaware, Iowa, Vermont, New Hampshire and Hawaii added. The two outstanding features of a survey of corporations for 1921, made available yesterday, by Collector of Internal Revenue Rex Goodcell were: that for one year California corporations reported gross income of \$3,544,932,721, which exceeded the combined total gross income, returned by Arizona, Alaska, Arkansas, Colorado, Idaho, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Utah, Washington and Wyoming; that California corporations paid income tax of \$32,527,204, which was greater than the combined total tax paid by the sixteen western states with Iowa, Delaware, Vermont, New Hampshire and Hawaii added. The total for these states was \$31,340,000.

The number of California corporations reporting net incomes was 7397 and 7784 filed returns showing no net income. Gross income of \$816,108,871 was reported by California corporations who returned no net income; deductions of \$2,534,639,568 were claimed by corporations reporting net incomes which left a total net income subject to taxation of \$194,184,282.

San Francisco has been accepted as the 1924 convention city of the American Association of Engineers, the date to be later than June 10.

GREAT YEAR AHEAD OF GLENDALE

Plenty of Evidence City Will Continue March With Prosperity

By GIL A. COWAN
 Of The Evening News Staff.
 With the close of 1923 fast approaching it is well for the prognosticators of prosperity to get their heads together and look to the stars, through a crystal ball, and see what 1924 has in store. There is no question but what 1923 has been a banner year for Glendale, as well as the entire southwest.

Now then for the "shooting stars." The constellation is quite bright and will continue so. The first of the year will see the greatest expansion ever known to metropolitan Los Angeles. That is safe to say, for the influx of population will continue unabated until every nook and cranny is filled.

As for Glendale, it will keep its stride in building until Mount Verdugo has been completely surrounded. Now you may ask what are the factors which will make this prediction come true, particularly respecting our home city. That is easy to answer.

First, Glendale is, as ever, logically located for the commuter and in the direct path of commercial progress along the San Fernando road. Second, the Pacific Electric (Continued on page 4)

Business Men of City Gain Praise Of Oklahoma Man

The citizens of Glendale are living in the present and future, instead of in the past, as is the case with some cities, according to Edison R. Waite, secretary of the Shawnee, Okla., board of trade.

Mr. Waite is looking over Glendale with a view to establishing here and has made a careful survey of conditions. "Some cities are awake, some dead and some asleep," says he. "And in the emphatically wide-awake class is Glendale. Your business men, I have found, have a broad vision of modern business, a vision that will lead the way to increased opportunities, increased payrolls and increased prosperity for all."

Mr. Waite is looking over Glendale with a view to establishing here and has made a careful survey of conditions. "Some cities are awake, some dead and some asleep," says he. "And in the emphatically wide-awake class is Glendale. Your business men, I have found, have a broad vision of modern business, a vision that will lead the way to increased opportunities, increased payrolls and increased prosperity for all."

Plan Consolidation Of Three State Boards

Proposal to consolidate the real estate boards of Colorado, New Mexico and Wyoming into one organization to be known as the Mountain States Association of Real Estate Boards is reported to the National Association of Real Estate Boards by the board of governors of the Colorado Board of Realtors. The consolidation plan will be voted on at the Colorado state convention to be held at Colorado Springs January 4 and 5.

CONSTRUCTION PER CAPITA EXCEEDS COMPETITORS BY BIG SUM, FIGURES SHOW

Marvelous Growth of Glendale Is Very Well Displayed By Glancing Over Records of Municipality Past Few Years

By AL DIX
 Of The Evening News Staff.
 The latest addition to Glendale's list of records in the building line was announced by Building Superintendent H. C. Vandewater today. The result of the compilation of figures on record in his office shows that the amount of building done per capita in Glendale so far this year is \$52.

This amount is so far in advance of that shown by the ten cities having the largest amount of permits for 1923 to date, that comparison is almost ridiculous.

The complete list is not available, but that portion made public shows that the amount ranges from as low as \$2 to the high spot established by "The Fastest Growing City in America."

Glendale exceeds its nearest competitor by over \$10. As December is expected to be another million dollar month, this amount may be raised by the end of the year, and will probably not be exceeded for many years to come by any city in America.

A glance at the records of Glendale, which date back to March 1, 1907, show the marvelous growth of this city with figures that are absolutely authentic. They are not padded in any way as the money has been produced for every one of the permits issued. It is a common practice for some cities to issue large permits for buildings of which there is no intention to erect, merely to swell the total for the month or the year, as the case may be. This practice has never been countenanced in this city.

The first month of which there is any record, March, 1907, shows that permits to the value of \$6,590 were issued. The total the first year was \$125,430. This amount steadily arose until 1912, when it reached \$669,556. In 1913 the amount started to recede, until it dropped to \$22,706 in 1915. For the next two years the amount increased slightly, standing at \$287,360.

In 1918 the full effect of the war was felt, and they dropped to the lowest figure on record. (Continued on page 2)

Absolutely FREE \$2000 Bungalow for Christmas
 On a Beautiful "Sans Souci" Homesite In La Crescenta

Lots 60x292 and 60x149; no fog; 1600 feet above sea level; commanding wonderful panoramic view of ocean and mountains.
 Only 2 blocks from car, school and stores, surrounded by good homes.
 Near intersection of 3 paved boulevards; only 40 minutes from Los Angeles.
 Water, gas, electricity and graded streets paid for. Reasonable restrictions.

This Is How We Do It
 There are only 19 homesites left. We want to sell them before 4 p. m. Sunday, Dec. 16th. To each purchaser of a lot we will give one opportunity out of only 28 in getting this modern Bungalow-garage absolutely free. It is complete in every detail. Come out and see the sample now being constructed.

Remember you have one chance out of only 38, and the Bungalow will be given away Sunday, December 16th, at 4:00 P. M., if all the lots are sold by that time. There will be no hold-backs.

AGENT ON TRACT EVERY AFTERNOON
 How to Get There—By auto, out Verdugo Road to Honolulu Ave., left to Los Angeles Ave., then right to Altura Ave. Or take Glendale-Montrose car to Los Angeles Ave., then walk north 2 blocks to Altura Ave.

Plans for Thirty New Homes Announced for Montecito Park Restricted Residential District

Lovely corner in the living room of a Montecito Park mansion, one of many rising on this high and favored knoll along Verdugo road, just five minutes north of Glendale and only twenty-five minutes from First street and Broadway, Los Angeles, yet set amid forests as primitive as the Redwoods and hills as yet untouched by the hand of man. From the windows of this charming room shown in the picture, the Oakmont Country Club can be seen nearing completion, while the verdure is growing fast on the greens of the unexcelled 18-hole golf course spread out in the foreground.

Plans for thirty new homes—ranging in price from \$7500 to \$60,000—have been announced for immediate building in the Montecito Park restricted residential district of Sparr Heights during the past week.

This means, with other contemplated Sparr Heights construction, a probably addition of about three-quarters to a million dollars to Glendale's building permits during the next six or seven months.

Within that time elaborate improvements of Montecito Park into one of the most beautiful hills residential districts in America will have been almost entirely completed, it was announced yesterday by Barnum-Walters Co., developers of Sparr Heights and Montecito Park.

under way already for months and already have reached the stage where the concrete streets are being laid rapidly. They will be rushed to completion as quickly as possible. Landscaping artists are now working on the final plans for refurbishing the natural beauty of the hills into elaborate parking which will make Montecito Park a showplace of Southern California.

Huge Total Sale

Nearly three million dollars worth of homesites have been sold in Montecito park and Sparr Heights (together with business lots in the zoned Sparr Heights district) since the development started, a little over twelve months ago.

"We are happily astonished over the speed with which real substantial people have grabbed

up the big homesites in this 1500-acre development as fast as the various units have been thrown on the market," M. Walters of the developing firm, said yesterday. "Naturally we expected a quick appreciation of this beautiful dream valley in the heart of the Verdugo hills, but we never in the world expected such an avalanche of buying as we have had this autumn. Our clerical force is working overtime getting out the various contracts and deeds involved."

Newcomers to Los Angeles, frantically seeking the rapidly disappearing vacant spaces in the 25-minute zone from the heart of Los Angeles for their permanent homesite here, sigh with relief when they drive five minutes north of Glendale, out the Verdugo road, and suddenly burst

from under the twined oaks into "dream valley," as the district has been aptly named.

The San Rafael, the Verdugos and the Sierra Madres circle in the far distances. And in the center, stretching from mountain top to mountain top is beautiful Sparr Heights and its restricted residential district, Montecito Park.

Community Building

Here, basking in the health-giving sunlight, are the homes of hundreds where but a short year ago there were nothing but brush and unimproved land.

A great proud community building, costing \$40,000 and the gift of Barnum-Walters company to the Sparr Heights people, is in the center of the valley. Its

City's Construction Exceeds Competitors

(Continued from page 1)
The depression was short lived, however, and in 1919 they climbed back to \$591,429, and reached the then amazing total of \$3,137,264 the following year. The next year, 1921, and 1922, saw further increases, and the high water mark will be reached in 1923, as the amount of over \$9,000,000 issued already exceeds that of any previous year, although there is still three weeks to go.

The month of November is a heavy month in the building line, yet its fluctuations are typical of the entire year. The following is a record of the permits issued during that month since the office of building superintendent was established in Glendale:

Year	Permits Issued
1907	6,590
1908	12,385
1909	20,622
1910	15,000
1911	79,315
1912	71,860
1913	50,360
1914	17,575
1915	13,355
1916	13,175
1917	6,885
1918	2,142
1919	20,154
1920	333,141
1921	460,961
1922	515,323
1923	1,132,562

A glance at this table will show that the most rapid growth of the city has been during the past four years. The monthly permits have exceeded the million dollar mark four times this year, and there is every prospect that December will make the fifth time that Glendale has been rated as a class A city.

creamy whiteness stands out in its beautiful architecture.

Then there has been reared almost to completion the vast plant of the Oakmont Country club, on 115 acres purchased from Barnum-Walters company. The club, which will open some time this month, has an eighteen-hole golf course, tennis courts, swimming pools and all the usual features of country club social life.

Dream Palaces

On the heights of Montecito Park are several "dream palaces," already erected and occupied. One of them, at least, cost \$75,000 to build and furnish. It is a beauty.

Less pretentious homes, half covered with roses and other exotic blooms, are in the level districts of Sparr Heights, basking in the sunlight.

"Naturally we are pleased with our work here," said H. E. Barnum yesterday, in reviewing the enormous project. "To visualize all this and carry it out from the blueprint to what you see now has been a tremendous task, but we are proud to say that the energy and resources which are making Los Angeles and Glendale, has accomplished this for Sparr Heights and has much greater development in store for the near future."

Great Opening Sale

of Burbank's Newest Sub-division

Magnolia Boulevard Manor

A wonderful opportunity to buy a real Home-site in a restricted sub-division that insures the seclusion and privacy most desired by real home-lovers.

Lots \$795 to \$995

Residence lots, 50x138, with all modern improvements, including water, gas, electricity, streets, curbs and sidewalks, to be installed within 60 days—and all paid for—

Business Lots—\$50.00 per front foot. Corners—\$60.00 per front foot.

Magnolia Boulevard Manor is right in the path of Burbank's most wonderful development, which is stretching far across the picturesque San Fernando Valley, joining hands with Lankershim—as Eagle Rock, Glendale and Burbank have done. In these cities the wise ones have made fortunes. Now's your chance. Never before in the history of Burbank has there been a sub-division opened to the public offering such wonderful opportunities to the home-seeker as well as the investor as does Magnolia Boulevard Manor; being on the main artery of traffic between Lankershim and Burbank, with subdivisions opening all around; homes spring up in every direction; dotting this picturesque and fertile valley with a wealth of beautiful homes. Burbank is destined to be a leading suburb of Los Angeles. While thousands are now overflowing from Hollywood through Universal City and Lankershim and crowding down upon Burbank, it does not require vision to see Burbank and Lankershim as one city.

Magnolia Boulevard Manor is less than 1 1/4 miles from the center of Burbank. You will find courteous salesmen ready to show you the property. Invest where your dollars will bring handsome returns.

TERMS—20% DOWN and 2% a month, including Interest. All monthly payments are made to the Trust Dept. of the California Bank, 629 South Spring St., Los Angeles.

PREMIER TRAINS TO LOS ANGELES

Union Pacific Launches New Limited On Run From Chicago to Coast

When the Los Angeles Limited, crack train of the Union Pacific, glided gracefully into the Los Angeles station Wednesday afternoon, completing its run from Chicago in sixty-eight and one-half hours, the monster Pacific type locomotive seemed to purr with pride and satisfaction, for it pulled a train of brand new, spick and span Pullman equipment, considered by railroad men to be one of the finest and most perfectly appointed trains in America.

With the departure of the Los Angeles Limited from Chicago Saturday, all Los Angeles Limited trains will carry entirely new equipment from pilot to tail light. The new equipment was built and designed especially for this famous train, and many innovations have been installed, making it the last word in travel luxury. Leaving Los Angeles December 6, the first of the newly-equipped trains began the run eastbound.

Boosts Southland
"This premier train was named after Los Angeles, the premier city of America," said T. C. Peck, general passenger agent of the Union Pacific. "In keeping with its namesake, this train will have the highest class appointments and service. Every time its name is mentioned in the east Los Angeles will secure publicity, and so will all of Southern California."

The new equipment for the Los Angeles Limited includes observation cars of Union Pacific design which embody every modern convenience, including library and buffet service, barber shop, bath and valet service, and commodious lounge-smoking room for men. The new dining cars, built at a cost of \$50,000 each, were designed by the experts of the company, who called in its most experienced chefs, stewards and waiters to incorporate their ideas into a model dining car. The new cars seat thirty-six people instead of thirty, as in the old style cars. A new system of ventilation eliminates any possible odors from the kitchen.

Special Pullmans
The new Pullman cars in the Los Angeles Limited are of the new "Honey Moon" type which have permanent headboards which give privacy to each section. Large dressing rooms for the women are one of the features, as are the sliding window ventilators and the web luggage shelves in the upper berths. A new solid compartment drawing room Pullman, to be operated daily between Los Angeles and Chicago, has also been added to the equipment of the Los Angeles Limited, and the entire

Realtors Urge Guests to Inspect Subdivision and Share In Giant Barbecue

The giant barbecue to be staged by Joe Romero at Burton Heights, Sunday, December 9, will be one of the biggest events in the history of La Crescenta, according to W. L. Twining, of Twining & Myers, 227-A South Brand boulevard, who, with Wilson & Burton of San Fernando road and South Central avenue, are owners and subdividers of the property.

"Last Sunday we had over 2000 at our opening barbecue and sold \$54,000 worth of these fine lots at Burton Heights," says Mr. Twining. "Tomorrow we are prepared to treat the whole of Glendale to one of Joe Romero's finest blow-outs, so come and bring your friends and enjoy a wonderful feed in the finest subdivision yet opened in La Crescenta, right on Pennsylvania avenue, just below Michigan boulevard and only two blocks from the La Crescenta school on Los Angeles street, close to the hills, close to Glendale and close to markets, country clubs, trolleys and every facility imaginable."

Trolley Service
"And while we are on that subject of trolleys, consider what it is going to mean to La Crescenta when the Glendale & Montrose electric line, already extended on the north to Pennsylvania avenue, is put through by January 1, 1924, straight down Glendale avenue to connect with the Los Angeles Railway company's yellow cars to Los Angeles."

"Every piece of property in the La Crescenta-La Canada-Montrose section will advance when that great event takes place. For years they have been dreaming of it. Now it is actually under way, a monumental improvement."

"Come out to Burton Heights Sunday with your friends and spend the day in the wonderful hills, with their altitude, with their view of the ocean, with their beauties on every hand. When the hunger hour strikes, Joe Romero will feed you royally. And if you want to take advantage of these twenty acres of ours along Pennsylvania avenue, go over the tract with one of our men."

"There are only 105 lots in the tract. They will go fast. Prob-

ably, if you do not buy Sunday, you will never have the opportunity again. Our prices are reasonable, our terms are easy and we give immediate title to the property, taking back mortgages and trust deeds. This is a decided advantage, as anyone at all familiar with such matters well knows."

Grape Vines on Lots
"In every way, we are giving big values at Burton Heights. The lots average 60 feet frontage and are full sized, covered with the finest fifteen year old Toschke table grapes, noted as among the finest grapes in Southern California. This property for many years belonged to Mr. Toschke and is widely known. He himself is retaining an estate here, so greatly is he attached to the property."

"Water and electricity are now in and gas is already within three blocks of the property. Everything is ready for immediate advances in prices, and large profits will be made here in the coming months. With Pennsylvania avenue a paved boulevard giving access via Honolulu avenue to the Tulunga country, without grade, and with Altura street running right through the tract, destined to be another main thoroughfare, already laid out 60 feet wide and deeded wherever tracts have been opened, the Burton Heights tract offers the home-seeker the very cream of desirable foothill property."

Denver Realty Board Broadcasts Program
"Home town" talks and home state talks have come into an audience as wide as the permeations of wireless. Realtor-radio fans—and the National Association of Real Estate Boards has them in some 495 American and Canadian cities—are invited to "tune in" for Denver at 8 o'clock, mountain time, on December 4, when the Denver Real Estate Exchange will have the "air," inaugurating a regular Tuesday night program for broadcasting facts in regard to Denver and Colorado. A 360-wave meter will be used.

L. F. Eppich, president of the National Association of Real Estate Boards, will deliver a ten-minute address. The Davenport, Iowa, Real Estate Board has already begun a radio service.

OVERCHARGE FOR BOND FEE, CLAIM

Commissioner Warns Brokers of High Costs Fixed By Insurance Cos.

Glendale real estate brokers will do well to arrange with local surety company representatives in arranging for their bonds to accompany applications for broker's licenses, it being revealed that certain Los Angeles insurance representatives are charging \$20 for a service which is worth \$10 when properly performed.

Big Hazard, Claim
"Word has come to me that the bonding companies in defense of the \$20 fee charged for a real estate broker's bond, state that it is because of the greater hazard in issuing a bond without requiring a financial statement from the applicant, and without making the customary investigation, and that a fee of \$10.00 would have been sufficient to had the proper investigation been made."

"It seems to me that had the companies followed the latter course, writing bonds only after making the customary investigation, and charged the \$10.00 fee instead of \$20.00, there would have been little criticism upon the part of the real estate brokers, and it would have added materially in carrying out the purposes of the act, and affording greater protection to the public."

Favor Plan to Probe Local Tax Problems

Plan of Senator Medill McCormick of Illinois to ask President Coolidge and the Congress of the United States to call a conference of budget-making officers of states and of cities to consider the increasing deluge of local taxation has just been approved by the executive committee of the National Association of Real Estate Boards at a conference at the association's headquarters, Chicago.

Reports now being gathered by the Bureau of the Census and already complete for three-fourths of the cities of the United States show an increase of local tax levies of from 110 per cent to 120 per cent in the last decade, Senator McCormick stated at the conference. Census returns not yet complete for the states, but already covering 30 per cent of them indicate that an increase of practically the same proportion has taken place in state tax impositions.

A howling beast gives warning of impending danger.

BIG DEMAND FOR LOTS IS REPORTED

La Canada Acres Lure to Homeseeker; Some Choice Property Remains

La Canada Acres is over two-thirds sold out, reports the Lehigh Investment corporation, 212½ West Broadway, general sales agents for this view property, located in the La Canada section. "At prices of \$750 to \$1500, on terms of 20 per cent down and 2 per cent per month, we believe we have lots that cannot be exceeded for value," says H. H. Garmong, located at the corner of Glendale avenue and East Colorado street, who is selling this property.

"We have several of the choice lots facing on the boulevard," he states. "And remember, these lots are located in close proximity to Flintridge, that most desirable location. Prices include gas, water, curbs and streets."

WOMEN ARCHITECTS

Few women have become architects because they are barred from most drafting offices, is the contention of Prof. W. C. Perry, the associate in architecture at the University of California.

Third Unit of Edgemont Park in Demand; Model Home Invites Inspection

With the third unit of Edgemont Park half sold and the first and second units sold out, Hamlin & Hepburn of 203 West Broadway report this fast-moving tract piling up new selling records every day.

"We are moving lots at Edgemont Park in unprecedented numbers because of the wonderful values offered," says E. D. Hamlin. "With fine lots, 45 x 135 feet and 50 x 150 feet, as low as \$975, with a few at \$550, on terms of \$75 down on the lot and \$50 down on the lumber, we are putting buyers in a position to have homes immediately for as low as \$125 down."

"Scores of homes are built, scores more are under way. Hundreds have been able through our offer to get out of the rent-paying class. This same opportunity will exist only as long as there are lots left at Edgemont Park, and they are going fast."

Build Model Home
"In order to show prospective buyers just what they can accomplish on a down payment of \$125, we have built on the tract a model home, which invites inspection. Our representatives are on the tract daily and Sundays, or if buyers will call at our Glendale office we will be glad to take them there."

"When you come to Edgemont

FINE SUBDIVISION AT LA CRESCENTA

Sans Souci Is Picturesque Spot and Lots Prove In Big Demand

Sans Souci, the picturesque La Crescenta subdivision offered by Robert A. Brackett, with J. M. Boland, 213 West Broadway, Glendale, and by Wilson & Burton, Honolulu and Los Angeles avenues, La Crescenta, is selling with even greater rapidity than its owners anticipated, is the latest report from the tract, which is reached by driving over Verdugo road to Honolulu avenue. "La Crescenta has long been famous for its beauty," says Mr. Brackett, "and anyone who is not familiar with the location should get in touch with us without delay or go out and see the property for themselves."

"Located at the intersection of three main boulevards, with Michigan avenue running nearby, Sans Souci, which, translated, means 'without a care,' is destined to become a community of ideal medium-priced homes."

"Offering large lots ranging from \$1,000 to \$1,600, with gas, water, electricity and graded streets, at sizes of from 60x149 to 60x292 feet, Sans Souci commands the attention of home-seekers."

HARBOR BONDS READY

Of the \$15,000,000 bond issue for improving the Los Angeles harbor, \$5,000,000 is now available.

Woodbury Heights

Joefel

Woodbury Heights is a carefully planned Residential Park for discriminating home-seekers in search of an ideal location and an atmosphere of exclusiveness guaranteed by the restrictions which insure the high order of homes to be built and of your neighbors.

Woodbury Heights was offered to the public but a few weeks ago—many of the lots have found ready purchasers; however, there are still a limited number of Choice Homesites procurable and ready for immediate building.

Woodbury Heights is well improved; the work of installing sidewalks, curbs, paved streets, ornamental lights, water, gas and electricity is being rapidly pushed to completion.

Woodbury Heights offers a wonderful opportunity to those seeking an investment, as the values are bound to increase due to its location in the pathway of Glendale's present and future development and growth.

Don't wait until it is too late.

COME TOMORROW!

PLANS TO BUILD HOUSE AT ONCE

J. J. Joseph to Erect Home on Property at Glendale Heights Extension

Among local contractors and realty men who have seized advantage of the exceptional opportunities offered at Glendale Heights Extension is J. J. Joseph, who is now having blue-prints prepared and will build there at once, reports Will P. Hope, of Hope, Hardin & Weldon, subdividers of this close-in, slightly tract whose office is at the corner of Palmer avenue and Adams street.

"Some of the lots here front directly on Adams street," says Mr. Hope. "Others climb up the gentle knoll and look off over York valley, that same wonderful view that made Glendale Heights, the adjoining wonder tract, so appealing that all who bought there doubled and trebled their investments when they cared to sell.

Want Quick Action
"We would like to close this tract out quick. It is small and there are only a few lots left. We invite visitors to come out Saturday afternoon or Sunday, when we will be glad to show them over the property. Seeing is believing here at Glendale Heights Extension. Shrewd investors are quietly buying, aware that property within a few blocks of Brand boulevard is going to be at an increasing premium, as Glendale grows."

Big Year Ahead of Glendale, Predicted

(Continued from page 1)
subway will bring this city closer to the heart of the metropolitan area of Los Angeles than any other exclusive residential area. Of course, that means many apartment houses, several hotels, and greater business life.

Third, Glendale is the gateway to the rapidly developing San Fernando valley and it has reached city-size which commands attention. Evidence of this is seen in the new Southern Pacific station which will route hundreds of travelers through here enroute to Pasadena, Hollywood and other points.

Natural Demand
Fourth and last, the acquisition of industries in Southern California will create a natural demand for more homes and in these homes will be families who have retired relatives in the east who would rather live here than elsewhere.

It is easy to see that Glendale is going to find its prosperity unabated not only next year, but in years to come.
But it will need definite planning on the part of our city builders to keep the tempo in building. It also will require this city's co-operation in the building

Landon Heights Offers Big Inducement to Homeseeker; Location Is Most Healthful

Landon Heights, as Units 2 and 3 of Grande Vista have been renamed, offers the home-seeker fine full-sized lots of 60 feet frontage right on Ramsdell avenue, La Crescenta, between Honolulu and Michigan avenues, on terms of \$50 and \$100 down, which is moving them almost overnight, reports H. N. Landon, owner and subdivider.

"Each of these units contains just fifty lots," states Mr. Landon. At our prices of \$100 up and terms of \$15 a month, it can be readily seen that it will be a story of "the early bird" all over again, as in my original Grande Vista tract on Mountain street, Glendale.

"All titles at Landon Heights are to be held by the Title Guarantee & Trust company, Los Angeles, thus ensuring purchasers unquestioned safety. Our terms include reasonable restrictions and improvements. The lots are all level and offer a panoramic view of the La Crescenta and La Canada valleys that is unexcelled, while many of the lots overlook Los Angeles and offer a view of the ocean.

Healthful Locality
"Here in these high, healthful hills a community of average homes will be built. Located as we are, close to street cars, schools

Packard Automobile Will Be Given Away to Owner of Crestview Manor Lot

With only twenty-five lots left, and every lot carrying a chance on the new 1923 Packard automobile, the opportunities at Crestview Manor are fast going, as the lots melt away, reports Frederick C. Wolter of the Wolter Realty company, 203 North Brand boulevard, who, with Arthur Campbell, 110-A East Broadway, are offering the tract.

"A number of buyers here have purchased their sites because of the health-giving qualities afforded by the altitude, more than one picking the location because of its relief offered to asthma sufferers," says Mr. Wolter. "And while it must not be overlooked that every buyer stands an equal opportunity to secure the handsome Packard car, the intrinsic value of the sites themselves should be carefully considered.

Good Frontage
"At prices from \$2900 up, with generous frontages of from 60 to 200 feet, the property is a bargain and is sure to afford handsome profits in the months immediately ahead, when improvements are completed and fine homes begin to go up. One purchaser has already re-sold a lot here for a \$750 profit and other re-sales will soon be announced."

For Preparedness
In other words we must be prepared to make our investments in California, for California. Begin by buying in Glendale, real estate as well as necessities of life, then buy in Southern California, and then buy in California all the commodities you can. And if California cannot supply what you want, keep the trade on the Pacific coast, or the west, for it is the only way in which to make the empire of the setting sun command the respect of the United States of America and the world at large.

and the business center, we are yet serenely remote from the city's noises and congestion. No fogs, moreover, reach Landon Heights, which makes the property particularly desirable.
"Trails lead almost from the very doors off up into the beautiful hills, while the Oakmont and Flintridge and Sunset Canyon country clubs offer a variety of congenial social atmosphere just a mile or two away over smooth boulevards. And Los Angeles St., the new highway, goes within a few feet of the tract, while Michigan avenue, that great state highway connecting Pasadena with San Fernando over one of America's most picturesque drives, is right at hand."
Landon Heights is reached by driving up Verdugo road to Honolulu avenue, and then to Ramsdell avenue.

ANOTHER FREE BARBECUE

Sunday, December 9th

BURTON HEIGHTS

Burton Heights is located in the heart of the La Crescenta Valley—the Section that is "going." So appealing are the homesites in this tract that it was almost half sold out in a single day, establishing a sales record for Southern California.

It is a part of the famous Tschke vineyard, on Pennsylvania avenue, near Michigan boulevard, on the top of a mammoth knoll from which a wonderful view in all directions is secured. Each lot is covered with an excellent quality of grapes—the kind that this ranch has long been noted for.

Government statistics show La Crescenta valley the most healthful spot in the world—get that—IN THE WHOLE WORLD. And—get this, too—Burton Heights is right in the heart of this valley. Could more be desired?

If you love the mountains, this tract will appeal to you. If you delight in valley scenes, you will go wild over Burton Heights. If your heart yearns for the open spaces—to get away from artificial things—to experience the freedom that only the mountains and the valleys can give—to have a little cozy home of your own out where things are real—this wonder tract will grip your very soul.

The La Crescenta Valley is the section that John S. McGroarty selected for a home. All over Southern California this famous poet and writer rambled until he came to this valley—and there he settled down—the end of the rainbow had been found. "It's the garden spot of the world," says Mr. McGroarty. "God kissed this wonderfully favored section. He caressed it with His unspeakable love. His smile bestowed upon it health-giving qualities, a peace that has come to abide, a quiet restfulness that cannot be surpassed."

SOME ACTION

Over \$54,000 worth of property was sold in Burton Heights last Sunday.

Some record for a single day.
Stop a moment and ask yourself "WHY." There must be a reason.

Run out to the tract. Stand on one of those grapevine-covered lots and look about you. To the north are the wonderful Sierra Madre mountains—to the south the evergreen Verdugos—to the east the Montrose and La Canada country—to the west Sunland and Tujunga.

Take in this wonderful all-direction view and you will not have to ask the question, "Why."

The continuous panorama will captivate you—the nearness to nature will grip you—the wonderful health giving climate will enthrill you.

You will then see why dozens of homelovers selected Burton Heights as a location for their future abode. You will know why they consider this the "cream" of Southern California.

OWNERS AND SUBDIVIDERS

THAT BARBECUE

Last Sunday's barbecue was a "Whale" of a success. Seven hundred folks from Glendale and surrounding country were fed, and every one went away singing the praises of Joe Romero.

Joe was on hand "with the bells." He knows exactly how to barbecue meat and to serve it with delicious salad, coffee, and everything else to go with it.

"Next Sunday's barbecue will be the best I have ever served," said Joe this morning, and Joe meant what he said. This means that if you miss next Sunday's "feed" you'll have just reason to be sorry. These Spanish viands blend wonderfully with the beauties of the charming La Crescenta Valley.

Come out and experience a touch of nature—get close to the hills, and the trees and the growing things. Everything will be free.

Directions

From Glendale drive out Verdugo Road to Honolulu Avenue in Montrose and continue on Honolulu to our Tract Office on Pennsylvania Avenue, just south of Michigan Boulevard, or take Glendale and Montrose car at Maryland and Broadway, get off at Pennsylvania. One block north.

RATES ON WATER ARE REASONABLE

State Commission Reports for Year; No Decrease in Charges Due

There are more than 550 public utility water systems in the state of California under the jurisdiction of the State Railroad Commission, which have filed rates, rules and regulations with the commission, according to the annual report of the hydraulic division, for the fiscal year 1922-23.

These water utilities range in size from those supplying a few persons to systems serving upwards of 99,000 consumers, and the investment in these utilities varies from a few thousand dollars to in excess of \$10,000,000 for a single system. The operating revenues of these water utilities for the calendar year of 1922 was \$14,867,147.17, as compared with \$13,310,699.10 in 1921. Their net operating revenues were \$5,662,781.14 as compared with \$4,360,665.47 for 1921. There was a total of \$34,034,739.33 fixed capital represented in these water systems.

Make Decisions
During the fiscal year ending June 30, 1923, the Railroad Commission rendered decisions in 205 formal proceedings, and 479 informal complaints, involving water utilities were investigated, and adjusted.

During the last few years many of the utilities have come to the commission with applications for increased rates, alleging that their revenues had not increased in proportion to the great increase which had occurred in operating cost due to high prices of labor and material prevailing throughout the country. A year or more ago the cost of both labor and material was declining to such an extent that it was believed that within a short time many rate schedules could be reduced without endangering the financial condition of the utilities.

Experience has, however, shown that the decline in prices was only temporary, and that the cost of operation and construction of water systems is now fully 75 per cent higher than the corresponding cost in 1914 and 1915.

No Big Reductions
From present indications it is improbable that any material decreases in the water rates of public utilities can be expected for several years to come. Attention is called, however, to an investigation which was conducted on the commission's own motion into the reasonableness of the rates of one of the large water companies which resulted

in a decrease of the former rates of approximately 10 per cent.

In the course of the hydraulic division's investigation of public utility affairs during the last fiscal year, thirty-seven appraisals of property were made, ranging from \$23 to \$1,401,250, with a grand total of \$6,091,611.

During the fiscal year the hydraulic division was called upon to make investigations, inventories, appraisals and reports upon two public utility water systems which municipalities had desired to acquire under eminent domain proceedings or otherwise. These investigations required exceptional accuracy and care in order to avoid a reversal of the commission's findings of compensation in the Supreme Court.

Need Improvements
The rapid growth of the state and the difficulty in securing material have made it extremely difficult for the utilities to provide adequate facilities for supplying consumers. While these conditions will without doubt be remedied to a very large extent within another year, the result has been that the hydraulic division was called upon during the last

Citrus Products Set New Record for Year

LOS ANGELES, Nov. 24.—Approximately 100,000 carloads of oranges and grapefruit and 13,000 carloads of lemons, or the largest total supply of citrus fruits ever marketed in the United States and Canada, were consumed during the 1922-23 season in these two countries, according to the annual report of E. G. Dezell, General Manager of the California Fruit Growers Exchange, Los Angeles, which was issued today.

Of this quantity, California shipped 50,966 carloads of oranges and grapefruit and 8,741 cars of lemons, figured on a basis of 400 boxes to the car, it is reported. Shipments through the California Fruit Growers Exchange during the year ending October 31, 1923, were 36,999 cars of oranges and grapefruit, and 8,259 cars of lemons, making a total of 45,258 cars, or 75.8 per cent of the entire citrus fruit shipments from the state, as compared with 63.7 per cent for the previous season.

Valued at \$81,258,169
Expressed in terms of boxes, exchange shipments for this season totaled 14,645,070 boxes of oranges and grapefruit, and 3,212,347 boxes of lemons; and brought an estimated value of \$55,233,450 f. o. b. cars California, with a delivered value to the wholesale trade of \$81,258,169, it is announced.
California's total returns for her citrus crops this season, based on exchange figures, would be \$71-

007,705, with a delivered value of \$105,486,506, including \$34,478,800 for freight and refrigeration charges.

The effects of the January, 1922 cold spell made California shipments for the past season somewhat less than the bumper crop year of 1920-21, and particularly lessened lemon shipments, according to Mr. Dezell, but Florida shipments were much larger than in any previous year with imports of oranges and grapefruit from Porto Rico and Cuba, Salsumas from Japan, lemons from Italy, and the citrus production in Arizona, Texas, Louisiana and Alabama, gave a total that is larger than any previous citrus crop marketed in this country. In addition to competition from other citrus crops, the California crop was marketed in the face of a heavy deciduous crop.

"The successful marketing of this great volume, proves the extent to which the public's desire has been developed for these delicious and healthful fruits," stated Mr. Dezell.
"The supplies of oranges and grapefruit have tripled in the last twenty years, while the population

of the United States and Canada has increased only about one-third. Through improved handling methods, broader distribution and intensive educational work with the consumers, the demand for citrus fruits has kept pace with the increased supplies; they are available every day in the year and have become a staple with the trade and a part of the daily diet of the public."

A recent cut in freight rates, granted by the Western and Southern carriers, will reduce the freight bill on the total California orange crop over \$3,000,000 annually. The reduced rate, which amounts to about 14 cents a box, except on New York shipments, was made effective December 2, 1923, in time to apply to practically all of the coming season's crop. Additional refrigerator equipment furnished this state during the past season resulted in the movement of this heavy crop with less difficulties than in most previous years, it is reported.
Illusions seldom turn into convertible assets, but will void existing assets.

BIG OPENING SALE NOW ANNOUNCED

Magnolia Boulevard Manor, Burbank, Offers Land at Low Prices

The opening great sale of lots at Magnolia Boulevard Manor, Burbank, is announced by F. D. Liverdale, with offices on the tract, at the corner of Magnolia boulevard and Buena Vista avenue.

Lots here, it is stated, run from \$75 to \$995, on terms of 20 per cent down and 2 per cent per month, including interest, payable through the trust department of the California bank, 629 South Spring street, Los Angeles. Improvements include gas, water, electricity, streets, curbs and sidewalks, to be installed within 60 days, according to Mr. Liverdale, and paid for by the subdivider. The lots are 50x138 feet.

Good Investment
"Right in the path of Burbank's greatest development," says Mr. Liverdale, "stretching far across the picturesque valley and joining hands with Lanarkshim, just as Eagle Rock, Glendale and Burbank have done, Magnolia Boulevard Manor is destined to make fortunes for shrewd buyers."

"We also have here a limited number of business lots at \$50 per front foot, with corners at \$60 per front foot. In a few years you can add a cipher to the right-hand side of these figures and retire for life, if you act to acquire some footage here now."

"Magnolia Boulevard Manor is less than one and a half miles from the business heart of Burbank. Think of that—then drive out today or tomorrow and let one of our salesmen show you the tract."

Bathroom Verdict Supports Restriction

A bathroom is not a room. Not in Ohio. So a Youngstown judge has recently ruled. The decision will be of more than lexicographical interest to members of the National Association of Real Estate Boards who are concerned with building restrictions.

A permanent injunction based on the ruling was granted to restrain a lot owner from erecting a five-room-and-bath house on a lot restricted to a six-room house.

GREAT BUILDING ERA
Los Angeles building permits for 1923 have averaged \$16,580,000 per month, which will give a total for the year of \$200,000,000.

Woodbury Heights Proves Unique Subdivision; Many and Varied Improvements

Sales at Woodbury Heights, the high-class residential development located on Verdugo road between Lexington drive and Monterey road, are continuing to mount, reports T. W. Watson, sales agent, of 708 East Broadway.

"Those who buy here to build, can choose no more desirable location in Glendale," says Mr. Watson. "Close to the heart of the city, very near electric lines and busses, yet remote and exclusive in atmosphere, and highly restricted to ensure the proper type of construction, the tract offers everything that could be expected of the finest property anywhere and meets with flying colors the most rigid examination."

"From the viewpoint of investment, Woodbury Heights is likewise an exceedingly desirable location, situated as it is right in the pathway of Glendale's fastest development. It is fortunate indeed that this tract was held intact by the George Woodbury family until the present time, when the city is in real need of such residential property."

Fine Improvements
"Everything possible in the way of improvements is being put in

here, including gas, water, electricity, paved streets, sidewalks, ornamental lights and various beautification projects. Homes of refinement are warranted at Woodbury Heights and the class of buyers is very high.

"Our office is always ready to take prospective buyers to the tract and show them these many advantages. A trip there and a survey of the variety of lots available, with the beauty and variety of view offered, will be a revelation. Picture a gentle knoll rising right in the heart of east Glendale, near the new high school and just two blocks from the Glendale & Montrose electric line.

"In a short time all the sites will be gone. In a year Woodbury Heights will have been transformed into one of the most beautiful, most complete and most desirable residence sections of Southern California."

Tax Ruling Affects Payments on Realty

Sales of real estate involving deferred payments are affected by an income tax ruling under the 1918 and 1921 revenue acts received from Washington yesterday by Collector Rex Goodcell. The decision is based on a case which the collector submitted to Commissioner Blair. The ruling of the bureau which is an important one, is as follows:

"The agreement submitted is entirely in the form of a lease for ninety-nine years, with an option to purchase at the end of fifty years. It is by no means certain that this option will ever be exercised, since it is entirely optional with the lessee and since the lease contains various provisions for its termination by the lessor in the event that the lessee fails to comply with certain specified conditions. Further, the lease provides for a term extending forty-nine years beyond the time set for exercising the option, with elaborate provisions for an accounting at its termination. For these reasons, this office holds that the annual payments received under the terms of the lease should be considered as rent, and not as installments on the purchase price of the property."

To fathom your possibilities, compare notes with your fallacies.

Realtors' Ethical Standards Lauded

One of the strictest codes of ethics of any business organization in the country has been laid down by the National Association of Real Estate boards for the direction of realtors, according to G. W. Dowrie, dean of the School of Business, University of Minnesota.

The development of business ethics is one of the hopeful indications of a progressive civilization, Dean Dowrie pointed out in a recent address before the Minneapolis Real Estate board. "The code of ethics for the direction of the realtor in his relation to his competitor, to those with whom he does business, and to the community represents a strict application of the Golden Rule," the dean pointed out.

Long Beach Favors 50 Year Bond Budget

A half-century budget for city bond issues is an idea advocated by the Long Beach Realty Board, which members of the National Association of Real Estate Boards in other cities will find suggestive. Such a budget, it is pointed out, would serve as a framework about

Fourth Installment of Income Tax Due 15th

(Continued from page 1)
dividuals have been listed by the latter for taxation.

To Make Transcripts
Transcripts will be made of all real estate transfers and checks made to verify returns filed as to profit or loss on such transactions.

"While Collector Goodcell is acting under direct instructions from Washington, which govern the drive now on, he has directed field deputies to make their investigations with a minimum of annoyance to the taxpayer."

"Where income tax remittances are made by mail, it is advisable to purchase a money order or draw a check payable to Collector of Internal Revenue," said Collector Goodcell.

"Cash sent in is always at the owner's risk," he continued, "and if stolen, the taxpayer may find himself facing penalty for failure to pay his tax on time."

"Owing to the fact that there are hundreds of persons in this district with the same name and initials, it will greatly expedite the work of this office if taxpayers will write their first names in full, and set down their addresses plainly."

\$500,000 Unidentified
"Up to July 1st of this year, \$500,000 in unidentified collections was carried on our books. These funds for the most part were in the shape of checks, the signatures of which were illegible. It required a force of special federal auditors to run down and properly credit this immense sum. Taxpayers are urged to write their names plainly and to specify the tax they are paying."

Collector Goodcell calls attention to the fact that the mailing of a bill to a taxpayer at his last given address constitutes legal notice and not the delivery of the letter. He urges taxpayers to notify the Internal Revenue office of changes in address as they are still liable to taxes and penalties even though they do not receive notice of their indebtedness.

Tourists who are visiting in Southern California should send remittances on their income tax to the office at which they filed their original returns.

Collector Goodcell pointed out that, although Washington assesses the tax, the payment of it must be made to the Collector of Internal Revenue in whose district the taxpayer resides. Payments should never be sent to Washington.

"Prompt payment of the final income tax installment will enable Los Angeles to maintain its standing as the champion collection district in the United States," said Collector Goodcell.

which related systems of public improvements could be planned and built.

Announcing Landon Heights

Units No. 1 and No. 2

Formerly Advertised As Grande Vista Units No. 2 and No. 3

If you love the charm and restfulness of the hills and the higher altitudes, come to LANDON HEIGHTS, UNITS 1 and 2, fronting on Ramsdell Avenue in

Beautiful La Crescenta

where development is rapidly taking place and property values are on the increase.

100 LOTS

Now Offered for Reservation

Joseph Fortunato, Prop.

Do you own your home? There is every reason why you should. There is no argument against it. From the financial or practical standpoint or from the sentimental, the outlook is the same. Every man and woman has a right to the independence of home-ownership. Every family should have an anchorage.

The foundation of civilization is the permanency of the home life and the constant migration of the average renter is not conducive to the highest good of the family or the community.

The working man who pays rent is a slave and no one realizes it more than he. He toils for some one else. He pays his money and gets nothing in return. He has a roof over his head, but it is temporary, contingent on the tribute that he pays.

The renter's family has no background. They are here today; somewhere else tomorrow. The real home atmosphere does not surround the rented house.

And the wonder is that in these days of high rents there are still many who do not own their homes, for home ownership is possible to practically all. Owning a home in Glendale not only makes for the highest good of the family but it means financial security for the provider. A home in Glendale is not only a home but a valuable piece of real estate growing in value every day.

It has been demonstrated again and again that the man who can pay rent can pay for a home. It is only necessary to take the first step.

Mr. Renter, you can buy or build in Glendale with the money you are now paying for rent. Consider your duty to your family and consult the advertisers on this page.

WATCH BUSINESS ADVANCE IN L. A.

Country's 'White Spot'
Draws Financial Attraction
Of Investors

By WILLIAM G. CAYCE
For International News Service
LOS ANGELES, Dec. 8.—Financial and business men of Southern California, and Los Angeles in particular, are not content to rest with the remarkable record built up in the last few months establishing Los Angeles as the "white spot" of financial conditions of the country.

More so now than ever before the eyes of the financial world are turned upon Los Angeles and what it has attained industrially and especially in its harbor development.

4,560 Factories Now
According to G. A. Arnoll, industrial manager of the Los Angeles Chamber of Commerce, there are now 4,560 manufacturing plants in this city and their total annual products should be \$1,250,000,000.

"Imagine what the effect would be if we had three times this num-

ber of factories," declared Arnoll. "Imagine also if Los Angeles did not get any more factories, but its population increased 400,000."

A great deal of dissatisfaction was afforded those interested in the growth and development of Los Angeles harbor in the report of the United States Shipping Board on the traffic for the first six months of 1923, recently made public.

Clarence H. Matson, manager of the trade extension department of the Chamber of Commerce, recently issued an analysis of this report. Matson's figures, taken from the complete report and summarized, reveal some surprising statistics, as follows:

Intercoastal Trade
"There passed through the Panama canal during the first six months of 1923 a total of 5,664,480 tons of intercoastal commerce, of which Los Angeles harbor alone originated or received 3,727,340 tons, or more than 66 per cent of the grand total.

"An astonishing fact is that San Francisco's total intercoastal tonnage for the same period was only 815,987 tons. The figures of Los Angeles harbor show an amount almost as much as the combined intercoastal commerce of New York, San Francisco and Seattle.

Looking towards victory is the best part of the battle.

SUGGESTIONS BY STATE OFFICIAL

Real Estate Commissioner in
Address Gives Hints to
California Agents

Following are extracts from the address delivered by State Real Estate Commissioner Edwin T. Keiser before the annual convention of the California Real Estate Association in Sacramento:

"In the administration of the law we have always tried to keep in mind the purpose of the act. This has always been and will continue to be the controlling influence. The real estate commissioner and his deputies must keep this purpose in mind and not permit themselves to be diverted from it. It was never intended to exclude from the business anyone who is honest and capable of rendering a service to his principal in a real estate transaction.

"The license law was not enacted for the purpose of being of direct financial benefit to real estate brokers. They, however, are indirectly compensated because of the greater respect and regard in which they are held by the public. Because of your combined efforts to elevate the standards of your business, the time has come when the public is looking for the real estate man, rather than looking out for him.

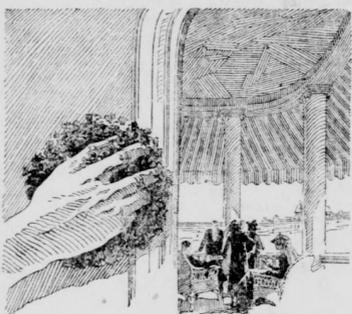

Cannot Enforce Contracts
The real estate commissioner had no authority to enforce any contracts you may have with your client or with each other, nor has he authority to say what compensation you may charge for your services, be it little or much. This is purely a matter of contract between you and your client. If you are a member of a real estate board, your charges should be consistent with the rules of such board. I do not like to repeat what I have already said, but to make doubly sure of being understood, will say that the state real estate commissioner has no authority to determine the amount a broker may charge for his services.

"In the matter of colonization and rural sub-divisions, the commissioner might have authority to fix the limit to be charged for selling. From past experiences I have found as a rule the higher the selling charges, the less the merit of the project offered for sale. A project of this character is not able to bear this extra cost. I have about reached the conclusion that when it becomes necessary to force sales by paying unreasonable commissions, it is time to stop. In some cases the commission paid is more than the land is worth, so whenever you are offered an unusually high rate of commission to sell a real estate project, it should be sufficient notice to warrant investigation of its merits. I surely question the sincerity of any broker taking a commission of 35 to 50 per cent for selling certain farm projects I know of. Hence, there may arise problems of this character where it will become my duty to throw the whole influence and power of the Real Estate Department against them.

Great Many Cases
"A great many compliments come to the department, caused by brokers wrongfully retaining a deposit placed with them on a real estate transaction, when such transaction is not consummated. Some brokers take a deposit on an offer from a prospective purchaser and then attempt to retain this deposit even though the offer is rejected. Under no circumstances does a broker have a right to hold a deposit and retain it as compensation for his services unless there is a definite agreement upon the part of the owner and buyer to that effect.

"If you represent the seller, you must look to him for your compensation. You are only the trustee of the one making the offer, and have no authority to hold his money or use it except with his permission and under his instructions. Unless there is a time limit agreed upon, the prospective purchaser may cancel his offer and your instructions at his will, prior to a written acceptance upon the part of the seller.

PAINT

Washable Walls!

THINK what that means — not only in hotels, offices, and all kinds of public buildings, but in every room of your house.

Patton's Velumina, the oil flat wall paint, gives walls that glossless, velvety finish so much in demand today. And yet, blemishes of all kinds are quickly and easily removed with soap and water. Dirt and grime cannot penetrate this pore-proof paint film.

We have Velumina in white and sixteen soft, beautiful colors. Also paints, varnishes and enamels for every purpose. We will gladly advise with you as to your needs.

Just think, large lots with full-bearing orange, lemon and fruit trees, including first-class and elaborate street and other improvements for a few hundred dollars.

We here predict, without qualifications, that La Crescenta is destined to become the most valuable residential property in all of Southern California, not even excepting Hollywood, Oak Knoll or any other established district. Within the past sixty days values in some instances, have advanced from fifty to 100 per cent. Real Estate Operators by the score are taking options, buying and otherwise acquiring all desirable properties. No better indication of tremendous profit possibilities. JUST MAKE A NOTE OF THIS STATEMENT.

THINK OF SUCH LOTS for \$1600 and ACT!

SALISBURY MANOR, THE HEART OF LA CANADA, stands forth the very center of the most entrancingly beautiful and magnificent natural scenic panorama in California and yet but thirty minutes from Los Angeles business.

Every lover of Nature, every admirer of the picturesque, every person that is seeking a home, a real California home with real California atmosphere and environment should visit Salisbury Manor. There is nothing to compare with it. There never can be.

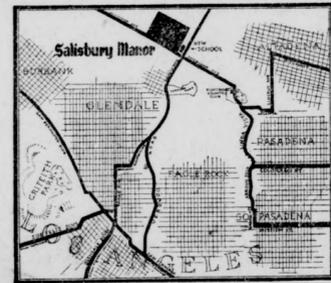

The improvements comprise the widening of Michigan avenue, the entire length of the business section with sidewalks, curbs, gutters and an elaborate ornamental lighting system, the laying of gas and water mains and underground electric conduit system.

The residential district will have magnificent broad avenues, picturesque drives and parkways, with flowers and ornamental trees all surrounding a beautiful park with lawns, trees, flowers and fountain.

To those who know La Canada and its wondrous picturesque beauty and unrivaled scenic charm, a description is unnecessary.

CITY PRINTING VENDOR'S NOTICE OF SALE OF STOCK IN BULK

Escrow No. 121. TO WHOM IT MAY CONCERN: Notice is hereby given that the undersigned, Thomas Pratt, intends to sell to Robert A. Gilbert, an undivided one-half interest in all that certain stock in trade, fixtures, equipment and good will of a certain business known as "Keystone Shade and Linoleum Company" and located at No. 212 South Central Avenue, Glendale, California, belonging to said Thomas Pratt, and that a transfer and assignment of the same will be made, and the purchase price thereof will be paid, on the 14th day of December, 1923, at 10 o'clock A. M., at the Escrow Department of the Federal Commercial and Savings Bank of Glendale, California, under their Escrow Number 121.

That the address of said vendor is 324 Porter Street, Glendale, and the address of said vendee is No. 212 South Central Avenue, Glendale, California. Signed: THOMAS PRATT, Vendor. Dated December 3, 1923. Dec. 5-7-1X

NOTICE OF PUBLIC WORKS

Public notice is hereby given that the Council of the City of Glendale, on the 6th day of December, 1923, did, at its meeting on said day, adopt Resolution No. 2202 to order the following improvement to be made on a certain alley lying southerly and contiguous to the southerly line of Lot 16, Tract No. 250, as per map recorded in Book 15, pages 130 and 131 of Maps, Records of Los Angeles County, California, within the City of Glendale. That the public interest and convenience require and it is the intention of the Council of the City of Glendale, to close up, vacate and abandon for alley purposes that certain alley lying southerly and contiguous to the southerly line of Lot 16, Tract No. 250, as per map recorded in Book 15, pages 130 and 131 of Maps, Records of Los Angeles County, California, from the easterly line of Colina Drive, vacated by the Board of Supervisors of the County of Los Angeles, California, to the westerly line of Lot 14 said Tract No. 250.

The district to be assessed to pay the damages, costs and expenses of said improvement is described in and reference is hereby made to Resolution of Intention No. 2202 for further particulars of said improvement. BEN F. DUPUY, Street Superintendent of the City of Glendale. Dec. 5-6-7-8-10-11-12-13-14-15, 1923

NOTICE INVITING SEALED PROPOSALS

Pursuant to statute and to Resolution adopted on the 6th day of December, 1923, by the Council of the City of Glendale and on file in the office of the City Clerk of said City, ordering the work described in said Resolution, to-wit: The grading, paving with macadam pavement, the construction of cement curbs and otherwise improving portions of Hill Drive and Sycamore Canon Road in said city, and as more particularly described in Resolution of Intention No. 2179, passed and adopted by the Council of said City on the 8th day of November, 1923, and on file in the office of the City Clerk of said City, reference is hereby made to said Resolution of Intention No. 2179, drawings, cross-sections and specifications heretofore approved by the said Council are incorporated herein and made a part hereof, and reference is made thereto for a particular description of said work. The Council of the City of Glendale determined and declared that serial bonds to represent unpaid assessments, and to bear interest at the rate of seven per cent (7%) per annum shall be issued hereunder in the manner provided by the Improvement Bond Act, and the last installment of said bonds shall mature nine (9) years from the second day of July next succeeding ten (10) months from their date. The said Council also determined and declared that the contemplated work or improvement was, in the opinion of said Council, of more than local or ordinary public benefit and said Council has made the costs and expenses of said improvement chargeable upon a district. For a particular description of said district reference is hereby made to said Resolution of Intention No. 2179.

NOTICE IS HEREBY GIVEN inviting sealed proposals or bids for doing all the work hereinbefore described and ordered in said Resolution ordering the work, to be presented to the City Clerk at his office in the City Hall up to 10 o'clock A. M., the 26th day of December, 1923. The proposals or bids offered shall be accompanied by a check payable to the order of said City, certified by a responsible bank or a bond as required by law, for an amount not less than ten per cent (10%) of the aggregate of the work to be done, which shall be furnished by the City Clerk upon application. Dated this 8th day of December, 1923. A. J. VAN WIE, City Clerk of the City of Glendale. Dec. 8-10, 1923

NOTICE INVITING SEALED PROPOSALS

Pursuant to statute and to Resolution No. 2206, adopted on the 6th day of December, 1923, by the Council of the City of Glendale, California, and on file in the office of the City Clerk of said City and of the Council, thereof, ordering the work described in said Resolution, to-wit: The grading and paving, and the construction of cement concrete curb, cement concrete gutter, iron manhole covers and appurtenances, the laying of water pipes, connections, valves, fire hydrants and appurtenances and also galvanizing and spraying pipes and appurtenances and otherwise improving portions of otherwise improved, Lexington Drive, Verdugo Road, California Avenue, Broadway Avenue, Wilson Street, Orange Grove Avenue, Elk Avenue, eighth Street, Windsor Street, Raleigh Avenue and Acacia Avenue in said City, all as more particularly described in Resolution of Intention No. 2166, passed and adopted by the Council of the City of Glendale, on November 8th, 1923, and on file in the office of the City Clerk of the said City. For further particulars, reference is hereby made to said Resolution plans, profiles, drawings and specifications on file in the office of the City Clerk of said City, and according to the specifications contained in said Resolution, numbered 31, 42 and 57 on file in the office of the City Clerk of the said City, drawings, cross-sections, drawings and specifications heretofore approved by the said City Council are incorporated herein and made a part hereof, and reference is hereby made to said Resolution of Intention No. 2166, for a particular description of the said work. The said Council has determined and declared that the contemplated work or improvement was, in the opinion of said Council, of more than local or ordinary public benefit and the said Council has made the cost of the said work and improvement chargeable upon a district. For a particular description of said district reference is hereby made to said Resolution of Intention No. 2166. Reference is hereby made to the National Pavements Corporation of

LEVEL SESSION AT LEGION MEET

Date for Annual Election of Officers of Post Set for December 21

With Past Commander James F. McBryde occupying the chair at the request of Commander Chalmers Day, and Past Commander Emil O. Kiefer very efficiently performing the duties of Sergeant-at-arms, Glendale Post No. 127 of the American Legion held one of the most successful meetings of the year, last night. While a good deal of business of a routine nature was transacted during the evening, the occasion was really one of jollity, and Commander McBryde was very liberal with his fines for alleged infraction of the rules. Fifteen visitors from outside posts were present and complimented Glendale post very highly on the "pep" exhibited.

Election December 21 The date for the annual election of officers was set for December 21. The following members of the legion have been placed in nomination for the various offices:

Post Commander — Comrades Butler, Sizer, Frug and Wilson. First vice-commander — Comrades Wilson, Regelin and Gilliland. Second vice-commander — Comrades Grayson, Richards and Postle. Sergeant-at-arms — Comrades Wheelon, Armstrong, Solano, Kiefer, Collage. Treasurer — Comrade McCormack. Executive committee (five to be elected) — Comrades Reeves, Wittmeyer, Packer, Stephenson, White, Brown, Kaeding, Dix, Fish, Hayward, Mabry. Trustees (three to be elected) — Comrades Kaeding, Fraser, Preston, Mabry, Hayward and Guthrie.

An Omalvator, which its inventor claims will ascend, descend or move in any direction, or remain stationary in the air, is to compete in the British helicopter contest.

CITY PRINTING

California License Mixture Agreement dated the 31st day of May, 1923, and on file in the office of the City Clerk of said City, and on file in the office of the City Clerk of said City, ordering the work described in said Resolution, to-wit: The grading, paving with macadam pavement, the construction of cement curbs and otherwise improving portions of Hill Drive and Sycamore Canon Road in said city, and as more particularly described in Resolution of Intention No. 2179, passed and adopted by the Council of said City on the 8th day of November, 1923, and on file in the office of the City Clerk of said City, reference is hereby made to said Resolution of Intention No. 2179, drawings, cross-sections and specifications heretofore approved by the said Council are incorporated herein and made a part hereof, and reference is made thereto for a particular description of said work. The Council of the City of Glendale determined and declared that serial bonds to represent unpaid assessments, and to bear interest at the rate of seven per cent (7%) per annum shall be issued hereunder in the manner provided by the Improvement Bond Act, and the last installment of said bonds shall mature nine (9) years from the second day of July next succeeding ten (10) months from their date. The said Council also determined and declared that the contemplated work or improvement was, in the opinion of said Council, of more than local or ordinary public benefit and said Council has made the costs and expenses of said improvement chargeable upon a district. For a particular description of said district reference is hereby made to said Resolution of Intention No. 2179.

RESOLUTION NO. 2205

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF GLENDALE, DETERMINING THAT THE PUBLIC INTEREST AND NECESSITY DEMAND THE ACQUISITION BY SAID CITY OF CERTAIN MUNICIPAL IMPROVEMENT, THE COST OF WHICH WILL BE TOO GREAT TO BE PAID OUT OF THE ORDINARY ANNUAL INCOME AND REVENUE OF SAID CITY. BE IT RESOLVED BY THE COUNCIL OF THE CITY OF GLENDALE:

SECTION 1: That the public interest and necessity demand the acquisition, construction and completion by the City of Glendale of the following municipal improvement, and the public interest demands the expenditure for municipal purposes of said City of the cost, as hereinafter estimated and stated, of the following improvement, to-wit: A municipal sewer system for the collection and carrying off of sewage in and away from said City of Glendale, consisting of the acquisition, construction and completion by said City of Glendale of (a) an outfall sewer outside of said City of Glendale, and (b) a system of intercepting sewers, mostly inside but partly outside of said City of Glendale, connecting with said outfall sewer of the City of Glendale, together with the necessary lands, easements, rights of way, pipe, machinery, materials and apparatus necessary to acquire, construct and complete said outfall and intercepting sewers of said City of Glendale. Said sewer system is to be acquired, constructed and completed in substantial accordance with an agreement dated September 28th, 1923 between the City of Los Angeles and the City of Glendale, executed pursuant to a resolution passed by the Council of the City of Glendale on the 16th day of October, 1923, (a copy of which agreement is on file in the office of the City Clerk of the City of Glendale) and any amendments to said agreement which may be hereafter made, and said sewer system may be used not only by the City of Glendale but also by others as in said agreement provided. The estimated cost of said municipal improvement is \$3,000,000. Six Hundred Thousand Dollars (\$1,600,000.00), and said estimated cost is and will be too great to be paid out of the ordinary annual income and revenue of said City, and the expenditure thereof cannot be provided for out of the ordinary revenue of said City.

SECTION 2: The City Clerk shall certify to the passage of this resolution by a vote of two-thirds of the members of the Council of the City of Glendale and its approval by the Mayor and shall thereupon cause it to be published once in the Glendale Evening News, the official newspaper of said City. I, J. A. J. VAN WIE, City Clerk of the City of Glendale, do hereby certify that the total number of members of the Council of the City of Glendale is five and that the foregoing resolution was duly passed by said Council by a two-thirds vote of its members and signed and approved by the Mayor at a regular meeting thereof held on the 6th day of December, 1923, and was passed by the following vote: Ayes: Hall, Horn, Davis, Robinson. Noes: None. Absent: Kivimlin. J. VAN WIE, City Clerk of the City of Glendale. Dec. 8, 1923

CONSUMERS FEAR PRICE INCREASE

Ten Per Cent Wage Boost to Miners Will Be Added to Costs, Is Claim

Although the new contract between operators and miners brought an early termination of the recent strike in the anthracite fields, and afforded relief from the immediate menace of another shortage of domestic fuel, consumers have no doubt that the increased cost of mining, due to the 10 per cent increase in wages, will mean higher prices for the commodity, states the current issue of the "Guaranty Survey," which has just been published by the Guaranty Trust company of New York. They also realize that the needed basis for assured continuity of production has not been established. The settlement is obviously a temporary compromise that leaves unsolved the most vital problems of the industry.

"The public is weary of conditions that result in suspensions of production with the expiration of successive agreements between operators and miners," the "Survey" continues. "Strikes in the industry have become increasingly frequent in recent years. In the three years from September, 1920, to September, 1923, there have been three general strikes. In the preceding seventeen years there had been but two general suspensions. Each of the five strikes since 1902 was incident to the establishment of a new agreement. Since the introduction of the general agreement in 1903, only twice—in 1909 and 1916—upon the expiration of a contract, has a new agreement been effected without the intervention of a strike. Apparently, therefore, the frequency of strikes in this industry is now governed by the length of the periods for which the contracts run. Such a condition can be satisfactory to no one, least of all to the consumers of anthracite, which is the principal domestic fuel for the population of the northeastern states. Requirements to Meet

The demands which the public make upon the anthracite industry—an ample and dependable supply of the commodity at reasonable prices, with adequate wages and working conditions for the miners, and fair profits for operators and distributors—are easily stated. There, agreement ends. Judgments differ, of course, as to what constitute equitable wages, profits, and prices. But it does not follow that recurrent strikes and temporary truces must be continuing features of any working basis in the industry. Rather, there is needed a condition which would further encourage miners, as well as operators, to accept the arbitration of an impartial tribunal when, through direct negotiations, their representatives fail to reach an agreement. Only the pressure of public opinion can establish and maintain this peaceful method of settling disputes. And public opinion, if it is to be other than an expression of prejudices, must reflect accurate and comprehensive knowledge of the pertinent facts. Dissemination of this information offers the first essential basis for an acceptable settlement of the anthracite problem.

"Some features of the anthracite situation are unique, differing in important respects from conditions in most other industries. Practically all the hard coal deposits of the country lie within a small section of Pennsylvania embracing about 480 square miles, as compared with an area of approximately 458,000 square miles underlain by soft coal, which is mined in thirty-one states. The unmined anthracite deposits amount to about 16 billion tons, or two-thirds of the original deposits, as against some 3500 billion tons of soft coal.

Industrial Organization "Production and marketing problems in the industry are complicated by the necessity for preparing the product for its several uses, chiefly domestic, and finding markets for the "steam" sizes. The latter constitute on the average about 30 per cent of the total fresh output. For industrial uses these sizes, not generally satisfactory for household purposes, compete unequally with soft coal. About one-third of the output of steam sizes is consumed at the mines. Most of what is marketed is sold at less than average cost of production, the loss being offset by profits on the domestic sizes.

"Although the domestic consumption of coal, principally for heating homes, is subject to wide seasonal fluctuations, anthracite may be stored in large quantities for comparatively long periods with slight deterioration of quality and with but slight fire risk. Consequently, mining activity is fairly well distributed throughout the year. Moreover, the demand for anthracite is more nearly uniform from year to year than is the demand for soft coal, which varies widely with the fluctuations in general business activity.

Stationary Production "A striking feature of the anthracite industry is the comparatively stationary output in recent years despite the growth in population. Only twice since 1913 has the annual production exceeded the output of 91,500,000 net tons in that year. The range of fluctuations in this period—with the exception of 1922, then owing to the long strike—the output dropped to 53,000,000 tons—was from 87,600,000 tons in 1916 to 99,600,000 tons in 1917. "The comparatively stationary production of anthracite under conditions which would apparently call for a steady growth in production, may be accounted for by increased competition in the matter of prices. Advancing prices of domestic sizes of anthracite, as compared with prices of substitute fuels, has resulted in increased use of gas, petroleum products, coke, and bituminous coal for domestic purposes. In the opinion of the Coal Commission, at present the supply of unskilled laborers is the immediate limiting factor in anthracite production. This has been the condition since 1916." Whether or not this shortage has been due to inadequate wages, will be more clearly shown by the effects of the new wage rates upon the labor supply and its output. "It appears from the commission's report on the anthracite industry that, under the contract which has just expired, the most usual range of annual earnings of contract miners—those who are paid on a tonnage basis—was from \$1,500 to \$2,000, with the next largest group earning from \$2,000 to \$2,500 a year. Adult workers outside the mines, who worked to the full extent of their opportunity, earned generally from \$1,100 to \$1,700 a year. Wholesale prices of anthracite dropped to 53,000,000 tons—was from 87,600,000 tons in 1916 to 99,600,000 tons in 1917. "The comparatively stationary production of anthracite under conditions which would apparently call for a steady growth in production, may be accounted for by increased competition in the matter of prices. "It appears from the commission's report on the anthracite industry that, under the contract which has just expired, the most usual range of annual earnings of contract miners—those who are paid on a tonnage basis—was from \$1,500 to \$2,000, with the next largest group earning from \$2,000 to \$2,500 a year. Adult workers outside the mines, who worked to the full extent of their opportunity, earned generally from \$1,100 to \$1,700 a year. Wholesale prices of anthracite dropped to 53,000,000 tons—was from 87,600,000 tons in 1916 to 99,600,000 tons in 1917. "The comparatively stationary production of anthracite under conditions which would apparently call for a steady growth in production, may be accounted for by increased competition in the matter of prices. Advancing prices of domestic sizes of anthracite, as compared with prices of substitute fuels, has resulted in increased use of gas, petroleum products, coke, and bituminous coal for domestic purposes. In the opinion of the Coal Commission, at present the supply of unskilled laborers is the immediate limiting factor in anthracite production. This has been the condition since 1916." Whether or not this shortage has been due to inadequate wages, will be more clearly shown by the effects of the new wage rates upon the labor supply and its output.
